York Mystery Cycle and the Worship of the City Pamela M. King, 2006 An investigation into the connections between the York Plays religious observance and the role played by the city itself WINNER of the 2007 David Bevington Prize The York Play is the earliest near complete English civic mystery cycle It evolved constantly throughout its long performance history but the text that was recorded in the York Register shows that it was already a mature and elaborate civic festival by the time it was written down This study uncovers the Cycle s connection with worship in York in the sense both of devotional practice and of civichonour informing a particular period in the cultural history of the city The pageants in the Register show in their different ways how the community which devised and performed the Cycle regarded the celebration of the great summer feast of Corpus Christi Moreover the principles of selection that give the Cycle its structure reflect the broader pattern of the liturgical calendar with its other feasts and fasts The Cycle bears witness not only to the practices of religious observance in York but also to the ecclesiastical politics in which the city was caught up from the very beginning of the fifteenth century PAMELA KING is Professor of Medieval Studies at the University of Bristol **In Conversation with God** Francis

Fernandez, 2000 This is a translation of *Hablar con Dios* first published by Ediciones Palabra Madrid and by Scepter **The Oxford History of Poetry in English** Helen Cooper, Robert R. Edwards, 2023-05-09 The Oxford History of Poetry in English is designed to offer a fresh multi voiced and comprehensive analysis of poetry from Anglo Saxon culture through contemporary British Irish American and Global culture including English Scottish and Welsh poetry Anglo American colonial and post colonial poetry and poetry in Canada Australia New Zealand the Caribbean India Africa Asia and other international locales The series both synthesizes existing scholarship and presents cutting edge research employing a global team of expert contributors for each of the fourteen volumes This volume occupies both a foundational and a revolutionary place Its opening date 1100 marks the re emergence of a vernacular poetic record in English after the political and cultural disruption of the Norman Conquest By its end date 1400 English poetry had become an established if still evolving literary tradition The period between these dates sees major innovations and developments in language topics poetic forms and means of

expression Middle English poetry reflects the influence of multiple contexts history social institutions manuscript production old and new models of versification medieval poetic theory and the other literary languages of England It thus emphasizes the aesthetic imaginative treatment of new and received materials by medieval writers and the formal craft required for their verse Individual chapters treat the representation of national history and mythology contemporary issues and the shared doctrine and learning provided by sacred and secular sources including the Bible Throughout the period lyric and romance figure prominently as genres and poetic modes while some works hover enticingly on the boundary of genre and discursive forms The volume ends with chapters on the major writers of the late fourteenth century Langland the Gawain poet Chaucer and Gower and with a look forward to the reception of something like a national literary tradition in fifteenth century literary culture *The Catholic Periodical and Literature Index* ,2008 **The Paulist Liturgy Planning Guide** Lawrence Boadt,Celine M. Gómez, 2025-04-09 Often described as a period of decline and decadence the history of the Byzantine Empire under the emperors of the Palaiologan dynasty 1261 1453 has undergone a considerable historiographical revival that has allowed this deeply negative image to be nuanced *State and Society in the Palaiologan Era* brings together articles by some of the best specialists in the field and addresses various aspects of the functioning of the Byzantine state and society in the Palaiologan period These contributions reflect not only the dynamism of the Byzantine society but also the divisions and challenges created by the deep transformations in the socioeconomic conditions of the time and by the Ottoman conquest of the Byzantine territory They show the capacity of the Byzantine state and institutions to adapt to a new political context one of territorial shrinkage and instability as well as the consequences of this instability for the society of the time for its economic and charitable activities for its spirituality and beliefs and for the splits and conflicts opposing different categories of social actors This book aims to provide researchers with a series of studies whose methodology and results offer new insights into the complex often contradictory phenomena that ran through the Byzantine world during the Palaiologan period This collection of chapters will thus prove useful to all those interested in the Byzantine Empire at the end of the Middle Ages

