Grassroots Post Modernism Remaking The Soil Of Cultures Critique Influence Change:

Grassroots Postmodernism Gustavo Esteva, Madhu Suri Prakash, 2014-08-14 With the publication of this remarkable book in 1998 Gustavo Esteva and Madhu Suri Prakash instigated a complete epistemological rupture Grassroots Post modernism attacks the three sacred cows of modernity global thinking the universality of human rights and the self sufficient individual Rejecting the constructs of development in all its forms Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives shifting this control to bureaucrats technocrats and educators Rather than presuming that human progress fits a predetermined mould leading towards an increasing homogenization of cultures and lifestyles the authors argue for a radical pluralism that honours and nurtures distinctive cultural variety and enables many paths to the realization of self defined aspirations This classic text is essential reading for those looking beyond neoliberalism the global project and the individual self

Debating Cultural Hybridity Professor Pnina Werbner, Tariq Modood, 2015-01-08 Why is it still so difficult to negotiate differences across cultures In what ways does racism continue to strike at the foundations of multiculturalism Bringing together some of the world s most influential postcolonial theorists this classic collection examines the place and meaning of cultural hybridity in the context of growing global crisis xenophobia and racism Starting from the reality that personal identities are multicultural identities Debating Cultural Hybridity illuminates the complexity and the flexibility of culture and identity defining their potential openness as well as their closures to show why anti racism and multiculturalism are today still such hard roads to travel

Patriarchy and Accumulation on a World Scale Maria Mies, 2014-07-10 It is my thesis that this general production of life or subsistence production mainly performed through the non wage labour of women and other non wage labourers as slaves contract workers and peasants in the colonies constitutes the perennial basis upon which capitalist productive labour can be built up and exploited First published in 1986 Maria Mies s progressive book was hailed as a major paradigm shift for feminist theory and it remains a major contribution to development theory and practice today Tracing the social origins of the sexual division

of labour it offers a history of the related processes of colonization and housewifization and extends this analysis to the contemporary new international division of labour Mies's theory of capitalist patriarchy has become even more relevant today This new edition includes a substantial new introduction in which she both applies her theory to the new globalized world and answers her critics [Another World Is Possible](#) William Fisher, Thomas Ponniah, 2015-05-14 In 2001 the first World Social Forum was held in Porto Alegre Brazil The meeting was viewed by many at the time as a new manifestation of the global Left a people's opposition to the World Economic Forum that stood as the first real front to global capitalism since the collapse of the Soviet Union While many activists and intellectuals on the left have since become deeply critical of the Forum newer movements such as Occupy the Arab Spring and the indignados have built upon its successes and innovations Another World is Possible is the original collection of essays and demands from the heart of the movement of movements Based on the work of the first two annual meetings of the WSF this classic collection not only set out the initial aims of the movements that came together it also paved the way for the theoretical study of new social movements their multiple and participatory character Today as many crises affect all our lives it is time to revisit the original demands of a global solidarity movement united in its determination to fight against the concentration of wealth the proliferation of poverty and inequalities and the destruction of our earth and to reconstitute a global left

The Lords of Human Kind Victor Kiernan, 2015-02-12 When European explorers went out into the world to open up trade routes and establish colonies they brought back much more than silks and spices cotton and tea Inevitably they came into contact with the peoples of other parts of the world and formed views of them occasionally admiring more often hostile or contemptuous Using a stunning array of sources missionaries memoirs the letters of diplomats wives explorers diaries and the work of writers as diverse as Voltaire Thackeray Oliver Goldsmith and of course Kipling Victor Kiernan teases out the full range of European attitudes to other peoples Erudite ironic and global in its scope The Lords of Human Kind has been a major influence on a generation of historians and cultural critics and is a landmark in the history of Eurocentrism

A Fundamental Fear S. Sayyid, 2015-02-12 The fear and anxiety aroused by Islamism is not a myth nor is it simply a consequence of terrorism or fundamentalism Writing in 1997 before 9/11 and before the austerity that has bred a new generation of far right groups across Europe and the US S. Sayyid warned of a spectre haunting Western civilization This groundbreaking book banned by the Malaysian government is both an analysis of the conditions that have made Islamic fundamentalism possible and a provocative account of the ways in which Muslim identities have come to play an increasingly political role throughout the world This is a pioneering provocative and intricately crafted study which shows the challenge of Islamism is not only geopolitical or even cultural but also epistemological

