Mitias, 2022-03-11 This book examines the conceptual existential and logical conditions under which the philosophical novel can be treated as a literary genre on a par with generally recognized literary genres such as mystery romantic adventure religious or historical novel Michael H Mitias argues that the philosophical novel meets these conditions He advances a detailed analysis of the concept of literary genre and discusses the reasons which justify the claim that philosophical novel is a distinct literary genre This is based on the assumption that philosophical ideas can be communicated metaphorically An analysis of this assumption necessarily leads to a detailed discussion of the concept of metaphor and the extent to which it can be the vehicle of communicating philosophical truth
