Kent Chrisman,2013-09-11 Teaching Young Children Mathematics provides a comprehensive overview of mathematics instruction in the early childhood classroom Taking into account family differences language barriers and the presence of special needs students in many classrooms throughout the U S this textbook situates best practices for mathematics instruction within the larger frameworks of federal and state standards as well as contemporary understandings of child development Key topics covered include developmental information of conceptual understanding in mathematics from birth through 3rd grade use of national and state standards in math including the new Common Core State Standards information for adapting ideas to meet special needs and English Language Learners literacy connections in each chapter real world connections to the content and information for family connections to the content **Academy of Learning: Your Complete Preschool Lesson Plan Resource - Volume 3** , **Academy of Learning: Your Complete Preschool Lesson Plan Resource - Volume 5** , **More Than Counting** Sally Moomaw,Brenda Hieronymus,2011-02-08 More than one hundred math activities for young children that incorporate early learning standards **Collecting for the Curriculum** Amy J. Catalano,2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share

research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials

Home Learning Year by Year Rebecca Rupp,2009-02-04 Finally homeschoolers have a comprehensive guide to designing a homeschool curriculum from one of the country s foremost homeschooling experts Rebecca Rupp presents a structured plan to ensure that your children will learn what they need to know when they need to know it from preschool through high school Based on the traditional pre K through 12th grade structure Home Learning Year by Year features The integral subjects to be covered within each grade Standards for knowledge that should be acquired by your child at each level Recommended books to use as texts for every subject Guidelines for the importance of each topic which knowledge is essential and which is best for more expansive study based on your child s personal interests Suggestions for how to sensitively approach less academic subjects such as sex education and physical fitness
