Resources in Education, 1992 *The Educator's Handbook for Understanding and Closing Achievement Gaps* Joseph Murphy, 2010

Beginning with a remarkably comprehensive and accessible analysis of the gap's causes, the book offers a refreshingly balanced evidence based state of the art outline of productive solutions that should inform the work of all educational stakeholders.

Ken Leithwood, Professor OISE, University of Toronto: No one is better positioned than Joseph Murphy to provide lessons for education leaders on this important topic.

Andrew Porter, George and Diane Weiss, Professor of Education, University of Pennsylvania: For too long the achievement gap has been proclaimed, discussed, and then dismissed as a subject of despair. Seldom has it been systematically defined, placed in historical perspective, or positively addressed. Through thorough scholarship, comprehensive knowledge, and creativity, this book fills that void.
