Lucrezio e il criterio di verità epicureo Chiara Rover, 2025-06-02 Was Lucretius a fundamentalist Epicurean and a mere repeater of his Master's words or did he emerge as an innovative philosopher in his own right The relationship between Lucretius and Epicurus remains a complex and unresolved issue in Epicurean scholarship To what extent was Lucretius aware of intellectual debates following Epicurus and how did he contribute to them The volume examines these questions through an epistemological lens focusing on the Canon of the science of the criterion Epicurus who died around 271-270 BC did not fully witness firsthand the impact of his doctrines on Hellenistic epistemology nor could he defend them against subsequent criticisms tasks left to his successors By systematically examining the doctrine of the criterion of truth in *De rerum natura* this study shows how Lucretius actively engaged in the defence and evolution of early Epicureanism Despite his fidelity to Epicurus the Poet displayed a remarkable philosophical ability to independently rethink and rework materials from both within the Epicurean tradition and beyond thereby reiterating on a broader scale the non-monolithic nature of the *Kepos* It appeals to scholars interested in Hellenistic and Roman philosophy alike

Lucretian Receptions in Prose George Kazantzidis, 2024-09-02 The examination of Lucretian reception in Latin poetry has been served well by scholars Lucretius' presence in later prose writers on the other hand is a topic that warrants more investigation Susanne Gatzemeier's 2013 monograph *Ut ait Lucretius Die Lukrezrezeption in der lateinischen Prosa bis Laktanz* is an invaluable contribution to the topic but by no means exhaustive either in terms of the potential intertextualities it traces or in terms of its interpretive methods and insights At the same time recent studies implicate Lucretius' name in discussions of prose writers who were not that often thought in the past to have engaged with the *De Rerum Natura* in an active way Caesar and

Livy but also Vitruvius and Tacitus are some good examples The present volume taps into this discussion and broadens further our understanding of Lucretian reception in prose writers including Cicero Celsus Seneca the Younger Quintilian Pliny the Younger Plutarch and Lactantius Building on the vast scholarship on the significance of Lucretius as a model for later poets the volume sheds new light on the *De Rerum Natura* s afterlife by looking at its presence in philosophical prose medical writing oratory epistolary writing and Christian theology Imitating Authors Colin Burrow, 2019 People learn by imitating other people Authors do the same This book explains how authors from the earliest stages of Western literature to the present day have imitated each other **Classical Literature: A Very Short Introduction** William Allan, 2014-03-27 From popular histories through to reworkings of classical subject matter by contemporary poets dramatists and novelists the classical world and the masterpieces of its literature continue to fascinate readers and audiences in a huge variety of media In this *Very Short Introduction* William Allan explores what the classics are and why they continue to shape our Western concepts of literature Presenting a range of material from both Greek and Latin literature he illustrates the variety and sophistication of these works and considers examples from all the major genres Ideal for the general reader interested in works of classic literature as well as students at A Level and University this is a lively and lucid guide to the major authors and literary forms of the ancient period ABOUT THE SERIES The *Very Short Introductions* series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable Systematic Atheology John R. Machiavelli and Epicureanism Robert J. Roeklein, 2012-10-05 This book investigates the influence of Epicurean physics on the argument developed in Machiavelli's Discourses on Livy Towards this end the full philosophical history and origins of atomist philosophy are investigated during the first three chapters Plato's critique of the atomist philosophy from his dialogue the Parmenides is a part of that investigation In fact Plato provides a refutation of the atomist philosophy in the Parmenides A significant amount of scholarship has been accomplished that demonstrates the currents of Lucretian atomism in Machiavelli's Florence Evidence is supplied as to Machiavelli's exposure to the Lucretian text and the book then proceeds to investigate the transformational arguments of the Discourses On Livy itself Machiavelli's Discourses are saturated with terminology that is borrowed from physics materia Matter corpo body forma form accidente accident English translators have usually employed some theory as to which tradition of physics Machiavelli is relying upon in order to conduct their translations By borrowing the terminology of Lucretian physics Machiavelli becomes able to conceive of the people in a political society as something less than human as matter or materia without form In my analysis of Machiavelli's deployment of the concepts from Lucretian physics it is attempted to unveil the brutality that is inherent in Machiavelli's new definitions of the elements of politics and the general hostility of his political

science to the Aristotelian concept of the human being as political animal. The classical physics of Aristotle which Machiavelli has rejected for a model indicates the forward looking momentum of natural beings. For Aristotle nature intends human political society as the arena for human fulfillment. In Aristotelian physics nature aims at an end in generation i.e. at a culmination of the natural being in its proper condition of excellence. For human beings this is justice the quality of relationships that makes happiness possible. In Machiavelli a new politicized physics is revealed. In Machiavelli's model the human beings of formed matter are repeatedly sent through new institutions and methods of government back to their beginnings i.e. to a condition of isolation, destitution, injury and pain. The last chapter of the book concludes with an examination of the particular institutions and methods that Machiavelli holds out to us for employment if his new vision of a republic is to be realized.
