Policymaking, Communication, and Social Learning Sir Geoffrey Vickers,1987-01-01 Policymaking Communication and Social Learning presents Sir Geoffrey Vickers s seminal essays on policymaking and related issues facing modern Western culture These essays many of them published here for the first time

illustrate the range of Sir Geoffrey's thought and also articulate certain recurrent themes. He portrays a unique view of policymaking building on his notion of appreciation and focusing on the processes of reflection and communication in setting and changing the tacit norms which govern our conduct. These themes culminate in his perception of the emerging challenges facing the professions and in what he sees as the educational requirements implied by these challenges. Vickers was a master of the English language. He writes vividly blending concrete example with more general statement. As a result, this volume will appeal to a wide audience concerned with issues of public governance, regulation, communication, ecology, value, conflict and resolution, the modern role of the professions, education and ethics. Faqi, 2024-02-11 Selected for 2025 Doody's Core Titles in Toxicology. A Comprehensive Guide to Toxicology in Nonclinical Drug Development Third Edition is a valuable reference providing a complete understanding of all aspects of nonclinical toxicology in pharmaceutical research. This updated edition has been expanded and redeveloped covering a wide range of toxicological issues in small molecules and biologics. Topics include ADME in drug discovery, pharmacokinetics, toxicokinetics, formulations and genetic toxicology testing. The book has been thoroughly updated throughout to reflect the latest scientific advances and includes new information on antiviral drugs, anti-diabetic drugs, immunotherapy and a discussion on post-pandemic drug development challenges and opportunities. This is an essential and practical resource for all toxicologists involved in nonclinical testing in industry, academic and regulatory settings. Provides updated, unique content not covered in one comprehensive resource including chapters on stem cells, antiviral drugs, anti-diabetic drugs and immunotherapy. Includes the latest international guidelines for nonclinical toxicology in both small and large molecules. Incorporates practical examples in order to illustrate day-to-day activities and expectations associated with working in nonclinical toxicology.
