Isaiah Shembe's Hymns and the Sacred Dance in Ibandla lamaNazaretha Nkosinathi Sithole, 2016-06-21 In Isaiah Shembe's Hymns and the Sacred Dance in Ibandla lamaNazaretha Nkosinathi Sithole explores the hymns of Prophet Isaiah Shembe and the sacred dance in Ibandla LamaNazaretha and offers an emic perspective on the Church which has attracted scholars from different disciplines Isaiah Shembe's Hymns and the Sacred Dance in Ibandla lamaNazaretha posits that in the hymns Shembe found a powerful medium through which he could voice his concerns as an African in colonial times while praising and worshipping God Sithole also refutes claims by some scholars that the sacred dance was a response to colonialism and oppression showing that in fact the sacred dance in Ibandla lamaNazaretha is considered to be a form of worship and is thought to exist on earth and in heaven *Maye! Maye!* Sipho Sithole, 2024-10-04 This book presents an analysis of Johannesburg's Kwa Mai Mai market which was once known to regulars as a place of healing and has experienced numerous changes of significant national transformation over time It explores how the Kwa Mai Mai community formerly a working class of migrants reversed roles and took control of the means of production from the dominant class Through their heightened cultural consciousness this marginalised migrant community reimagined new economic realities and possibilities forever distancing themselves from their painful repressive past This book chronicles the significance of cultural memory and discusses how it can be used as a weapon to not only resist subjugation but also to invoke entrepreneurial and creative spirit Written out of the collective observations and interpretations of his ethnographic research spanning four years Sipho Sithole's *Maye Maye* is dedicated to marginalised communities and those who despite operating on the fringes of the economy have sought to create their own fortune and destiny Print edition not for sale in Sub Saharan Africa *The Music and Dance of the World's Religions* E. Communion Ecclesiology in a Racially Polarised South Africa Kelebogile T. Resane,2017-07-01 Communion Ecclesiology by Dr K T Resane explores the concept of a communion ecclesiology in South Africa The book provides the reader with a comprehensive overview of the concept in the Bible in history and in different church traditions including the African Initiated Churches The book also focuses on the different cultural groups in South Africa as they were organised within theological traditions Prof S D Snyman University of the Free State

Engaging Modernity Dawid J. Venter,2004-05-30 The key theme addressed by all the contributors to this book is the relationship between South Africa s indigenous churches AICs to modernity The key question asked by each of the contributors is to what extent if any do AICs serve as bridges to tradition or as facilitators for modernizing practices Although the researchers do not agree on the answer to this question some argue for the return to

tradition others argue for the facilitation perspective they do provide provocative and timely insights for prospective researchers interested in exploring concepts and methodologies for understanding modernity and modernization Based on a number of case studies of AICs in South Africa this book will also be of great interest to scholars of comparative religion and the role churches play in negotiating the complex terrains of politics society and economy in this era of globalization The Kingdom of God in Africa Mark Shaw, Wanjiru M. Gitau, 2020-07-31 African Christianity is not an imported religion but rather one of the oldest forms of Christianity in the world In The Kingdom of God in Africa Mark Shaw and Wanjiru M Gitau trace the development and spread of African Christianity through its two thousand year history demonstrating how the African church has faithfully testified to the power and diversity of God s kingdom Both history students and casual readers will gain greater understanding of how key churches figures and movements across the continent conceptualized the kingdom of God and manifested it through their actions The only up to date single volume study of its kind this book also includes maps and statistics that aid readers to absorb the rich history of African Christianity and discover its impact on the rest of the world

The Encyclopedia of World Religions Robert S. Ellwood, 2008 Contains nearly 600 brief entries on the world s religious traditions *Religions of South Africa (Routledge Revivals)* David Chidester, 2014-06-27 First published in 1992 this title explores the religious diversity of South Africa organizing it into a single coherent narrative and providing the first comparative study and introduction to the topic David Chidester emphasizes the fact that the complex distinctive character of South African religious life has taken shape with a particular economic social and political context and pays special attention to the creativity of people who have suffered under conquest colonialism and apartheid With an overview of African traditional religion Christian missions and African innovations during the nineteenth century this reissue will be of great value to students of religious studies South African history anthropology sociology and political studies *Religion, Media, and Marginality in Modern Africa* Felicitas Becker, Joel Cabrita, Marie Rodet, 2018-02-02 In recent years anthropologists historians and others have been drawn to study the profuse and creative usages of digital media by religious movements At the same time scholars of Christian Africa have long been concerned with the history of textual culture the politics of Bible translation and the status of the vernacular in Christianity Students of Islam in Africa have similarly examined politics of knowledge the transmission of learning in written form and the influence of new media Until now however these arenas Christianity and Islam digital media and old media have been studied separately *Religion Media and Marginality in Modern Africa* is one of the first volumes to put new media and old media into significant conversation with one another and also offers a rare comparison between Christianity and Islam in Africa The contributors find many previously unacknowledged correspondences among different media and between the two faiths In the process they challenge the technological determinism the notion that certain types of media generate particular forms of religious expression that haunts many studies In evaluating how media usage and religious commitment intersect in the social cultural and political landscapes of

modern Africa this collection will contribute to the development of new paradigms for media and religious studies

