Allen, 2024-09-17 An innovative study of the manuscript history of the New Testament encompassing its paratexts titles cross references prefaces marginalia and more How did the Christian scriptures come to be In Words Are Not Enough Garrick V Allen argues that our exploration of the New Testament's origins must take account of more than just the text on the page Where did the titles verses and chapters come from Why do these extras the paratexts matter Allen traces the manuscript history of scripture from our earliest extant texts through the Middle Ages to illuminate the origins of the printed Bibles we have today Allen's research encompasses formatting titles prefaces subscriptions cross references marginalia and illustrations Along the way he explains how anonymous scribes and scholars contributed to our framing and thereby our understanding of the New Testament But Allen does not narrate this history to try to unearth a pristine authorial text Instead he argues that this process of change is itself sacred On the handwritten page scripture and tradition meet Students scholars and any curious reader will learn how the messy human transmission of the sacred text can enrich our biblical interpretation **More Story Stretchers** Shirley C.
