

Malala the Powerful

The true story of a teen girl who almost died for her right to go to school

BY KRISTIN LEWIS

October 9, 2012, was an ordinary afternoon in the Swat Valley in northern Pakistan. Malala Yousafzai (yoo-saf-ZAY), 15, was on a school bus waiting to go home. Suddenly, two gunmen in masks appeared.

"Who is Malala?" one of them yelled. A feeling of terror filled the bus. Then the gunmen opened fire. One bullet hit Malala's head. Two of Malala's friends were struck in their arms. Then the gunmen ran off, leaving Malala to die.

It might be difficult to understand why anyone would try to murder an innocent girl on her way home from school. But some people in Pakistan did not view Malala for what she was: a bright and kind teenager. They saw her as a dangerous threat to their way of life.

Malala had been fighting for the right for all girls to go to school—work that made her famous around the world.

It also made her a target of an evil group of **terrorists** called the Taliban.

Instruction Practices for Equitable and Effective Teaching Hodges, Tracey S., 2022-05-27 Writing is a critical component for teaching children about advocacy and empowering student voice as well as an essential tool for learning in many disciplines. Yet writing instruction in schools often focuses on traditional methods such as the composition of five paragraph essays or the adherence to proper grammatical conventions. While these are two components of writing instruction and preparation in education, they only provide a small glimpse into the depth and breadth of writing. As such, writing instruction is increasingly complex and requires multiple perspectives and levels of skill among teachers. *The Handbook of Research on Writing Instruction Practices for Equitable and Effective Teaching* serves as a comprehensive reference of issues related to writing instruction and leading research about perspectives, methods, and approaches for equitable and effective writing instruction. It includes practices beyond K-12, including best writing practices at the college level as well as the development of future teachers. Providing unique coverage on culturally relevant writing, socio and racial linguistic justice, and urgent writing pedagogies, this major reference work is an indispensable resource for administrators and educators of both K-12 and higher education: pre-service teachers, teacher educators, libraries, government officials, researchers, and academicians.