Global Governance and the New Wars Mark Duffield, 2014-02-13 In this hugely influential book originally published in 2001 but just as if not more relevant today Mark Duffield shows how war has become an integral component of development discourse Aid agencies have become increasingly involved in

humanitarian assistance conflict resolution and the social reconstruction of war torn societies Duffield explores the consequences of this growing merger of development and security unravelling the nature of the new wars and the response of the international community in particular the new systems of global governance that are emerging as a result An essential work for anyone studying interested in or working in development or international security **Planet Dialectics** Wolfgang Sachs,2015-03-12 All effects of human action will inevitably be played out within our planet s limits any hope of infinity is an illusion And yet as Wolfgang Sachs warned almost twenty years ago environmental concerns have been assimilated into the rhetoric dynamics and power structures of development This classic collection of trenchant and elegant explorations addresses the crisis of the Western world s relations with nature and social justice Examining the notions of efficiency speed globalization and development Sachs shows that sustainability truly conceived is incompatible with the worldwide rule of economism Planet Dialectics reveals that the Western development model is fundamentally at odds with both the quest for justice among the world s people and the aspiration to reconcile humanity and nature Capitalism in the Age of Globalization Samir Amin,2014-02-13 Samir Amin remains one of the world s most influential thinkers about the changing nature of North South relations in the development of contemporary capitalism In this highly prescient book originally published in 1997 he provides a powerful analysis of the new unilateral capitalist era following the collapse of the Soviet model and the apparent triumph of the market and globalization Amin s innovative analysis charts the rise of ethnicity and fundamentalism as consequences of the failure of ruling classes in the South to counter the exploitative terms of globalization This has had profound implications and continues to resonate today Furthermore his deconstruction of the Bretton Woods institutions as managerial mechanisms which protect the profitability of capital provides an important insight into the continued difficulties in reforming them Amin s rejection of the apparent inevitability of globalization in its present polarising form is particularly prophetic instead he asserts the need for each society to negotiate the terms of its inter dependence with the rest of the global economy A landmark work by a key contemporary thinker **Ecofeminism** Vandana Shiva,Maria Mies,2014-03-13 This groundbreaking work remains as relevant today as when it was first published Two of Zed s best known authors argue that ecological destruction and industrial catastrophes constitute a direct threat to everyday life the maintenance of which has been made the particular responsibility of women In both industrialized societies and the developing countries the new wars the world is experiencing violent ethnic chauvinisms and the malfunctioning of the economy also pose urgent questions for ecofeminists Is there a relationship between patriarchal oppression and the destruction of nature in the name of profit and progress How can women counter the violence inherent in these processes Should they look to a link between the women s movement and other social movements Maria Mies and Vandana Shiva offer a thought provoking analysis of these and many other issues from a unique North South perspective They critique prevailing economic theories conventional concepts of women s emancipation the myth of catching up development the philosophical

