Henry James And The Suspense Of Masculinity:

Henry James and the Suspense of Masculinity Leland S. Person, 2013-06-15 Using insights from feminist studies men's studies and gay and queer studies Leland Person examines Henry James's subversion of male identity and the challenges he poses to conventional constructs of heterosexual masculinity Sexual and gender categories proliferated in the nineteenth and early twentieth centuries and Person argues that James exploited the taxonomic confusion of the times to experiment with alternative sexual and gender identities In contrast to scholars who have tried to give a single label to James's sexuality Person argues that establishing James's gender and sexual identity is less important than examining the novelist's shaping of male characters and his richly metaphorical language as an experiment in gender and sexual theorizing Just as an author's creations can be animated by his or her own sexuality Person contends James's sexuality may be most usefully understood as something primarily aesthetic and textual As Person shows in chapters devoted to some of this author's best known novels Roderick Hudson The American The Portrait of a Lady The Bostonians The Ambassadors The Golden Bowl James conducts a series of experiments in gender sexual construction and deconstruction He delights in positioning his male characters so that their gender and sexual orientations are reversed ambiguous and even multiple Ultimately he keeps male identity in suspense by pluralizing male subjectivity

Henry James and Queer Modernity Eric Haralson, 2003-03-27 In *Henry James and Queer Modernity* first published in 2003 Eric Haralson examines far reaching changes in gender politics and the emergence of modern male homosexuality as depicted in the writings of Henry James and three authors who were greatly influenced by him Willa Cather Gertrude Stein and Ernest Hemingway Haralson places emphasis on American masculinity as portrayed in fiction between 1875 and 1935 but the book also treats events in England

such as the Oscar Wilde trials that had a major effect on American literature He traces James's engagement with sexual politics from his first novels of the 1870s to his major phase at the turn of the century The second section of this study measures James's extraordinary impact on Cather's representation of queer characters Stein's theories of writing and authorship as a mode of resistance to modern sexual regulation and Hemingway's very self constitution as a manly American author

Masculine Domination in Henry James's Novels Wibke Schniedermann, 2020-07-20 This book proposes a new interdisciplinary approach to the gendered power relations in James's novels Reading James's narrative form through the lens of relational sociology specifically Pierre Bourdieu's concept of symbolic domination reconciles some of the most fiercely disputed positions in James studies of the past decades The close readings focus on three novels *The Portrait of a Lady* *The Wings of the Dove* and *The Golden Bowl* providing a systematic relational analysis into the specifically Jamesian method of narrating the socio psychological embodied responses to masculine power and oppression James persistently narrates his characters as social agents whose perception affects and bodily practices are products of the social structures that they in turn continue to shape and reproduce The chapters trace a development throughout James's career that reflects a growing sensitivity for the concealment and attendant misrecognition of gendered domination

Writing Pain in the Nineteenth-Century United States Thomas Constantinesco, 2022-02-17 *Writing Pain in the Nineteenth Century United States* examines how pain is represented in a range of literary texts and genres from the nineteenth century US It considers the aesthetic philosophical and ethical implications of pain across the works of Ralph Waldo Emerson Harriet Jacobs Emily Dickinson Henry James Elizabeth Stuart Phelps and Alice James as the national culture of pain progressively transformed in the wake of the invention of anesthesia Through examining the work of nineteenth century writers Constantinesco argues that pain while undeniably destructive also generates language and identities and demonstrates how literature participates in theorizing the problems of mind and body that undergird the deep chasms of selfhood sociality gender and race of a formative period in American history *Writing Pain in the Nineteenth Century United States* considers first Emerson's philosophy of compensation which promises to convert pain into gain It also explores the limitations of this model showing how Jacobs contests the division of body and mind that underwrites it and how Dickinson challenges its alleged universalism by foregrounding the unshareability of pain as a paradoxical measure of togetherness It then investigates the concurrent economies of affects in which pain was implicated during and after the Civil War and argues through the example of James and Phelps for queer sociality as a response to the heteronormative violence of sentimentalism The last chapter on Alice James extends the critique of sentimental sympathy while returning to the book's premise that pain is generative and the site of thought By linking literary formalism with individual and social formation *Writing Pain in the Nineteenth Century United States* eventually claims close reading as a method to recover the theoretical work of literature

