Moving towards a Right to Land: The Committee on Economic, Social and Cultural Rights' Treatment of Land Rights as Human Rights Lucy Claridge, Jérémie Gilbert, Sally Holt, Rebecca Marlin, Rajiv Jeboadh, 2015-10-29 In many countries land rights and security of tenure constitute the basis for access to food livelihoods housing and development for a large percentage of the population Without access to land many people find themselves in a situation of great economic insecurity Access redistribution and guarantee of land rights are also crucial issues in post conflict situations where old grievances need to be addressed and the risk of planting new seeds of conflict avoided However socially just and inclusive land rights can play a catalytic role in economic growth development and poverty alleviation Land is in many cases necessary for the realization of other economic social and cultural rights Throughout the last few years the UN Committee on Economic Social and Cultural Rights CESCR has adopted a number of statements highlighting the need to respect land rights explicitly referencing them in relation to other areas such as housing forced evictions food water health and cultural life Nevertheless despite the focus on land rights from CESCR and other UN human rights institutions there is still no clear and comprehensive statement on the fundamental importance and the content of the right to land At present land rights are still viewed as part of the realization of other fundamental rights such as the right to food or the right to water It is now time for the right to land to be recognized by governments as a stand alone human rights issue To support such an effort this report provides a synthesis of the already substantial guidance on human rights and land issues elaborated by the CESCR and other UN bodies focusing on thematic issues such as water health and housing that have been identified as related to and impacting on land rights as well as those groups requiring special attentions such as minorities indigenous peoples women children IDPs and refugees

Mahdi and Africa John D Grainger, 2025-11-30 The story of the Mahdi of Sudan is generally related from the British point of view though it was more an African event The Mahdi's uprising was the latest in a series of Islamic rebellions and wars which began in the eighteenth century It also had a profound effect on the rest of North and East Africa destroying the Egyptian Empire provoking Ethiopia into a new unification which allowed it to successfully resist the Mahdists the Egyptians and the Italians it brought British forces forward from the East African coast as far as Uganda for fear that some European power would seize the sources of the Nile and block the river's flow Eventually but only after several humiliating defeats the Mahdist state was overthrown by a British invasion led by Kitchener and participated in by Churchill this also produced a difficult confrontation at Fashoda between the British conquerors and a French expedition sparking a European crisis The author sets the Mahdist war in the wider context of Africa and Islam and in the context of the development of African states but also with a glance forward to the present day where the most important development in Africa is the extensive Islamic uprising which is replicating that of the nineteenth century *Clinical Guide to Helping New Parents* W. Politics and Foreign Policy in the Age of George I, 1714-1727 Jeremy Black, 2016-04-22 Through its focus on the relationship between foreign and domestic politics this book provides a new perspective on the often fractious and tangled events of George I's reign 1714-27 This was a period of transition for Britain as royal authority gave way to cabinet government and as the country began to exercise increased influence upon the world stage It was a reign that witnessed the trauma of the 1715 Jacobite Rebellion saw Britain fighting Spain as part of the Quadruple Alliance and in which Britain confronted the rise of Russia under Peter the Great There has been relatively little new detailed work on this subject since Hatton's biography of George I appeared in 1978 and that book while impressive devoted relatively little attention to the domestic political dimension of foreign policy In contrast Black links diplomacy to domestic politics to show that foreign policy was a key aspect of government as well as the leading battleground both for domestic politics and for ministerial rivalries As a result he demonstrates how party identities in foreign policy were not marginal to either policy or party but instead central to both The research is based upon a wealth of both British and foreign archive material including State Papers Domestic Scotland Ireland and Regencies as well as Foreign Extensive use is also made of parliamentary and ministerial papers as well as the private papers of numerous diplomats Foreign archives consulted include papers from Hanover Osnabrück Darmstadt Marburg Munich Paris The Hague Vienna and Turin By drawing upon such a wide ranging array of sources this book offers a rich and nuanced view of politics and foreign policy under George I
