

Chapter 1

Logic Games: Fun or Frightening?

In This Chapter

- Exploring the test
 - Understanding why logic games are tricky for most people
 - Knowing the basic parts and types of logic games
 - Getting familiar with some common logic game variations
 - Seeing three important logic game strategies
-

The Analytical Reasoning test — Logic Games, for short — is the hardest part of the LSAT. There, I've said it. I suppose I could soften these words a bit: *For most people*, the Logic Games section is the hardest part of the LSAT. But whichever way I say it, the question still remains: Why do otherwise smart people flee in terror at the thought of spending 35 minutes doing logic games? And what, beyond the mystique, are logic games really all about?

In this chapter, I explore these questions. I begin by discussing the type of thinking — usually not covered in school — that logic games demand. After that, I give you some basic information about logic games. I show you how to begin setting up a game board, your main tool for organizing the logical information you find in logic games. I introduce you to the two most basic types of logic games — line games and sorting games.

I also give you an overview of some of the common variations on these themes, which I cover throughout the book. To finish up, I give you a quick look at three strategies for solving logic games, which I cover in greater depth later in the book.

The Logic Games Part of the LSAT

The Law School Admission Test (LSAT) is required for entrance into virtually any accredited U.S. law school. It's offered four times a year — in February, June, September, and December — and it includes six sections:

- One Reading Comprehension Test (35 minutes)
- Two Logical Reasoning Tests (35 minutes each)
- One Analytical Reasoning (Logic Games) Test (35 minutes)
- One Unsourced Test, which is used for new-question development; it can be any of the preceding tests, but it doesn't count toward your LSAT score (35 minutes)
- One Writing Sample (30 minutes)