Haunted Museum Jonah Siegel, 2021-04-13 For centuries southern Europe and Italy in particular has offered writers far more than an evocative setting for important works of literature The voyage south has been an integral part of the imagination of inspiration Haunted Museum is a groundbreaking in depth look at fantasies of Italy from the late eighteenth to the early twentieth centuries focusing on a literary tradition Jonah Siegel terms the art romance the fantastic voyage south understood as the register of an ambivalent desire for art and a heightened experience of reality Siegel argues that Italy s allure derives not only from its celebrated promise of unique natural beauty and prized antiquities but from the opportunity it offers writers to place themselves in relation to a web of prior accounts of travel to the native land of genius Beginning with Goethe as the founding figure of the tradition Haunted Museum moves from a rich reframing of literature from the first half of the nineteenth century including new readings of works by Byron de Sta l Barrett Browning and others to an ambitious examination of Henry James s well known engagement with Europe newly understood as a response to this important literary legacy Readings of works by Freud Forster Mann and Proust demonstrate the longevity of the tradition of looking to Italy for the representation of desires as impossible to satisfy as they are to deny

Circulating Queerness Natasha Hurley, 2018-06-19 A new history of the queer novel shows its role in constructing gay and lesbian lives The gay and lesbian novel has long been a distinct literary genre with its own awards shelving categories bookstore spaces and book reviews But very little has been said about the remarkable history of its emergence in American literature particularly the ways in which the novel about homosexuality did not just reflect but actively produced queer life Drawing on Mikhail Bakhtin s insight that the history of society is connected to the history of language author Natasha Hurley charts the messy complex movement by which the queer novel produced the very frames that made it legible as a distinct literature and central to the imagination of queer worlds Her vision of the queer novel s development revolves around the bold argument that literary circulation is the key ingredient that has made the gay and lesbian novel and its queer forebears available to its audiences Challenging the narrative that the gay and

lesbian novel came into view in response to the emergence of homosexuality as a concept Hurley posits a much longer history of this novelistic genre In so doing she revises our understanding of the history of sexuality as well as of the processes of producing new concepts and the evolution of new categories of language

Out of Character Omri Moses,2014-05-07

Characters are those fictive beings in novels whose coherent patterns of behavior make them credible as people Character is also used to refer to the capacity or incapacity of individuals to sustain core principles When characters are inconsistent they risk coming across as dangerous or immoral not to mention unconvincing But what is behind our culture's esteem for unwavering consistency Out of Character examines literary characters who defy our culture's models of personal integrity It argues that modernist writers Henry James Gertrude Stein and T S Eliot drew inspiration from vitalism as a way of reinventing the means of depicting people in fiction and poetry Rather than regarding a rigid character as something that inoculates us against the shifting tides of circumstance these writers insist on the ethical necessity of forming improvisational dynamic social relationships Charting the literary impact of William James Charles Darwin Friedrich Nietzsche and in particular Henri Bergson this book contends that vitalist understandings of psychology affect and perception led to new situational and relational definitions of selfhood As Moses demonstrates the modernists stirred by these vital life lessons give us a sense of what psychic life looks like at its most intricate complex and unpredictable

Literary Impressionism and Modernist Aesthetics Jesse Matz,2001-08-02 Jesse Matz examines the writing of such modernists as Henry James Joseph

Conrad and Virginia Woolf who used the word impression to describe what they wanted their fiction to present Matz redefines literary Impressionism focusing on the way that impressions destroy standard perceptual distinctions between thinking and sensing believing and suspecting He argues that these writers favoured not immediate subjective sense but rather a mode that would mediate perceptual distinctions Just as impressions fall somewhere between thought and sense Impressionist fiction occupies the middle ground between opposite ways of engaging with the world Matz also argues that the resulting confusion becomes a basic plot feature of modernist fiction This wide ranging 2001 study addresses the problems of perception and representation that occupied writers in the early decades of the twentieth century

Echoes of Emerson Diana Hope Polley, 2017-10-17 Probes the ways in which two major periods in nineteenth century American literature Romanticism and Realism have come to be understood and defined **Performing the Everyday in Henry James's Late Novels** Maya Higashi Wakana, 2016-05-13 Focusing on James's last three completed novels *The Ambassadors* *The Wings of the Dove* and *The Golden Bowl* Maya Higashi Wakana shows how a microsociological approach to James's novels radically revises the widespread tradition of putting James's characters into historical and cultural contexts Wakana begins with the premise that day to day living is inherently theatrical and thus duplicitous and goes on to show that James's art relies significantly on his powerful sense of the agonizing and even dangerous complications of mundane face to face rituals that pervade his work Centrally informed by social thinkers such as G H Mead and Erving Goffman Wakana's study discloses the richness complexity and singularity of the interpersonal connections depicted in James's late novels Persuasively argued and rich in original close readings her book makes an important contribution to James's studies and to theories of social interaction