foundations of modern science and technology and the omission of ethics when discussing so many questions including advances in reproductive technology and biotechnology In constructing their own ecofeminist epistemology and methodology these two internationally respected feminist environmental activists look to the potential of movements advocating consumer liberation and subsistence production sustainability and regeneration and they argue for an acceptance of limits and reciprocity and a rejection of exploitation the endless commoditization of needs and violence *Communication, Culture and Social Change* Mohan Dutta, 2020-06-30 Drawing on the culture centered approach CCA this book re imagines culture as a site for resisting the neocolonial framework of neoliberal governmentality Culture emerged in the 20th Century as a conceptual tool for resisting the hegemony of West centric interventions in development disrupting the assumptions that form the basis of development This turn to culture offered radical possibilities for decolonizing social change but in response neocolonial development institutions incorporated culture into their strategic framework while simultaneously deploying political and economic power to silence transformative threads This rise of culture as development corresponded with the global rise of neo liberal governmentality incorporating culture as a tool for globally reproducing the logic of capital Using examples of transformative social change interventions this book emphasizes the role of culture as a site for resisting capitalism and imagining rights based sustainable and socialist futures In particular it attends to culture as the basis for socialist organizing in activist and party politics In doing so Culture Participation and Social Change offers a framework of inter linkage between Marxist analyses of capital and cultural analyses of colonialism It concludes with an anti colonial framework that re imagines the academe as a site of activist interventions Male Daughters, Female Husbands Professor Ifi Amadiume, 2015-03-12 In 1987 more than a decade before the dawn of queer theory Ifi Amadiume wrote Male Daughters Female Husbands to critical acclaim This compelling and highly original book frees the subject position of husband from its affiliation with men and goes on to do the same for other masculine attributes dislocating sex gender and sexual orientation Boldly arguing that the notion of gender as constructed in Western feminist discourse did not exist in Africa before the colonial imposition of a dichotomous understanding of sexual difference Male Daughters Female Husbands examines the structures in African society that enabled people to achieve power showing that roles were not rigidly masculinized nor feminized At a time when gender and queer theory are viewed by some as being stuck in an identity politics rut this outstanding study not only warns against the danger of projecting a very specific Western notion of difference onto other cultures but calls us to question the very concept of gender itself **Architecture and Space Re-imagined** Richard Bower, 2016-06-10 As with so many facets of contemporary western life architecture and space are often experienced and understood as a commodity or product The premise of this book is to offer alternatives to the practices and values of such westernised space and Architecture with a capital A by exploring the participatory and grass roots practices used in alternative development models in the Global South This process re contextualises the spaces values and relationships

produced by such alternative methods of development and social agency It asks whether such spatial practices provide concrete realisations of some key concepts of Western spatial theory questioning whether we might challenge the space and architectures of capitalist development by learning from the places and practices of others Exploring these themes offers a critical examination of alternative development practices methods in the Global South re contextualising them as architectural engagements with socio political space The comparison of such interdisciplinary contexts and discourses reveals the political social and economic resonances inherent between these previously unconnected spatial protagonists The interdependence of spatial issues of choice value and identity are revealed through a comparative study of the discourses of Henri Lefebvre John Turner Doreen Massey and Nabeel Hamdi These key protagonists offer a critical framework of discourses from which further connections to socio spatial discourses and concepts are made including post marxist theory orientalism post structural pluralism development anthropology post colonial theory hybridity difference and subalterneity By looking to the spaces and practices of alternative development in the Global South this book offers a critical reflection upon the working practices of Westernised architecture and other spatial and political practices In exploring the methodologies implications and values of such participatory development practices this book ultimately seeks to articulate the positive potential and political of learning from the difference multiplicity and otherness of development practice in order to re imagine architecture and space

Interdisciplinary Perspectives on Planetary Well-Being Merja Elo, Jonne Hytönen, Sanna Karkulehto, Teea Kortetmäki, Janne S. Kotiaho, Mikael Puurtinen, Miikka Salo, 2023-06-26 This book proposes a paradigm shift in how human and nonhuman well being are perceived and approached In response to years of accelerated decline in the health of ecosystems and their inhabitants this edited collection presents planetary well being as a new cross disciplinary concept to foster global transformation towards a more equal and inclusive framing of well being Throughout this edited volume researchers across the humanities social sciences and natural sciences apply and reflect on the concept of planetary well being showcasing its value as an interdisciplinary cross sectoral changemaker The book explores the significance of planetary well being as a theoretical and empirical concept in sustainability science and applies it to discipline specific cases including business education psychology culture and development Interdisciplinary perspectives on topical global questions and processes underpin each chapter from soil processes and ecosystem health to global inequalities and cultural transformation in the framework of planetary well being The book will appeal to academics researchers and students in a broad range of disciplines including sustainability science sustainable development natural resources and environmental humanities Calling readers to assess challenge and rethink the dominant perceptions of well being and societal activities this rich resource that explores the interconnection between human and nonhuman well being serves as a tool to foster transformative action towards a more sustainable society The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC
