Handbook of the Cultural Foundations of Learning is a landmark volume that brings together cutting edge research
examining learning as entailing inherently cultural processes Conceptualizing culture as both a set of social practices and
connected to learner identities the chapters synthesize contemporary research in elaborating a new vision of the cultural
nature of learning moving beyond summary to reshape the field toward studies that situate culture in the learning sciences
alongside equity of educational processes and outcomes With the recent increased focus on culture and equity within the
educational research community this volume presents a comprehensive innovative treatment of what has become one of the
field's most timely and relevant topics The Open Access version of this book available at <http://www.taylorfrancis.com> has
