Schenkeveld,1991-01-01 Dutch literature of the 17th century while not as famous as other elements of the culture of the Dutch Golden Age deserves independent focus not only because of its own intrinsic worth but also because of the evidence of strong social concern that it presents and the light it sheds on other aspects of the Golden Age Despite this outside the Netherlands the literature has not been examined closely undoubtedly because of the language barrier but also because there is no reasonable introduction to the material in English This book fills that lacuna Richly illustrated it groups its subjects thematically politics religion nature daily life Because Golden Age painting in particular is so famous the book devotes a special chapter to the connection between poetry and painting A concluding chapter shows the republic's function as a European literary trading center with brisk import and export Included also are texts and translations of poems and extensive bibliographies for further study **A Corpus of Rembrandt Paintings IV** Ernst van de Wetering,2010-07-19 Volume IV of A Corpus of Rembrandt Paintings deals uniquely with the self portraits of Rembrandt In a clearly written explanatory style the head of the Rembrandt Research Project and Editor of this Volume Ernst van de Wetering discusses the full body of work of paintings and etchings portraying Rembrandt He sets the different parameters for accepting or rejecting a Rembrandt self portrait as such whilst also discussing the exact working environment of Rembrandt and his apprentices This workshop setting created a surroundings where apprentices could be involved in working on Rembrandt paintings making it more difficult to determine the hand of the master Van de Wetering who is one of the Rembrandt experts of our day and age goes down to great detail to explain how the different self

portraits are made and what techniques Rembrandt uses also giving an overview of which paintings are to be attributed to the Dutch Master and which not In the additional catalogue the self portraits are examined in detail In clear and accessible explanatory text the different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging like X radiography This work of art history and art research should be part of every serious art historical institute university or museum Nowhere in the art history have all Rembrandt s self portraits been discussed in such detailed and comparative manner by an authority such as Ernst van de Wetering This is a standard work for decades to come *H.
