Green Deen What Islam Teaches About Protecting The Planet:

Green Deen Ibrahim Abdul-Matin,2010-11-11 Muslims are compelled by their religion to praise the Creator and to care for their community But what is not widely known is that there are deep and long standing connections between Islamic teachings and environmentalism In this groundbreaking book Ibrahim Abdul Matin draws on research scripture and interviews with Muslim Americans to trace Islam s preoccupation with humankind s collective role as stewards of the Earth Abdul Matin points out that the Prophet Muhammad declared that the Earth is a mosque Deen means path or way in Arabic Abdul Matin offers dozens of examples of how Muslims can follow and already are following a Green Deen in four areas waste watts energy water and food At last people of all beliefs can appreciate the gifts and contributions that Islam and Muslims bring to the environmental movement

How the World's Religions are Responding to Climate Change Robin Globus Veldman,Andrew Szasz,Randolph Haluza-DeLay,2013-09-11 A growing chorus of voices has suggested that the world s religions may become critical actors as the climate crisis unfolds particularly in light of international paralysis on the issue In recent years many faiths have begun to address climate change and its consequences for human societies especially the world s poor This is the first volume to use social science to examine how religions are helping to address one of the most significant and far reaching challenges of our time While there is a growing literature in theology and ethics about climate change and religion little research has been previously published about the ways in which religious institutions groups and individuals are responding to the problem of climate change Seventeen research driven chapters are written by sociologists anthropologists geographers and other social scientists This book explores what effects religions are having what barriers they are running into or creating and what this means for the global struggle to address climate change

Islamic Finance and Sustainable Development Khaliq Ahmad,Datuk AbdelAziz Berghout,2025-03-05 This book uncovers a new dimension in the study of sustainability offering balanced development from a spiritual and cultural values perspective The authors of this edited volume investigate the role of religion in the debate concerning the Sustainable Development Goals SDGs and offer an Islamic perspective to Environment Social and Governance ESG issues Applying a multidimensional approach to socio economic development the book contends that the Islam offers a unique perspective and framework for sustainable development that is holistic and rooted in spirituality morality and ethics For example the book explains how Islam lays emphasis on human talents development SDG 3 and 4 which is a key element in accelerating socio economic growth SDG 8 It also offers a wide range of social financial tools such as Zakat waqf that can be used to address SDG 1 poverty 2 hunger 5 gender equality and 10 reducing inequality Islamic finance offers a number of tools for long term financing such as sukuk that can masterfully be used for building sustainable infrastructure SDG 9 The study also reviews some Islamic principles from the Holy Qur an that can positively SDGs Students scholars and researchers in the fields of Islamic Economics and Finance sustainable development and socio economic and environmental issues will find the book a valuable resource

Inspired Sustainability Lothes Biviano, Erin, 2016-04-13 *Nature and the Environment in Contemporary Religious Contexts* Thomas Donlin-Smith, Muhammad Shafiq, 2018-06-11 This collection of essays discusses the human relationship with and responsibilities toward the natural environment from the perspective of religions and the social sciences The chapters examine a variety of conditions that have contributed to the contemporary environmental crisis including abuse of power economic greed industrialization deforestation and unplanned waste management They then discuss concepts from several different religious texts and traditions that promote environmental protection as a sacred moral duty for all humanity Religious concepts such as dharma duty toward Mother Earth tikkun Olam repair of the world khalifa people as deputies of God on earth amanah the universe as a trust in human hands and paticca samuppada dependent co arising are employed to argue that all the components of the biosphere are integral to the cosmos each piece with its own value and role in the harmony of the whole The book makes it clear that religions can become more green and play a helpful role in raising our ecological consciousness and supporting preservation of the environment into the future **Environmental Constitutionalism in the Anthropocene** Domenico Amirante, Silvia Bagni, 2022-04-03 This book examines the relationship between man and nature through different cultural approaches to encourage new environmental legislation as a means of fostering acceptance at a local level In 2019 the International Union of Geological Sciences IUGS recognised that we have entered a new era the Anthropocene specifically characterised by the impact of one species mankind on environmental change The Anthropocene is penetrating the discourse of both hard sciences and humanities and social sciences by posing new epistemological as well as practical challenges to many disciplines Legal sciences have so far been at the margins of this intellectual renewal with few contributions on the central role that the notion of Anthropocene could play in forging a more effective and just environmental law By applying a multidisciplinary approach and adopting a Law as Culture paradigm to the study of law this book explores new paths of investigation and possible solutions to be applied New perspectives for the constitutional framing of environmental policies rights and alternative methods for bottom up participatory law making and conflict resolution are investigated showing that environmental justice is not just an option but an objective within reach The book will be essential reading for students academics and policymakers in the areas of law environmental studies and anthropology **The Environmental Apocalypse** Jakub Kowalewski, 2022-11-16 This volume brings together scholars working in diverse traditions of the humanities in order to offer a comprehensive analysis of the environmental catastrophe as the modern day apocalypse Drawing on philosophy theology history literature art history psychoanalysis as well as queer and decolonial theories the authors included in this book expound the meaning of the climate apocalypse reveal its presence in our everyday experiences and examine its impact on our intellectual imaginative and moral practices Importantly the chapters show that eco apocalypticism can inform progressively transformative discourses about climate change In so doing they demonstrate the fruitfulness of understanding the environmental catastrophe from within an apocalyptic framework

carving a much needed path between two unsatisfactory approaches to the climate disaster first the conservative impulse to preserve the status quo responsible for today's crisis and second the reckless acceptance of the destructive effects of climate change This book will be an invaluable resource for students and scholars interested in the contributions of both apocalypticism and the humanities to contemporary ecological debates Modern Muslim Theology Martin Nguyen,2018-08-10 This book aims to bring Muslim theology into the present day Rather than a purely academic pursuit Modern Muslim Theology argues that theology is a creative process and discusses how the Islamic tradition can help contemporary practitioners negotiate their relationships with God with one another and with the rest of creation

