Ghost Watch David Rollins, 2010-01-10 Special Agent Vin Cooper is feeling reckless He volunteers for the dumbest and most dangerous job going personal security operations in Afghanistan protecting bent politicians But when his principal is killed in a suicide bomb attack Cooper is reassigned to a cushy job nursing a couple of needy African American entertainers putting on a show for US military advisors at a secret base in Rwanda Or so he thinks Things go horribly wrong when their United Nations chopper is forced down in the Democratic Republic of Congo in the middle of an all out firefight by opposing forces The nightmare only intensifies when some of Cooper's people including one of the entertainers are captured While risking his life to rescue his principals Cooper spies a US DoD advisor in the enemy encampment which is awash with American weaponry It seems that their forced landing in this inhospitable place was no accident

Birds, Beasts and Burials: A study of the human-animal relationship in Romano-British St. Albans Brittany Elayne Hill, 2017-04-30 Birds Beasts and Burials examines human animal relationships as found in the mortuary record within the area of Verulamium that is now situated in

the modern town of St Albans *From War Room to Living Room* Tish Davidson, Scott Davidson, 2024-10-17 The military's focus on innovation and problem solving has led to the creation of numerous items and technologies that have transcended the battlefield and become commonplace in our daily lives This accessible reference volume explores 46 of these innovations from duct tape to microwaves focusing on the people and events that made each possible Entries follow a standardized format that covers both the development and initial military applications of each innovation as well as its transition into civilian life Readers will gain a better understanding of the challenges military leaders have faced for hundreds of years that have spurred these innovations from keeping tabs on enemy movements to keeping soldiers healthy and well fed Each entry also explores the historical antecedents of the innovation helping readers contextualize the evolution of objects and ideas A carefully curated list of further readings rounds out each entry pointing readers toward additional resources for more in depth study For readers wishing to focus on a particular category of innovation a thematic list of entries at the beginning of the volume will help them narrow their search Medical Aspects of Harsh Environments Kent B. Pandolf, R. E. Burr, 2001 Describes and illustrates the medical conditions caused by heat and cold including topics ranging from heat illness prevention to the treatment of hypothermia Provides historical background and current information on the physiology physical derangements psychology prevention and treatment of heat and cold related environmental illnesses and injuries Contains a color atlas of cold injuries and their treatment Order within Anarchy James D. Morrow, 2014-07-14 Order within Anarchy focuses on how the laws of war create strategic expectations about how states and their soldiers will act during war which can help produce restraint The success of the laws of war depends on three related factors compliance between warring states and between soldiers on the battlefield and control of soldiers by their militaries A statistical study of compliance of the laws of war during the twentieth century shows that joint ratification strengthens both compliance and reciprocity compliance varies across issues with the scope for individual violations and violations occur early in war Close study of the treatment of prisoners of war during World Wars I and II demonstrates the difficulties posed by states varied willingness to limit violence a lack of clarity about what restraint means and the practical problems of restraint on the battlefield *Exponential Weight Loss* Nathan Dean, 2023-10-13 This new book is not just another diet gimmick telling you to eat lots of cabbage or to buy some brand of premade meals It combines the results of basic nutrition research with an understanding of how your body uses and stores energy to show you the easy way to a healthy weight Too many people go on diets that cut their calorie intake drastically They lose a lot of weight quickly but those diets are too severe to continue without becoming unhealthy When the diet inevitably ends they go back to eating as they did before it started And when they do they start regaining the weight they suffered weeks of hunger to lose So they go back on a diet again to lose what they regained But once again the diet ends and the lost weight returns Three quarters of dieters repeat this cycle at least once It's called yoyo dieting and it's unhealthy leading to heart disease diabetes gallstones and other problems There's a healthy way

to lose weight permanently It s called exponential weight loss and this book explains how it works You don t need to starve to lose weight your body only burns about fifteen calories per pound each day so cutting out 150 calories the amount in a can of soda will lead to a loss of ten pounds It s slower because that s how your body responds to a small change but it s healthier And it lasts because your body adjusts once and for all to its new weight This amazing new book creates a roadmap to a healthier happier you without the stress and disappointment of dieting It s the tool you need to make your weight goal a reality

Colchester, Fortress of the War God David Radford,Adrian Gascoyne,2013-07-19 This volume is a critical assessment of the current state of archaeological knowledge of the settlement originally called Camulodunon and now known as Colchester The town has been the subject of antiquarian interest since the late 16th century and the first modern archaeological excavations occurred in 1845 close to Colchester Castle the towns most prominent historic site The earliest significant human occupation recorded from Colchester dates to the late Neolithic but it was only towards the end of the 1st century BC that an oppidum was established in the area This was superseded initially by a Roman legionary fortress and then the colonia of Camulodunum on a hilltop bounded on the north and east by the river Colne There is little evidence for continuing occupation here in the early post Roman period but in 917 the town was re established as a burgh and gradually grew in importance After the Norman Conquest a castle was built on the foundations of the ruined Roman Temple of Claudius and a priory and an abbey were established just to the south of the walled town Although the town as elsewhere was affected by the Dissolution of the Monasteries and the English Civil War it remained essentially medieval in character until the 18th century During the 19th century this process of change was accelerated by the arrival of the railway industrialisation and the establishment of the military garrison Since the 1960s Colchester has been subject to recurring phases of re development the most recent having ended only in 2007 which have had a significant impact on the historic environment Fortunately the town is one of the best studied in the country
