How Did It Really Happen:

Did it Really Happen Brian Theobald, **What Really Happened in the Garden of Eden?** Ziony Zevit, 2013-11-26 A provocative new interpretation of the Adam and Eve story from an expert in Biblical literature The Garden of Eden story one of the most famous narratives in Western history is typically read as an ancient account of original sin and humanity's fall from divine grace In this highly innovative study Ziony Zevit argues that this is not how ancient Israelites understood the early biblical text Drawing on such diverse disciplines as biblical studies geography archaeology mythology anthropology biology poetics law linguistics and literary theory he clarifies the worldview of the ancient Israelite readers during the First Temple period and elucidates what the story likely meant in its original context Most provocatively he contends that our ideas about original sin are based upon misconceptions originating in the Second Temple period under the influence of Hellenism He shows how for ancient Israelites the story was really about how humans achieved ethical discernment He argues further that Adam was not made from dust and that Eve was not made from Adam's rib His study unsettles much of what has been taken for granted about the story for more than two millennia and has far reaching implications for both literary and theological interpreters Classical Hebrew in the hands of Ziony Zevit is like a cello in the hands of a master cellist He knows all the hidden subtleties of the instrument and he makes you hear them in this rendition of the profoundly simple story of Adam Eve the Serpent and their Creator in the Garden of Eden Zevit brings a great deal of other biblical learning to bear in a surprisingly light hearted book Jack Miles author of *God A Biography* *How Did It Happen?* Christoph Dieckmann, Ruta Vanagaite, 2021-10-15 In this compelling book Lithuanian author Ruta Vanagaite holds an extended conversation with noted historian Christoph Dieckmann His exploration of the causes and consequences of the Holocaust in Lithuania provides the first overview for general readers that considers the perspectives of all the central groups involved Jews Lithuanians and Germans Drawing on a rich array of sources in all the key languages Yiddish Ivrit Lithuanian and German Dieckmann considers not only the Berlin based orientation of the German perpetrators but also the space where the Shoah took place Lithuanian society with its Jewish minority under German occupation He contends that this space of mass crimes is always linked with warfare and occupation The Holocaust was unprecedented but he makes a powerful case it cannot be isolated from the other mass crimes that took place at the same time in the same space against thousands of Soviet prisoners of war and forced refugees from the Soviet territories Dieckmann shows that the Holocaust could not have unfolded throughout German dominated Europe without the conditional cooperation of non Germans in each occupied country Existing antisemitism was radicalized from the 1930s onward turning Jews under the enormous stress of unrelenting warfare and often instable conditions of occupation into what were perceived as deadly enemies The Holocaust its history and memory can only be understood through this broader context The authors searching exchanges illuminate the most profound questions we have as we struggle to understand the Holocaust *How Did It Happen?* Rely Drajan, 2012-12-03 I ll