Generation M Shelina Janmohamed,2016-08-30 What does it mean to be young and Muslim today There is a segment of the world's 1.6 billion Muslims that is more influential than any other and will shape not just the future of Muslims but also the world around them meet Generation M From fashion magazines to social networking the Mipsterz to the Haloodies halal internet dating to Muslim boy bands Generation M are making their mark Shelina Janmohamed award winning author and leading voice on Muslim youth investigates this growing cultural phenomenon at a time when understanding the mindset of young Muslims is critical With their belief in an identity encompassing both faith and modernity Generation M are not only adapting to Western consumerism but reclaiming it as their own *Finance, Economics, and Industry for Sustainable Development* Anna Romyantseva,Hod Anyigba,Elena Sintsova,Natalia V. Vasilenko,2024-06-18 This volume discusses strategic approaches and relevant decisions of business government and civil society to achieve the Sustainable Development Goals SDG which were adopted by all UN member states in 2015 The book presents the proceedings of the 4th International Scientific Conference on Sustainable Development ESG 2023 St Petersburg 2023 At present the economies of different countries are in a zone of turbulence and the current agenda pushes the transformation of all customary systems to maintain and keep the achieved positions This volume brings together material on sustainable development in economics and finance as well as industry It is intended for scholars and professionals involved in public and corporate finance financial accounting and auditing sustainable development risk management as well as economic growth macroeconomics monetary policy in a sustainable development environment public and corporate governance and economics corporate communications and public relations Earth-honoring Faith Larry L. Rasmussen,2015-04-01 Larry L Rasmussen offers a dramatic new way of thinking about human society ethics and the health of our planet Rejecting the modern ethical assumption that morality applies to human society alone Earth honoring Faith argues that we must derive a system of ethics and morality that accounts for the wellbeing of all creation on Earth **Islamic Environmentalism** Rosemary Hancock,2017-07-20 Islamic Environmentalism examines Muslim involvement in environmentalism in the United States and Great Britain The book focuses upon Muslim activists and Islamic organizations that approach environmentalism as a religious duty offering environmental readings of Islamic scriptures and integrating religious ritual and practice with environmental action Honing in on the insights of social

movement theory Hancock predominantly examines the activism and experience of Muslims involved in environmentalism and bases her research on interviews with activists in the United States and Great Britain Indeed the reader is first provided with an insightful analysis of the ways in which Muslim activists interpret and present environmentalism diagnosing causes of environmental crises proposing solutions and motivating other Muslims into activism This is followed by a discussion of the importance of affective ties emotion and group culture in motivating and sustaining Muslim involvement in environmental activism A timely volume which draws attention to the synthesis of political activism and religious practice amongst Muslim environmentalists this book will be of interest to undergraduates postgraduates and postdoctoral researchers interested in fields such as Islamic Studies Sociology of Religion Social Movement Theory and Environmental Studies Environmental Management Chris Barrow,2024-04-29 This comprehensively updated third edition explores the nature and role of environmental management and offers an introduction to this rapidly expanding and changing field It focuses on challenges and opportunities and core concepts including sustainable development The book is divided into five parts Part I Introduction to Environmental Management four introductory chapters cover the justification for environmental management its theory scope goals and scientific background Part II Practice explores environmental management in economics law and business and environmental management s relation with environmentalism international agreements and monitoring Part III Global Challenges and Opportunities examines resources challenges and opportunities both natural and human caused or human aggravated Part IV Responses to Global Challenges and Opportunities explores mitigation vulnerability resilience adaptation and how technology social change and politics affect responses to challenges Part V The Future the final chapter considers the way ahead for environmental management in the future With its well structured coverage effective illustrations and foundation for further more focused interest this book is easily accessible to all It is an essential reference for undergraduates and postgraduates studying environmental management and sustainability and an important resource for many students on courses including environmental science environmental studies and human geography *Five Pillars of Prosperity: Abridged Version* M. Yaqub Mirza,2018-01-01 Five Pillars of Prosperity by Dr M Yaqub Mirza provides readers with a balanced and sensible approach to financial planning and security Dr Mirza presents a powerful and provocative case for arranging one s life and the material pursuits in ways that not only benefit the reader but also society at large He shows how the attainment of wealth and prosperity can be achieved by following five key activities Earning Saving Investing Spending and Giving *Science, Religion and Deep Time* Lowell Gustafson,Barry Rodrigue,David Blanks,2022-07-05 This book examines the meaning of religion within the scientific evidence based history of our known past since the big bang While our current major religions are only centuries or millennia old our volume discusses the origins and development of human religious practice and belief over our species existence of 300 000 years The volume also connects the scientific approach to natural and social history with ancient truths of our religious ancestors using new lines of inquiry new

technologies new modes of expression and new concepts It brings together insights of natural scientists social scientists philosophers writers and theologians to discuss narratives of the universe The essays discuss that to apprehend religion scientifically or to interpret and explain science theologically the subject must be examined through a variety of disciplinary lenses simultaneously and raise several theoretical philosophical and moral problems With a singular investigation into the meaning of religion in the context of the 13.8 billion year history of our universe this book will be indispensable for scholars and students of religious studies big history sociology and social anthropology philosophy and science and technology studies
