Greed Lust And Gender A History Of Economic Ideas:

Greed, Lust & Gender Nancy Folbre, 2023 This book dramatizes the history of self interest by describing a centuries long debate over greed lust and appropriate gender roles Ranging from the 18th century to the present it offers a deft and engaging critique of economic history and the history of ideas from a feminist perspective **Greed, Lust and Gender** Nancy Folbre, 2009-10-22 This book dramatizes the history of self interest by describing a centuries long debate over greed lust and appropriate gender roles in terms that ordinary readers will enjoy Ranging from the 18th century to the present it offers a deft and engaging critique of economic history and the history of ideas from a feminist perspective **A History of Feminist and Gender Economics** Giandomenica Becchio, 2019-10-30 This book offers a historical exploration of the genesis of feminist economics and gender economics as well as their theoretical and methodological differences Its narrative also serves to embed both within a broader cultural context Although both feminist economics and gender neoclassical economics belong to the cultural process related to the central role of the political economy in promoting women s emancipation and empowerment they differ in many aspects Feminist economics mainly influenced by women s studies and feminism rejected neoclassical economics while gender neoclassical economics mainly influenced by home economics and the new home economics adopted the neoclassical economics approach to gender issues The book includes diverse case studies which also highlight the continuity between the story of women s emancipation and the more recent developments of feminist and gender studies This volume will be of great interest to researchers and academia in the fields of feminist economics gender studies and the history of economic thought Research in the History of Economic Thought and Methodology Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, Rebeca Gomez Betancourt, 2024-02-09 Research in the History of Economic Thought and Methodology RHETM is a book series dedicated to an interdisciplinary approach to a broad range of topics related to the history and methodology of economics *Capitalism's Sexual History* Nicola Jo-Anne Smith, 2020 As ongoing controversies over commercial sex attest the relationship between capitalism and sexuality is deeply contentious Economic and sexual practices are assumed to be not only separable but antithetical hence why paid sex is so often criminalized and morally condemned Yet while sexuality is highly politicized in moral terms it has largely been overlooked in the discipline devoted to the study of global capitalism international political economy IPE Likewise the prevailing field in sexuality studies queer theory has frequently sidelined questions of political economy This book calls for critical scholarship to challenge the economy sexuality dichotomy as it not only structures disciplinary debates but is part and parcel of capitalism itself *Capitalism's Sexual History* brings IPE and queer theory into close dialogue to explore how the division between economy and sexuality has been historically produced to appear both natural and moral By examining sex work in Britain Nicola J Smith draws on in depth archival research to chart a history of capitalism s sexual relations from medieval times to the present day She shows how capitalist development was made possible by the appropriation of unpaid sexual labor that relied

in turn on the repression and production of paid sex By tracing the historical construction of boundaries around sex and work this book exposes how capitalism has long profited from the notion that the sexual and economic spheres can and must be kept apart In so doing it offers a distinctive contribution to the study of sex and work as well as to wider scholarly activist and policy debates about political economy reproductive labor gender equality and sexual justice *History of Economic Thought Newsletter* ,2009 **Bridging the Gender Gap** Lynn Roseberry,Johan Roos,2014-07-24 Despite decades of efforts to promote gender equality most leadership positions in business politics education and even NGOs are occupied by men and most people still work in occupations dominated by one sex This book argues that gender imbalances in leadership and occupations are not simply a moral issue or an economic issue but a governance issue Gender imbalances persist in large part because the very people with the authority and influence to do something about them know very little about gender and how it works in their organizations and in society at large Gender imbalanced governance is an expression of entrenched ideas about masculinity and femininity that lead to poor decision making Improving the quality of governance requires action to counteract the main justifications for the status quo Based on interviews and conversations with leaders and managers in Europe and the United States the book presents seven of the most common explanations for persistent gender imbalances and shows how they are based on common stereotypes and myths about men s and women s abilities and preferences This book provides a guided tour of current research about gender from a multi disciplinary perspective It challenges commonly held assumptions and offers alternative explanations and corresponding principles to guide individual decisions action and behaviour toward achieving gender balance **Gender and Hindu Nationalism** Prem Kumar Vijayan,2019-08-23 This book presents an innovative approach to gender nationalism and the relations between them and analyses the broader social base of Hindu nationalist organisation to understand the growth of Hindutva or Hindu nationalism in India Arguing that Hindu nationalist thought and predilections emerge out of and in turn feed pre existing gendered tendencies the author presents the new concept of masculine hegemony specifically Brahmanical masculine hegemony The book offers a historical overview of the processes that converge in the making of the identity Hindu in the making of the religion Hinduism and in the shaping of the movement known as Hindutva The impact of colonialism social reform and caste movements is explored as is the role of key figures such as Mohandas Gandhi Indira Gandhi and Narendra Modi The book sheds light on the close yet uneasy relations that Hindu nationalist thought and practice have with conceptions of modernity development and women s movements and politics and the future of Hindu nationalism in India A new approach to the study of Hindu nationalism this book offers a theoretically innovative understanding of Indian history and socio politics It will be of interest to academics working in the field of Gender studies and Asian Studies in particular South Asian history and politics **For Love or Money** Nancy Folbre,2012-09-06 As women moved into the formal labor force in large numbers over the last forty years care work traditionally provided primarily by women has increasingly shifted from the family arena to the market Child care elder

