Raymond, 2010-12-01 As the title suggests this six chapter book responds to a question which in Western culture goes back to Plato Aristotle Cicero and Quintilian namely What should rhetoric teachers ask their students to read Primarily historical the first two chapters trace conflicting answers to the question above focusing on two constructive results of the debate the re invention of rhetoric and writing as a discipline a coherent and growing body of knowledge and as a result the emergence of independent departments of writing free from departments of English free therefore to develop their own curriculum and to manage their own budgets Additionally the second chapter examines two destructive consequences of this debate the ban of literature from writing courses where students might profitably study both and as a result the often painful departmental splits which not only separate former colleagues but also cramp the pedagogy of those trained to teach both writing and literature More than a survey of key publications this chapter encourages readers to honor the discipline of rhetoric but to make a place for literature on their composition syllabi The next four chapters provide pedagogical support for these chief claims that literature can and should be taught in writing courses and that such readings need not distract students from the primary text their own writing On the contrary these readings motivate serious writing when students feel invited into a conversation on issues that touch their lives These pedagogical chapters then move entering professionals from the theoretical debate to the application of theory therefore the book would serve well professors of courses in composition theory particularly those who enjoy teaching the conflicts and preparing their graduate students to design assignments and courses that apply theories of learning reading and composing **Reconnecting Reading and Writing** Alice S. Horning, Elizabeth W. Kraemer, 2013-09-06 Reconnecting Reading and Writing explores the ways in which reading can and should have a strong role in the teaching of writing in college Reconnecting Reading and Writing draws on broad perspectives from history and international work to show how and why reading should be reunited with writing in college and high school classrooms It presents an overview of relevant research on reading and how it can best be used to support and enhance writing instruction **Routledge Handbook of Descriptive Rhetorical Studies and World Languages** Weixiao Wei, James Schnell, 2023-05-12 The Routledge Handbook of Descriptive Rhetorical Studies and World Languages offers a useful collection of papers that presents rhetorical analysis of

A Scientific Approach to Writing for Engineers and Scientists Robert E. Berger, 2014-05-23 A SCIENTIFIC APPROACH TO WRITING Technical ideas may be solid or even groundbreaking but if these ideas cannot be clearly communicated reviewers of technical documents e.g. proposals for research funding articles submitted to scientific journals and business plans to commercialize technology are likely to reject the argument for advancing these ideas The problem is that many engineers and scientists entirely comfortable with the logic and principles of mathematics and science treat writing as if it possesses none of these attributes The absence of a systematic framework for writing often results in sentences that are difficult to follow or arguments that leave reviewers scratching their heads This book fixes that problem by presenting a scientific approach to writing that mirrors the sensibilities of scientists and engineers an approach based on an easily discernable set of principles Rather than merely stating rules for English grammar and composition this book explains the reasons behind these rules and shows that good reasons can guide every writing decision This resource is also well suited for the growing

number of scientists and engineers in the U S and elsewhere who speak English as a second language as well as for anyone else who just wants to be understood
