Grandfather Counts Reading Rainbow S:

Creating Reading Rainbow Barbara Irwin, Tony Buttino, Pam Johnson, 2024-06-18 Reading Rainbow is one of the most successful PBS children's series in television history earning numerous national and international awards including 26 Emmys and a Peabody Award But perhaps more important than anything else Reading Rainbow helped generations of children cultivate a love for books Reading Rainbow is very much a story of humble beginnings and enormous perseverance Over five summers Tony Buttino Sr and his colleagues at WNED TV the public television station in Buffalo New York worked in collaboration with educators and librarians to experiment with summer reading programs But after trialing these programs the WNED team realized there was a big need for a new children's literacy series and believed they could create a new show with local and national collaborators and friends After fits and starts and enough twists and turns to fill a children's book Reading Rainbow premiered in the summer of 1983 and captured the attention of 6.5 million young viewers Creating Reading Rainbow explores the many intriguing and homespun stories that when woven together reveal how this groundbreaking and iconic television series came to be What led to the series being called Reading Rainbow How did the road to Reading Rainbow wind its way through Mister Rogers Neighborhood How did a public television station in Buffalo spearhead a movement in education and spark the passion for reading in millions of children And what does lasagna have to do with it

A Village Boy's Journey Prof Upendra Chowdhary, 2025-03-03 The idea of writing a book which would tell the stories from my life beginning from a village in India to becoming a Professor of Neurosurgery with the basic MBBS degree and a Master's degree in surgery obtained in Agra India and then having higher neurosurgical training at elite neurosurgical departments in England and attaining Fellowships of Royal Colleges of Surgeons qualifications to become accredited in the UK as a fully trained neurosurgeon The journey till here needed considerable sacrifice and overcoming several obstacles such as leaving my home in India as well as my parents grandfather brothers and sisters and close friends It also required ingenuity adapting to different culture climate and working environment after leaving the cosy life as a child among my well to do extended family My aim in writing stories from my life as a memoir shows that with will power persistence knowledge ingenuity and moral integrity how a village boy from India achieved a life long ambition to become a Professor of Neurosurgery and helped thousands of patients and has continued even in 2023 at the age of 82 years to work towards helping injured patients due to accident or due to clinical negligence to get adequate monetary compensation through English justice system which has many flaws and limitations still in 2023 I also believe that as my life story begins at the era of Quit India movement of 1942 and continues through major socio economic changes during the post independence period and then further through my life journey in England Ireland Saudi Arabia it will be useful to other people to read about my experiences In these books I have also depicted the changes in Indian economic structural and societal changes that has happened in previous 80 years There are numerous stories of innovations in saving lives and limbs by learning and use of

evolving modern neurosurgical techniques and technology where I have not only described the life changing events of several neurosurgical patients with use of modern technique and technology in various divergent countries but have also depicted the social economic and cultural aspect of life in these diverse countries and the courage and fortitude of numerous of my patients when faced with life changing diseases
