Lusage Corps Homo Sacer Iv:

On the Greek Origins of Biopolitics Mika Ojakangas, 2016-04-28 This book explores the origins of western biopolitics in ancient Greek political thought Ojakangas s argues that the conception of politics as the regulation of the quantity and quality of population in the name of the security and happiness of the state and its inhabitants is as old as the western political thought itself the politico philosophical categories of classical thought particularly those of Plato and Aristotle were already biopolitical categories In their books on politics Plato and Aristotle do not only deal with all the central topics of biopolitics from the political point of view but for them these topics are the very keystone of politics and the art of government Yet although the Western understanding of politics was already biopolitical in classical Greece the book does not argue that the history of biopolitics would constitute a continuum from antiquity to the twentieth century Instead Ojakangas argues that the birth of Christianity entailed a crisis of the classical biopolitical rationality as the majority of classical biopolitical themes concerning the government of men and populations faded away or were outright rejected It was not until the renaissance of the classical culture and literature including the translation of Plato s and Aristotles political works into Latin that biopolitics became topical again in the West The book will be of great interest to scholars and students in the field of social and political studies social and political theory moral and political philosophy IR theory intellectual history classical studies

Dante as Political Theorist Maria Luisa Ardizzone, 2018-11-15 Dante s Latin treatise Monarchia inscribes itself within the long medieval conflict between Pope and Emperor and the debate that opposed the theorists of theocracy to the supporters of the empire The Monarchia traditionally assumed to be a subversive work as its tormented reception testifies it remained listed in the Index of Prohibited Books from 1559 to the end of the 19th century results from the strong connection Dante emphasized between politics and ethics The bene esse of human beings is the crucial issue that the treatise discusses since its very beginning More than focusing on power and sovereignty the Monarchia aims to demonstrate that the government of a single universal ruler guarantees the achievement of the natural goal of human life The central role assigned to the Emperor discloses in fact the importance the poet gives to earthly happiness and to the temporal dimension of humanitas The essays in this volume are the result of the first International Symposium of the Global Dante Project of New York a scholarly initiative committed to the systematic study of the whole of Dante s opus Held in 2015 and devoted to the Monarchia this inaugural event saw the participation of scholars from Europe and the USA who investigated Dante s political treatise addressing diverse issues and from multiple and innovative methodological perspectives The fertile discussion generated on that occasion and the insights it produced animate this book

disarray Critique flounders in abstraction and negativity law loses itself in particularity Administering Interpretation brings together philosophers humanists and jurists from both continental and Anglophone jurisdictions to reassess the status and trajectory of interpretative theory as applied in the art of law Tracking the thread of philosophical influences upon the community of legal interpretation the essays move from the translation and wake of Derrida to the work of Agamben from deconstruction to oikonomia Sharing roots in the philological excavation of the political theology of modern law contributors assess the failure of secularism and the continuing theological borrowings of juridical interpretation The book brings contemporary critique to bear upon the interpretative apparatuses of exclusion the law of spectacular sovereignty and the bodies that lie in its wake Contributors Giovanna Borradori Marinos Diamantides Allen Feldman Stanley Fish Pierre Legrand Bernadette Meyler Michel Rosenfeld Bernhard Schlink Jeanne Schroeder Laurent de Sutter Katrin Tr stedt Marco Wan

Territories, Environments, Politics Andrea Mubi Brighenti, Mattias Kärholm, 2022-04-19 This collection seeks to illustrate the state of the art in territoriological research both empirical and theoretical The volume gathers together a series of original previously unpublished essays exploring the newly emerging territorial formations in culture politics and society While the globalisation debate of the 1990s largely pivoted around a general deterritorialisation hypothesis since the 2000s it has become apparent that rather than effacing territories global connections are added to them and represent a further factor in the increase of territorial complexity Key questions follow such as How can we further the knowledge around territorial complexities and the ways in which different processes of territorialisation co exist and interact integrating scientific advances from a plurality of disciplines Where and what forms does territorial complexity assume and how do complex territories operate in specific instances Which technological political and cultural facets of territories should be tackled to make sense of the life of territories How and by what different or combined methods can we describe territories and do justice to their articulations and meanings How can the territoriological vocabulary relate to contemporary social theory advancements such as ANT the ontological turn the mobilities paradigm sensory urbanism and atmospheres research How can territorial phenomena be studied across disciplinary boundaries *Territories Environments Politics* casts a fresh perspective onto a number of key contemporary socio spatial phenomena Refraining from the attempt to ossify territoriology into some disciplinary straightjacket the collection aims to illustrate the scope of current territoriological research its domain its promises its theoretical advancements and its methodological reflection in the making Scholars interested in social research will find in this collection a rich and imaginative theoretical methodological toolkit Students in human geography anthropology and sociology socio legal studies architecture and urban planning will find *Territories Environments Politics* of interest **Religion in Reason** Tarek R. Queeriser l'art Jean-Claude Moineau, 2016-11-03T00:00:00+01:00 Queeriser l'art ce n'est pas vouloir promouvoir un art queer si tant est que cela existe ou que cela puisse exister et encore moins vouloir esthétiser ou artistiser la pensée et la pratique queer C'est renoncer définitivement toute ontologie comme tout paradigme c'est rejeter toute prétention la catégorisation commencer par les catégories d'art pur et même d'art Ouvrir des pistes mais pas pour les refermer aussitôt le queer ne procédant pas de la vaine recherche d'une identité de plus même minoritaire ou mineure mais tout au contraire d'une entreprise de désidentitarisation de désidentification de critique de toute identité Non pas un roman fleuve mais un livre fleuve pas si tranquille que cela un livre montage une sorte de cut up théorique mixant les références les plus diverses les plus hétérogènes voire les plus hétéroclites Faut-il quitter le monde de l'art pour rester debout On pensera ici Lee Lozano Raivo Puusemp et beaucoup d'autres de cette première génération d'artistes qui avaient anticipé ce devenir de l'art toxique et obscur et ne voulaient s'y compromettre Certains y sont revenus d'autres ont disparu Dérision terrible et aveu de faillite personnelle Perspective d'années antissements La question se pose Elle a fait autour de nous l'objet de nombreuses discussions Personnellement nous ne nous résignons pas abandonner la fois pour maintenir les zones de résistances mais aussi parce que c'est sans doute le moment d'agir de repenser tout le cosystème de l'art de participer à l'effondrement de celui en place en anticipant des chappatoires
