Business Disputes in China - 3rd Edition Michael J. Moser, 2011-09-01 China has become a magnet for international business. Dispute Resolution in China Michael J. Moser, 2012-07-01 *Dispute Resolution in China* provides an up to date summary commentary and analysis of how disputes are settled in today's China. Like in many other jurisdictions litigation and arbitration are the main dispute resolution methods to settle large commercial disputes in China. While litigation is more commonly used in domestic commercial disputes arbitration is the most popular dispute resolution method among foreign parties who conduct business in China or with Chinese parties. Each of the chapters contained in this book deals with a selected topic in dispute resolution and is authored by a leading expert in the field. This book is a necessary resource for arbitration and litigation attorneys as well as other professionals conducting business in China's increasingly regulated and complex business environment.

Dispute Settlement for ASEAN Businesses under the Belt and Road Initiative Locknie Hsu, 2022-12-06 This forward looking book examines dispute resolution issues in the context of Belt and Road Initiative dealings between parties in ASEAN Member States, China and other trade partners. Dispute Resolution in the People's Republic of China Zhiqiong June Wang, Jianfu Chen, 2019-12-02 Dispute resolution reforms in China in the last decade or so have all centred around the strategy of establishing an integrated dispute resolution system as part of China's modern governance system. This new integrated system referred to as the Mechanism for Pluralist Dispute Resolution (PDR) in China serves as a dispute resolution system as well as a comprehensive social control mechanism. This book is the first academic attempt to explain the methods of civil and commercial dispute resolution in China from the perspective of PDR. It systematically and critically examines the development of China's dispute resolution system with each chapter analysing in detail the development and transformation of the different institutions, mechanisms and processes in their historical, politico-economic and comparative context.

maker in the same dispute and the enforcement of mediated settlement agreements resulting from MDR Understanding China's Real Estate Markets Bing Wang, Tobias Just, 2021-01-05 China's economy has been transforming rapidly over the last 25 years. As a result, Chinese conurbations have changed remarkably, with cities expanding both vertically and horizontally, and the physical environment acting as a medium for unprecedented urbanization. This has provided vast opportunities for investors, real estate developers, and service companies, but also presents huge challenges, as traditional city spaces have been reconfigured, environmental risks, and the volatility of real estate markets increased. However, as engagement with China is becoming strategically important for many, forming a synthesized lens through which to read China across the vicissitudes of its real estate sector bears historic significance. By offering an insightful framework and structure for understanding China's variegated real estate dynamics, players, and markets, Understanding China's Real Estate Markets codifies the principles and practices of real estate development, finance, and investment in China, and builds foundations for future academic research and practical knowledge in shaping and engaging the urban environment within China and beyond.
