Whitaker's Book List ,1991 Bachelors, Manhood, and the Novel, 1850-1925 Katherine V. Snyder, 1999-09-02 Katherine Snyder's study explores the significance of the bachelor narrator a prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male

authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder's study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism

Race Talk in the Age of the Trigger Warning Mara Lee Grayson, 2020-03-20 To generate opportunities for transformative learning educators must create learning environments that help students feel safe and encourage them to grapple with potentially difficult material The trigger warning a brief statement informing students of potential distressing or re-traumatizing content has been offered as a way to do just that but this practice is neither as effective nor as equitable as it may seem Intentionally or indirectly the trigger warning limits the extent to which students are encouraged to engage in transformative critical conversations and reinforces the culture of silence that prevails in many educational spaces Emerging as a response to trauma amid an educational environment that professes student responsiveness and celebrates diversity yet perpetuates

the marginalization of many of the bodies in the classroom the trigger warning is not the problem but it is not the solution either What does this mean for the faculty members teaching this new generation of college students And the teachers who find this generation s younger siblings in their high school classrooms Drawing upon original research Mara Lee Grayson tracks the rise of the trigger warning within historical and contemporary educational contexts explores its potentialities limitations and abuses as praxis and offers curricular suggestions for high school and college instructors seeking to implement equitable antiracist pedagogies that simultaneously encourage students well being provoke intellectual and emotional growth and challenge the cultures of silence that maintain inequity on school campuses **Differentiating**
