way back in 1974 Mick drove in the days when crooks and con men seemed to run the haulage industry And Mick worked for most of them Earning crap wages from arrogant bosses with the constant threat of your P45 hanging over your head he learned his trade through trial and error many trials and lots of errors His career took him all over Europe and Scandinavia taking musical shows to Norway JCBs to Greece and supermarket deliveries down to Gibraltar Driving for a variety of firms he double manned trucks with his wife Jo for nearly 10 years Along the way he has been blown over in high winds outwitted hijackers and held hostage by striking Spanish drivers Now living on a narrow boat on the Grand Union Canal Mick is approaching retirement and reflects on his varied career With humour and not a little sarcasm he concludes that as good as those days were he certainly wouldn't want to go back

ERF B C, CP & E-Series at Work Patrick Dyer, 2015-09-03 Patrick Dyer s eighth book in the at work series takes the reader on a journey with ERF England s last independent truck manufacturer between the years 1975 and 1993 with the B C CP and E series trucks that the Sandbach based company produced in the face of overwhelming

competition from foreign manufacturers Apart from the renowned economy reliability and longevity of the products the B C CP and E series truck ranges were all linked by the remarkable SP cab which combined a steel cage with bolt on SMC panels The system was so revolutionary that ERF patented it The low cost of design and manufacture allowed it to update and improve its cabs with each series ERF B C CP E series at Work draws on over 200 fine photographs from the manufacturer and trucking enthusiasts which combine with the informative text to tell the remarkable story of these ERF products through some of the most turbulent years of the company s existence **Leyland Comet** Graham Edge,2019-10-01 This book is about one of Leyland Motors famous models the Leyland Comet It covers the period from the introduction of the lorry in 1947 to its withdrawal from the British market in the mid 1970s This illustrious name continued to be used in the Leyland DAF era such is the high regard and respect earned by one of Leyland s finest vehicles not only here but also overseas Leyland Comet presents the initial development of the model and the various types which evolved in subsequent years When it was first introduced the Leyland Comet was an immediate success and soon became the market leader in the high quality medium weight lorry sector In the 30 years of production history described in these pages the Comet was only seriously challenged by its great rival the AEC Mercury In its heyday the Leyland Motors name was synonymous with top quality Their Comet range maintained and enhanced the company s reputation Many small haulage firms building a business in the post war years aspired to a Leyland lorry and felt a great sense of achievement when able to acquire one This book has been out of print for many years and has been brought back in 2016 to make this fascinating story available again to Leyland enthusiasts and those with an interest in general transport history Graham Edge is a trucking journalist and author Series Commercial Vehicles Archive Series Subject Commercial Vehicles Transportation Ipswich David Kindred,2019-10-01 If you walk through Ipswich you become aware of how buildings of all periods jostle each other for space There are remnants of fine medieval and Tudor dwellings terraced streets from the 19th century as well as developments from the 20th and 21st centuries David Kindred s book throws light on how Ipswich has developed since the 1880s when photography outdoors first became practical He has drawn on a wide range of sources including some photographers whose work was outstanding Harry Walters for example was making high quality images in the 1890s Similarly the curator of the Ipswich museum in the 1930s Guy Maynard recorded areas where changes to the town were planned including photographs of the housing around Cox Lane and the Potteries Amateur photographers have also played their part capturing the questionable changes of the 1960s They have photographed the recent transformation of the dock area from a commercial hub to a mainly residential and leisure scene complete with a new university building The 300 plus photographs chosen and captioned by David Kindred bring to life the past and present of Suffolk s county town the town on the Orwell **Nordic Tractor, The: The History and Heritage of Volvo, Valmet and Valtra** Justin Roberts,2017-11-07 The Nordic Tractor traces the history of tractor production in Sweden and Finland The story goes back over 200 years to the 19th century when the industrial revolution was

sweeping across Britain and Sweden wanted to establish their own manufacturing powerhouses This was an exciting and fast moving time for engineering and this book traces the ups downs and eventual demise of some of the first manufacturers working to serve the particular needs of the agricultural and forestry industries in this densely forested and mountainous region It then looks in depth at the companies who emerged from this who learnt from their own and others mistakes and built on the widespread technological advances of the time to build up names for themselves in Northern parts of Europe Today Valtra now owned by AGCO stands proudly as the last remaining agricultural tractor maker in Scandinavia but The Nordic Tractor shows where their roots lie in the establishment and history of companies such as Bolinder Munktells Volvo and Valmet who all stood out as being major players in the Nordic region Including over 100 photos many of which have been previously unpublished this book will appeal to those with a specific interest in Nordic tractors Nordic engineering and general Nordic history as well as the general tractor enthusiast