care for the disabled and home care now account for a growing segment of low wage work in the United States and demand for such work will only increase as the baby boom generation ages But the expanding market provision of care has created new economic anxieties and raised pointed questions Why do women continue to do most care work both paid and unpaid Why does care work remain low paid when the quality of care is so highly valued How effective and equitable are public policies toward dependents in the United States In *For Love and Money* an interdisciplinary team of experts explores the theoretical dilemmas of care provision and provides an unprecedented empirical overview of the looming problems for the care sector in the United States Drawing on diverse disciplines and areas of expertise *For Love and Money* develops an innovative framework to analyze existing care policies and suggest potential directions for care policy and future research Contributors Paula England Nancy Folbre and Carrie Leana explore the range of motivations for caregiving such as familial responsibility or limited job prospects and why both love and money can be efficient motivators They also examine why women tend to specialize in the provision of care citing factors like job discrimination social pressure or the personal motivation to provide care reported by many women Suzanne Bianchi Nancy Folbre and Douglas Wolf estimate how much unpaid care is being provided in the United States and show that low income families rely more on unpaid family members for their child and for elder care than do affluent families With low wages and little savings these families often find it difficult to provide care and earn enough money to stay afloat Candace Howes Carrie Leana and Kristin Smith investigate the dynamics within the paid care sector and find problematic wages and working conditions including high turnover inadequate training and a pay penalty for workers who enter care jobs These conditions have consequences poor job quality in child care and adult care also leads to poor care quality In their chapters Janet Gornick Candace Howes and Laura Braslow provide a systematic inventory of public policies that directly shape the provision of care for children or for adults who need personal assistance such as family leave child care tax credits and Medicaid funded long term care They conclude that income and variations in states policies are the greatest factors determining how well and for whom the current system works Despite the demand for care work very little public policy attention has been devoted to it Only three states for example have enacted paid family leave programs Paid or unpaid care costs those who provide it At the heart of *For Love and Money* is the understanding that the quality of care work in the United States matters not only for those who receive care but also for society at large which benefits from the nurturance and maintenance of human capabilities As care work gravitates from the family to the formal economy this volume clarifies the pressing need for America to fundamentally rethink its care policies and increase public investment in this increasingly crucial sector

Deficit Emma Holten, 2025-03-06 AN INTERNATIONAL BESTSELLER WINNER OF THE POLITIKEN LITERATURE PRIZE 2024 Brilliantly rewrites the history of economic thought to place her story at its heart A must read Kate Raworth author of *DOUGHNUT ECONOMICS* One of the most important feminist voices of the 21st century The book about capitalism we didn't know we needed Sofie Hagen In 2020 the prominent

