How The Obama Administration Has Politicized Justice Encounter Broadside:

How the Obama Administration Has Politicized Justice Andrew C. McCarthy, 2010-08 With the Obama Justice Department under Attorney General Eric Holders direction Americans are learning what really happens when law enforcement power is co opted by politics In this eye popping Broadside Andrew C McCarthy shows that the biggest beneficiaries have been jihadists For the past eight years a group of lawyers volunteered their services to Americas enemies Now the Justice Department is rife with some of those same lawyers as it enhances due process for terrorists and feeds the international Lefts call for war crimes charges against President Obamas political adversaries Just consider how the administration has disclosed national defense secrets during wartime or granted the 9 11 mass murderers a civilian trial The department moreover is working to tighten the Democratic Partys grip on power ignoring the Constitution and green lighting election fraud and abuse The Obama Hate Machine Bill Press, 2012-01-31 Obama was born in Kenya Obama is a Muslim and a terrorist sympathizer Obama is a Communist who wants to institute death panels The extent to which these undying lies have taken hold in the American mindset shows just how ruthless destructive and all powerful the right wing machine hijacked by extremists in the media and fueled by corporate coffers has become in America And no one has inspired such venom as our nation s current president who has been targeted by Republicans for a uniquely insidious brand of character assassination In his characteristic on the mark arguments sure to appeal to anyone on the Left or in the Center talk show host and syndicated columnist Bill Press shows how the peculiar nature of Obama Hating subverts issue driven debate and threatens not only the outcome of the 2012 election but the future of the American democratic system *Economics 101 for Senators and Representatives* Wallace Hoffman, 2022-08-24 The mission of this book is to inform all American citizens how their senators and representatives vote in Washington Do your senators and your representative fulfill the responsibilities of government in the Constitution and vote in your favor If that is true they are your friends Or do your senators and your representatives violate the Constitution and vote against your best interest If that is true they are your enemies If you vote for and reelect your enemies they will be your enemies the next two or six years President Obama s legacy of deficit spending is characterized by average deficit spending of more than a trillion dollars annually During those eight years every American household went to bed each evening fifty dollars deeper in debt regardless of how hard they worked or whether they spent any money The national debt more than doubled during President Obama s eight years in office Each person s share of debt increased from 30 000 to 70 000 *Obama's Education Takeover* Lance Izumi, 2011-12-20 President Obama has laid the groundwork for an unprecedented centralization of education policy under the guise of promoting educational innovation accountability and improved student achievement In reality Obama s new national standards curricula and testing in addition to huge spending commitments by the federal government shift the policymaking power from individuals and communities to the federal bureaucracy In this Broadside Lance Izumi examines Obama s education policies and shows us why Americans

must protect and promote the power of individuals especially parents to control children's education. We should look to the revolutionary school choice and parental empowerment laws passed by key states and other nations such as Canada. While Obama is pushing American education in the wrong direction we can steer it back to local control. *What's So Bad About Cronyism?* Jay Cost, 2015-10-06 Cronyism is a serious problem in the United States but unfortunately it is still not very well understood. In this new essay Jay Cost explains what it is and why we should be so worried about it. By mingling private and public interests cronyism costs us hundreds of billions of dollars per year and threatens to transform our republic into an oligarchy where the rich dominate the middle class. Worse modern cronyism has become embedded into the laws themselves so politicians in Washington assume that such corruption is just the way things should be. To confront the dangers of cronyism reformers need to think outside the box paying special attention to how the political process functions. How China's Communist Party Made the World Sick Bill Gertz, 2020-04-28 The outbreak of a deadly new form of pneumonia that began in Wuhan China in December 2019 has shown the world that the regime in Beijing poses the most serious threat to world peace and freedom since the Soviet Union. Early missteps by China's ruling Communist Party repressing doctors who sought to alert China and the world to the dangers of the novel coronavirus and permitting millions to travel out of Wuhan for a holiday caused the global pandemic now devastating populations and economies around the world. In this important essay Bill Gertz shows how China's lies and obfuscations imperiled the world. **Communist China's War Inside America** Brian T. Kennedy, 2020-06-16 The People's Republic of China and the United States are today at war. It is being fought with the use of information, politics and finance. The Chinese believe that as in all war it would be better to win without engaging the enemy on the battlefield or having to resort to the likes of nuclear weapons if it can be avoided. To achieve this China has engaged in a decades long campaign to manipulate and corrupt America's ruling elite. This Broadside describes the degree to which Chinese influence has penetrated American society and what will be required to prevent Communist China from winning the struggle in which we find ourselves today. Against the Obamanet Brian C. Anderson, 2015-07-21 The Internet is a platform of ceaseless innovation that has transformed our lives in a remarkably short time. And the United States has led that revolution of the 15 largest websites in the world 10 are American. But all that is now under threat. In February 2015 the Federal Communications Commission imposed extensive regulatory controls on this vibrant digital universe in an effort to mandate network neutrality. In this Broadside Brian C. Anderson explains how the FCC's power grab for neutrality could be devastating for the most dynamic sector of the U.S. economy. Network neutrality is at odds with everything that made today's Internet the market cornucopia that it is and we must protect it from the encroachments of Washington in order to foster its further growth. Why Redistribution Fails James Piereson, 2015-10-13 Democratic presidential candidates including Hillary Clinton and Bernie Sanders along with progressive economists like Thomas Piketty and Paul Krugman have made a case for redistributing income from the wealthy to the poor as a means of reducing inequalities in income and wealth. Meanwhile

