Visualizing Loss in Latin America Gisela Heffes, 2023-05-19 Visualizing Loss in Latin America engages with a varied corpus of textual visual and cultural material with specific intersections with the natural world arguing that Latin American literary and cultural production goes beyond ecocriticism as a theoretical framework of analysis Gisela Heffes poses the following crucial question How do we construct a conceptual theoretical apparatus to address issues of value meaning tradition perspective and language that contributes substantially to environmental thinking and that is part and parcel of Latin America The book draws attention to ecological inequality and establishes a biopolitical ethics based reading of Latin American art film and literature that operates at the intersection of the built environment and urban settings Heffes suggests that the aesthetic praxis that emerges in from Latin America is permeated with a rhetoric of waste a significant trait that overwhelmingly defines it
