and Chevrolet's small block V 8 in 1955 spelled the end for the flathead. Both mills dominated well into the 1970s and the speed industry was there to support all platforms in spades. During that period every auto manufacturer made a V 8 worthy of modification and the speed industry boomed. Eventually the speed equipment manufacturers grew to the point of becoming corporate entities as mergers and acquisitions became the much less interesting story. Parts covered include special cylinder heads, magnetos, camshaft and valvetrain upgrades, downdraft carburetors, headers, multiple carburetor setups and even superchargers. Everyone figured out how to make engines more powerful, upgrading with the type of parts that were being produced decades later even to today. Join in the fun of reviewing the history of speed through this fascinating tale of vintage speed parts.

The Cool and the Crazy Peter Stanfield, 2015-04-08. In the 1950s Hollywood made a variety of sensational movies meant to capitalize upon current events, moral panics and popular fads. The Cool and the Crazy examines seven of the decade's key film cycles including short-lived trends like boxing and juvenile delinquency movies as well as uniquely 50s takes on established genres like the Western. Delivering sharp critical insights in jazzy accessible prose, Peter Stanfield offers an appreciation of cinema as a pop medium unabashedly derivative, faddish and ephemeral.

Cobra Jet: The History of Ford's Greatest High-Performance Muscle Cars Rob Kinnan, Diego Rosenberg, 2020-03-15. Relive Ford's glory days in the muscle car era in this stunning new volume covering the popular and powerful Cobra Jets. Ford's Total Performance racing program in the early 1960s was the first stone turned in the task of repurposing its image to the youth market. The introduction of the Mustang increased that exponentially but even in 289 Hi-Po form it was no match for the Pontiac GTO or other muscle cars. Neither was the 1966 Fairlane GT or subsequent 390 Mustang the following year. But when the 428 Cobra Jet Mustang debuted at Pomona for the NHRA Winternationals in 1968 that image evolved from wholesome to fearsome. Cobra Jet Mustangs downed all comers and took the vaunted Super Stock Eliminator crown while introducing a new weapon under the hood to serve as fair warning to what was to be uncoiled at the stoplight. By the next model year with the revolutionary shaker hood on Cobra Jet equipped Mach 1s and the striking snake adorning the sheet metal of the midsize Cobra, Ford's image makeover was complete. The demise of the muscle car era didn't signify the end of the Cobra Jet as Ford continued the performance reign with the 351 Cobra Jet. The legacy left by Mustang, Cougar, Torino, Cyclone and Ranchero

428 429 and 351 Cobra Jet powered vehicles is indelible Mustang Monthly editor Rob Kinnan and muscle car expert Diego Rosenberg bring this history back to life in an all encompassing book that is the first to specifically feature all Cobra Jet cars including the purpose built drag cars of today Cobra Jet The History of Ford s Greatest High Performance Cars will hypnotize you as the first and complete history of Ford s most famous engines during the era s peak