public opinion polls show that voters reject programs of redistribution in favor of policies designed to promote overall economic growth and job creation While voters are concerned about inequality they are more skeptical of the capacity of the government to do anything about it without making matters worse for everyone In this Broadside James Piereson explains why the voters are right and the progressive politicians and economists are wrong As he demonstrates the progressive case is based upon a serious fallacy it assumes that the government is actually capable of redistributing income from the wealthy to the poor For reasons of policy tradition and constitutional design this is not the case The United States currently has one of the more progressive income tax systems in the industrial world but it does little to redistribute income from the wealthy to the poor One reason for this is that though the government spends vast sums on programs to aid the poor most of these funds flow to providers of services rather than to the poor themselves Thus whatever one may think of inequality redistributive tax and spending policies are unlikely to do much to ameliorate it but will instead line the pockets of providers and advocates who wield great influence in Washington

Moore vs. Krugman Stephen Moore, 2016-05-03 What happens when a leading conservative economist goes mano a mano with today's most influential exponent of left liberal economics over free markets versus government interventionism Here are highlights of that showdown between Stephen Moore of the Heritage Foundation and Paul Krugman Nobel laureate Moore and Krugman sparred over eight major economic issues in our national debate from whether the policy response to the crisis of 2008 was successful to the outlook for Obamacare to the red state blue state divide The contest was cordial and spiced with wit Does air conditioning explain the migration from blue to red states Is Houston still uninhabitable This high powered matchup illuminates a clash of worldview that leads to opposing policy prescriptions More important it will help you draw conclusions about which economic policies work

The Growth Deficit James Piereson, 2022-11-01 During the 1980s and 1990s European economies went through a period of slowing economic growth and high unemployment what some economists described as secular decline On the other side of the Atlantic the United States enjoyed a robust recovery during those years by reducing taxes eliminating regulations on business and tightening monetary policy Now after two decades of subpar growth the question is whether or not the American economy has entered into its own era of secular decline This Broadside examines this troubling development recognizing that there are no easy solutions to the problem Lacking workable solutions Americans will have to adjust to a future of slow economic growth with all that implies for inter generational progress American strength abroad and political conflict at home

Getting America Back to Work Andrew F. Puzder, 2020-04-21 Over the last two months the COVID 19 pandemic has thrown a robust American economy into disarray completely shutting down major business sectors and putting millions of people out of work overnight With so much at stake and with all options seemingly on the table it is crucial that we commit ourselves to the long term goal of restoring the sorts of free market policies that led to the Trump Economic Boom prior to the China Virus crisis Although massive government interventions that Barack Obama pursued following the

Great Recession might presently appear beneficial or even essential a return to Obama s new normal of stagnant growth would lead to disastrous and persisting economic damage We must instead return as soon as is safely possible to the Trump model of economic prosperity that produced the strongest labor market in modern history **Khashoggi, Dynasties, and Double Standards** Joseph P. Duggan,2019-04-30 As 2018 ended an orchestrated propaganda campaign paralyzed U S foreign policy The trigger was the killing in Istanbul of Jamal Khashoggi a member of Saudi Arabia s wealthy and politically powerful oligarchy Mainstream media and misguided melodramatic politicians hoodwinked millions by portraying Khashoggi as a martyr for press freedom and democracy The real Khashoggi was nothing of the sort President Trump s efforts to restore realism to foreign policy must contend not only with Democrats but also with na ve Republicans who reject the national interest realism of Jeane Kirkpatrick author of Dictatorships and Double Standards **The Judiciary's Class War** Glenn Harlan Reynolds,2018-02-13 The terms Front Row Kids and Back Row Kids coined by the photographer Chris Arnade describe the divide between the educated upper middle class who are staying ahead in today s economy and the less educated working class who are doing poorly The differences in education and the values associated with elite schooling have produced a divide in America that is on a par with that of race The judiciary requiring a postgraduate degree is the one branch of government that is reserved for the Front Row Kids Correspondingly since the Warren era the Supreme Court has basically served as an engine for vindicating Front Row preferences from allowing birth control and abortion to marginalizing religion in the public space to legislative apportionment and libel law and beyond Professor Glenn Reynolds describes this problem in detail and offers some suggestions for making things better **The Next Pandemic** Betsy McCaughey,2020-05-19 America is suffering from two public health crises One is caused by a virus The other a brutal economic shutdown is something we have brought on ourselves Both the virus and the shutdown are deadly But many more Americans will likely die from getting laid off than from the virus The shutdown wasn t caused by the virus It was a frantic response to America s unpreparedness For more than two decades a dozen official reports sounded the alarm The career pols and federal bureaucrats did nothing Message to Washington DC No more commissions and televised hearings It s time to act In this incendiary Encounter Broadside Betsy McCaughey shows how to battle the next pandemic without an economic shutdown including technologies to make workplaces healthier protections for hospital workers and severing dependence on China for medical supplies Despite the suffering there s reason for optimism America will be ready for the next pandemic

