people visit xkcd.com each week to read Randall Munroe's iconic webcomic. His stick figure drawings about science, technology, language, and love have an enormous dedicated following, as do his deeply researched answers to his fans' strangest questions. The queries he receives range from merely odd to downright diabolical: What if I took a swim in a spent nuclear fuel pool? Could you build a jetpack using downward-firing machine guns? What if a Richter 15 earthquake hit New York City? Are fire tornadoes possible? His responses are masterpieces of clarity and wit, gleefully and accurately explaining everything from the relativistic effects of a baseball pitched at near the speed of light to the many horrible ways you could die while building a periodic table out of all the actual elements. The book features new and never before answered questions along with the most popular answers from the xkcd website. What If is an informative feast for xkcd fans and anyone who loves to ponder the hypothetical.

Essentials of Geology Stanley Chernicoff, Hayden A. Fox, 2003 A condensed version of Geology 3e, this textbook provides succinct, focused explanations of key points, ideal for those who require a basic introduction to the field. As in the past, the Third Edition successfully engages students by concentrating on dynamic geologic processes rather than on rote memorisation of key terms. Three themes—plate tectonics, environmental geology, and natural resources and planetary geology—appear repeatedly throughout the text to highlight the connections between core concepts. Highlights of this third edition include: New Text design is more visually appealing and more effective in communicating core concepts of geology to students. New Geology at a Glance features use flow charts, figures, and photos to visually summarise difficult concepts in a succinct manner, recognising that many students are visual learners. New Coverage of Earth Systems is integrated throughout the text. New Highlights Boxes which link applications of the geology being studied to situations that are recognisable to students are now categorised as Environmental Earth System Science or Application/Everyday Interest and have been substantially revised. New Chapter Summaries are shorter than in previous editions, allowing a quicker review. New Superior technology package offers both students and instructors a multitude of resources to facilitate learning and teaching.
