Mindfulness-Based Cancer

Recovery Michael Speca, Linda E. Carlson, 2011-07-13 If you have received a cancer diagnosis you know that the hundreds of questions and concerns you have about what's to come can be as stressful as the cancer treatment itself. But research shows that if you mentally prepare yourself to handle cancer treatment by getting stress and anxiety under control you can improve your quality of life and become an active participant in your own recovery. Created by leading psychologists specializing in oncology, the Mindfulness Based Cancer Recovery program is based on mindfulness based stress reduction (MBSR), a therapeutic combination of mindfulness meditation and gentle yoga now offered to cancer survivors and their loved ones in hundreds of medical centers, hospitals, and clinics worldwide. Let this book be your guide as you let go of fear and focus on getting well. **Under Pressure and Overwhelmed** Christopher Vye, Kathlene Scholljegerdes, I. David Welch, 2007-05-30

Several recent studies have found that anxiety is increasing among college students. In today's competitive college environment, students frequently find themselves overwhelmed with worry and anxiety as they struggle to make the grade academically, fit in socially, discover who they are, and ponder their futures. This book helps students and their parents and counselors deal effectively with predictable anxieties associated with college. The authors offer suggestions and techniques based on extensive research on the treatment of anxiety to help students cope more effectively with the common sources of anxiety. In addition, the book describes the most common and debilitating disorders of anxiety, such as panic attacks, phobias, and obsessive compulsive disorder, that affect more than 10% of Americans and most frequently have their onset during the college years. The initial section of the book begins by describing the scope of the problem of anxiety as it relates to college students. The next section discusses the nature of anxiety reactions, noting the contribution of factors such as biological predisposition and developmental factors. Finally, the third section provides general strategies for managing anxiety, such as doing relaxation exercises, challenging negative thoughts and perspectives, and facing fears. Vignettes about college students dealing with anxiety are included throughout.