Contributors Heike Behrend Andre Chappatte Maria Frahm Arp David Gordon Liz Gunner Bruce S Hall Sean Hanretta Jorg Haustein Katrien Pype and Asonzeh Ukah *Soweto Inside Out* Adam Roberts, 2012-10-02 This is a book about Soweto from inside and out It is an effort to mark a century since the first forced removals of black Africans from central Johannesburg to the banks of the Klipspruit River It is also in recognition of the limited books available on a world famous city A wide variety of writers have contributed Sowetan experts with views from inside the township as well as interested outsiders who are peering in Contributors include writers from publications as varied as Drum Sowetan Mail Guardian Time magazine The Economist The Independent and New York Times **Rituals of Fertility and the Sacrifice of Desire** Carol Ann Muller, 1999 In this text Muller breaks new ground in the study of this changing region and along the way she includes details of her own poignant journey as a young white South African woman to the other side of a divided society **Drum**, 1999 *The Stolen Bible* Gerald O. West, 2016-08-09 The Stolen Bible tells the story of how Southern Africans have interacted with the Bible from its arrival in Dutch imperial ships in the mid 1600s through to contemporary post apartheid South Africa The Stolen Bible emphasises African agency and distinguishes between African receptions of the Bible and African receptions of missionary colonial Christianity Through a series of detailed historical geographical and hermeneutical case studies the book analyses Southern African receptions of the Bible including the earliest African encounters with the Bible the translation of the Bible into an African language the appropriation of the Bible by African Independent Churches the use of the Bible in the Black liberation struggle and the ways in which the Bible is embodied in the lives of ordinary Africans The Bible, Cultural Identity, and Missions Dziedzorm Reuben Asafo, Daniel Kwame Bediako, Daniel Berchie, 2016-04-26 This collection brings together a number of very carefully authored articles that outline practical approaches to three of theology's most intriguing subjects namely The Bible Cultural Identity and Mission Each of these subjects is indispensable to both the astute Christian theologian and Christian since they form the very core of what Christians believe Each contributor explores a unique theme and carefully through academic exactness and contextual experience communicates this without forgetting to employ very basic and familiar cultural analogies to drive home the missionary imperative of the Christian faith **Missions and Empire** Norman Etherington, 2005-07-14 The idea that Christian missions went hand in hand with Imperialism and colonial conquest is challenged here By showing the variety of missions and the vital role played by indigenous men and women this book places missions in a long historical perspective Special attention is paid to emerging themes *The New Faces of Christianity* Philip Jenkins, 2006-09 Named one of the top religion books of 2002 by USA Today Philip Jenkins's phenomenally successful *The Next Christendom* permanently changed the way people think about the future of Christianity In that volume Jenkins called the world's attention to the little noticed fact that Christianity's center of gravity was moving inexorably southward to the point that Africa may soon be home to the

world's largest Christian populations. Now in this brilliant sequel Jenkins takes a much closer look at Christianity in the global South, revealing what it is like and what it means for the future. The faith of the South, Jenkins finds, is first and foremost a biblical faith. Indeed, in the global South many Christians identify powerfully with the world portrayed in the New Testament: an agricultural world very much like their own, marked by famine and plague, poverty and exile, until very recently a society of peasants, farmers and small craftsmen. In the global South, as in the biblical world, belief in spirits and witchcraft are commonplace, and in many places such as Nigeria, Indonesia and Sudan, Christians are persecuted just as early Christians were. Thus the Bible speaks to the global South with a vividness and authenticity simply unavailable to most believers in the industrialized North. More important, Jenkins shows that throughout the global South, believers are reading the Bible with fresh eyes and coming away with new and sometimes startling interpretations. Some of their conclusions are distinctly fundamentalist, but Jenkins finds an intriguing paradox: for they are also finding ideas in the Bible that are socially liberating, especially with respect to women's rights. Across Africa, Asia and Latin America, such Christians are social activists in the forefront of a wide range of liberation movements. It's hard to overstate how interesting, how eye-opening, how frequently surprising and sometimes disturbing Jenkins' findings are. Anyone interested in the implications of these trends for the major denominations, for Muslim-Christian conflict and for global politics will find *The New Faces of Christianity* provocative and incisive and indispensable.

South African Drama and Theatre from Pre-Colonial Times to the 1990s: an Alternative Reading Mzo Sirayi, 2012-07-09

Mzo Sirayi has embarked on a highly impressive and daring enterprise with the unflinching boldness of a scholar who is driven by a passionate pursuit to set the record straight. He manages to pull no punches and make no apologies by being true to his convictions, especially within the context of a new South Africa. The book adopts a largely historicized critical and analytical perspective which strikingly approximates that of postcolonial theory. Owen Seda: This new and authoritative book is an excellent addition to the few existing books on black South African drama and theatre. *South African Drama and Theatre from Pre-colonial Times to 1990s: An Alternative Reading* takes the reader on a tour of the indigenous as well as the modern South African theatre zones. The chapters reverberate with echoes of Africanisation and rock on renaissance waves. This exciting and stimulating book is transparently readable, accessible and is of inestimable value to academics and general readers. Patrick Ebewo
