Heaven's Gate Benjamin E Zeller, Robert W Balch, 2014-10-31 The captivating story of the religious group focused on transcending humanity and the Earth and seeking salvation in the literal heavens on board a UFO 2015 Best Book Award from the Communal Studies Association In March 1997 thirty nine people in Rancho Santa Fe California ritually terminated their lives To outsiders it was a mass suicide To insiders it was a graduation This act was the culmination of over two decades of spiritual

and social development for the members of Heaven's Gate. In this fascinating overview Benjamin Zeller not only explores the question of why the members of Heaven's Gate committed ritual suicides but interrogates the origin and evolution of the religion, its appeal and its practices. By tracking the development of the history, social structure and worldview of Heaven's Gate, Zeller draws out the ways in which the movement was both a reflection and a microcosm of larger American culture. The group emerged out of engagement with Evangelical Christianity, the New Age movement, science fiction and UFOs and conspiracy theories and it evolved in response to the religious quests of baby boomers, new religions of the counterculture and the narcissistic pessimism of the 1990s. Thus Heaven's Gate not only reflects the context of its environment but also reveals how those forces interacted in the form of a single religious body. In the only book-length study of Heaven's Gate, Zeller traces the roots of the movement, examines its beliefs and practices and tells the captivating story of its people. The most thorough work on the cult of Heaven's Gate that is presently available. Choice

Urban addresses such questions as: Why has there been such a tremendous proliferation of new spiritual forms in the past 150 years, even as our society has become increasingly rational, scientific, technological and secular? Why has the United States become the heartland for the explosion of new religious movements? How do we deal with complex legal debates such as the use of peyote by the Native American Church or the practice of plural marriage by some Mormons?

Sacred Suicide Carole M. Cusack, 2016-04-08 The label Suicide Cults has been applied to a wide variety of different alternative religions from Jonestown to the Solar Temple to Heaven s Gate Additionally observers have asked if such group suicides are in any way comparable to Islamist suicide terrorism or to historical incidents of mass suicide such as the mass suicide of the ancient community of Masada Organizationally and ideologically diverse it turns out that the primary shared trait of these various groups is a common stereotype of religion as an irrational force that pushes fanatics to undertake acts of suicidal violence Offering a valuable perspective on New Religious Movements and on religion and violence Sacred Suicide brings together contributions from a diverse range of international scholars of sociology religious studies and criminology