Faithless Execution Andrew C McCarthy,2014-06-03 We still imagine ourselves a nation of laws not of men This is not merely an article of faith but a bedrock principle of the United States Constitution Our founding compact provides a remedy against rulers supplanting the rule of law and Andrew C McCarthy makes a compelling case for using it The authors of the Constitution saw practical reasons to place awesome powers in a single chief executive who could act quickly and decisively in times of peril Yet they well understood that unchecked power in one person s hands posed a serious threat to liberty the

defining American imperative Much of the debate at the Philadelphia convention therefore centered on how to stop a rogue executive who became a law unto himself The Framers vested Congress with two checks on presidential excess the power of the purse and the power of impeachment They are potent remedies and there are no others It is a straightforward matter to establish that President Obama has committed high crimes and misdemeanors a term signifying maladministration and abuses of power by holders of high public trust But making the legal case is insufficient for successful impeachment leading to removal from office Impeachment is a political matter and hinges on public opinion In *Faithless Execution* McCarthy weighs the political dynamics as he builds a case assembling a litany of abuses that add up to one overarching offense the president's willful violation of his solemn oath to execute the laws faithfully The fundamental transformation he promised involves concentrating power into his own hands by flouting law statutes judicial rulings the Constitution itself and essentially daring the other branches of government to stop him McCarthy contends that our elected representatives are duty bound to take up the dare *Operation Drain the Swamp* Adam Andrzejewski,2018-05-22 President Donald J Trump said he wants to drain the swamp But is it a swamp or an ocean It's about time the American people had some hard facts regarding the federal bureaucracy In *Operation Drain The Swamp* we expose all of it We showcase who receives how much where they work and what they do Most importantly we reveal how much these bureaucrats cost the American taxpayer During the 2016 presidential election the supporters of Donald Trump on the right and even those supporting Bernie Sanders on the left felt that the system was rigged for insiders Now we highlight the facts and stories to prove it In *Operation Drain The Swamp* we offer a step by step guide to civil service reforms *Countdown to Socialism* Devin Nunes,2020-09-15 The Democratic Party has changed beyond recognition Once the party of anti communism and tax cutting under President Kennedy it is now dominated by a surging socialist movement and led by a presidential candidate who vows to transform America On a near daily basis the Democrats are issuing radical proposals to socialize medicine industry and higher education So how can the Democrats win elections when their agenda is so far to the left of the American people That's easy it's because the means of public debate are being manipulated In *Countdown to Socialism* Congressman Devin Nunes exposes the nexus between the Democratic Party the mainstream media and the social media corporations These three entities cooperate to blast out the Democrats message and downplay their extremism while suppressing and censoring conservative points of view Tens of millions of Americans are only seeing one side of the debate The information they get from newspapers and social media is not news it's contrived content designed to help one political party and punish its opponents In the run up to the most consequential election of our lifetime read this book to learn how your information is being skewed and regulated to force America onto the path to socialism *The Inequality Hoax* James Piereson,2014-08-05 The controversy over inequality has gathered steam with the publication of Thomas Piketty's new book *Capital in the Twenty First Century* a dense work of economic history that documents the rise of income inequality in recent decades and sets forth an agenda of taxation to deal

with it Piketty's treatise has turned into a rallying point for those favoring income redistribution and higher taxes on the rich. In this Broadside James Piereson explains how Piketty's book is flawed and advances a narrow understanding of the market system. While misjudging the era in which we are living and misunderstanding the sources of inequality, Piketty's book proposes solutions that will make matters worse for everyone: the wealthy, the middle class, and the poor alike. **The Fracturing of the E.U.** Bruce S. Thornton, 2017-12-05. The long simmering crises challenging the European Union have worsened with the 2008 financial crisis, the influx of Middle East refugees in 2015, several bloody terrorist attacks, and England's departure from the E.U. in 2016. Yet these are all the wages of persistent flaws in the idea of the Union itself. Excessive regulations, welfare, and taxes impede economic growth. Centralization of power in Brussels has created a democracy deficit and lessened autonomy and freedom. Populations are shrinking, and unvetted and unassimilated migrants have increased crime and terrorist attacks. All these problems reflect the lack of any unifying set of beliefs and principles that could unite 27 diverse cultures and peoples. Europe is fractured and adrift; its peoples are unsure for what they should fight or die for.