Danish feminist Emma Holten read an article stating that women were a net deficit to society. Women took more than they gave, draining the public purse by giving birth and taking parental leave. They contributed less than their fair share in taxes because they often worked part time to look after other people at home or held low paid jobs in the public sector. Denmark would be richer if women's lives looked more like men's. The economic experts concluded. A similar story is told around the globe. How did we get here? In *Deficit*, Emma Holten traces how economic thinkers from the Enlightenment onwards created a value framework that overlooked and neglected women's work and acts of care. She reveals how the economic models that drive political decisions today are just as flawed, giving us unparalleled monetary wealth but causing deep social harms that are hurting us all. If we cannot properly value the things that matter, how can we build a better future? **The Oxford Handbook of Feminist Theory** Lisa Disch, Mary Hawkesworth, 2018-02-01. The Oxford Handbook of Feminist Theory provides a rich overview of the analytical frameworks and theoretical concepts that feminist theorists have developed to analyze the known world. Featuring leading feminist theorists from diverse regions of the globe, this collection delves into forty nine subject areas, demonstrating the complexity of feminist challenges to established knowledge while also engaging areas of contestation within feminist theory. Demonstrating the interdisciplinary nature of feminist theory, the chapters offer innovative analyses of topics central to social and political science, cultural studies, and humanities, discourses associated with medicine and science, and issues in contemporary critical theory that have been transformed through feminist theorization. The handbook identifies limitations of key epistemic assumptions that inform traditional scholarship and shows how theorizing from women's and men's lives has profound effects on the conceptualization of central categories, whether the field of analysis is aesthetics, biology, cultural studies, development, economics, film studies, health, history, literature, politics, religion, science studies, sexualities, violence, or war. **Economics and the Left** C.J. Polychroniou, 2022-03-08. Twenty four economists discuss how they promote egalitarianism, democracy, and ecological sanity through research, activism, and policy engagement. *Economics and the Left* presents interviews with twenty four leading progressive economists. All of these practitioners of the dismal science are dedicated to both interpreting the world and changing it for the better. The result is a combustible brew of ideas and reflections on major historical events, including the Covid 19 pandemic and its impact on the global economy. Interviewed are Michael Ash, Nelson Henrique Barbosa Filho, James K. Boyce, Ha Joon Chang, Jane D. Arista, Diane Elson, Gerald Epstein, Nancy Folbre, James K. Galbraith, Teresa Ghilarducci, Jayati Ghosh, Ilene Grabel, Costas Lapavistas, Zhongjin Li, William Milberg, L. once Ndikumana, Ozlem Onaran, Robert Pollin, Malcolm Sawyer, Juliet Schor, Anwar Shaikh, William Spriggs, Fiona Tregenna, and Thomas Weisskopf. **The Century of Women** Maria Bucur, 2018-04-05. This innovative text explores the unprecedented changes in the realms of politics, demography, economics, culture, knowledge, and kinship that women have brought about in the twentieth and twenty first centuries. Global in reach, the book provides a comparative analysis of developments worldwide to show both progress as well as new tensions and forms of inequality that have emerged.

out of women's entry into politics wage employment education and the production of culture Beginning with suffrage and moving to participation in international movements such as anti war labor and environmental rights activism Maria Bucur explores how women have transformed the operation of states and international institutions She focuses on the radical demographic shifts since 1900 through the prism of changing practices in women's sexuality from birth control practices to education Examining the continuing economic gender gap around the world Bucur highlights ways women have been both beneficiaries of new economic opportunities and participants in developing new forms of inequality Considering the remarkable achievements of women in the areas of knowledge making and cultural production the author shifts her gaze toward the future and what these changes mean in terms of gender norms and evolving kinship relations She thus presents a new perspective on contemporary world history centered on how women have become both the subjects and objects of seismic shifts in the political social and economic structures of societies across the globe

What is Work? Raffaella Sarti, Anna Bellavitis, Manuela Martini, 2018-09-21 Every society throughout history has defined what counts as work and what doesn't And more often than not those lines of demarcation are inextricable from considerations of gender What Is Work offers a multi disciplinary approach to understanding labor within the highly gendered realm of household economies Drawing from scholarship on gender history economic sociology family history civil law and feminist economics these essays explore the changing and often contested boundaries between what was and is considered work in different Euro American contexts over several centuries with an eye to the ambiguities and biases that have shaped mainstream conceptions of work across all social sectors