The Roman Catholic Lectionary and the Bible Mark G. Boyer, 2024-06-28 The bishops attending the Second Vatican Council 1962 1965 decreed that the treasures of the Bible were to be opened for Roman Catholics by presenting a larger part of the Bible over three years The first one volume Lectionary a collection of biblical texts appointed for worship on given days what ultimately became four volumes plus a supplement in English was published in Latin on September 30 1970 The result of people seeing four volumes consisting of more pages than most Bibles was the erroneous thinking that they heard read the whole Bible every three years The Lectionary edits the Bible Biblical topics offensive to modern readers are omitted Powerful biblical women are ignored Biblical prophetic books are chopped by piecing together verses There is no application of modern biblical analysis The biblical passages presented in the Lectionary have been chosen to fit the liturgical year even though the liturgical year did not exist when the Bible was written The purpose of this book is to present some sobering statistics about the biblical texts found and not found in the Roman Catholic Lectionary reach conclusions about them and suggest alternate biblical texts for use in the Lectionary **Calendar and Community** Sacha Stern, 2001-10-04 *Calendar and Community* traces the development of the Jewish calendar from its origins until it reached in the tenth century CE its present form Drawing on a wide range of often neglected sources literary documentary epigraphic Jewish Graeco Roman and Christian it is the first comprehensive work to have been written on the subject It will be useful not only to historians and epigraphists for the interpretation of early Jewish datings but also as a historical study of early Judaism in its own right Its main theme is that the Jewish calendar evolved in the course of this period from considerable diversity with a variety of solar

and lunar calendars to unity with the normative rabbinic calendar The unification of the calendar was one element in the unification of Jewish identity in later antiquity and the early medieval world *Negotiating Boundaries in Medieval Literature and Culture* Valerie B. Johnson, Kara L. McShane, 2022-03-21 Thomas Hahn's work laid the foundations for medieval romance studies to embrace the study of alterity and hybridity within Middle English literature His contributions to scholarship brought Robin Hood studies into the critical mainstream normalized the study of historically marginalized literature and peoples and encouraged scholars to view medieval readers as actively encountering others and exploring themselves This volume employs his methodologies careful attention to texts and their contexts cross cultural readings and theoretically informed analysis to highlight the literary culture of late medieval England afresh Addressing long established canonical works such as Chaucer Christine de Pizan and Malory alongside understudied traditions and manuscripts this book will be of interest to literary scholars of the later Middle Ages who like Hahn work across boundaries of genre tradition and chronology **Liturgy's Imagined Past/s** Teresa Berger, Bryan D. Spinks, 2016 This book calls attention to the importance of scholarly reflection on the writing of liturgical history The essays not only probe the impact of important shifts in historiography but also present new scholarship that promises to reconfigure some of the established images of liturgy's past Based on papers presented at the 2014 Yale Institute of Sacred Music Liturgy Conference Liturgy's Imagined Past/s seeks to invigorate discussion of methodologies and materials in contemporary writings on liturgy's pasts and to resource such writing at a point in time when formidable questions are being posed about the way in which historians construct the object of their inquiry *Hell's Destruction* Revd Dr Catherine Ella Laufer, 2013-06-28 The credal affirmation he descended to the dead has attracted a plethora of views over the centuries and many Christians today struggle to explain the meaning of these words This book explores various interpretations of the doctrine of Christ's descent to the dead both within particular historical contexts and within contemporary theology Laufer argues that the descensus clause Christ's descent is integral to Christian faith specifically to the doctrine of the incarnation If we are to affirm that in Christ God became truly human then that affirmation must include his sharing in the state of being dead that is the ultimate consequence of being human Laufer concludes that since the Son has experienced genuine human death and the separation from God which is the essence of hell there is no longer any human condition from which God is absent either in this life or in eternity Christ's descent means that he is truly hell's destruction Drawing on a treasure trove of writings from the western theological tradition including Luther Calvin Maurice Balthasar Moltmann and others and attending to historical theological exegetical philosophical and pastoral issues this book explores an often ignored doctrine which lies at the core of Christian life death and faith *Children's Liturgy of the Word 2009 - 2010: A Weekly Resource - Celebrating the Lectionary*, *Christian Initiation of Children 2009 - 2010: Weekly Resources for Ages 5 - 14 - Celebrating the Lectionary*, **Children's Liturgy of the Word - CTL - 2009**, *The Ecclesiastical Review*, 1922
