Case Studies for Complementary Therapists Kelly Galvin,Madelaine Bishop,2010-12-20 This book provides support at curriculum level for developing the complementary potential which exists between complementary and conventional western medicine It provides students teachers and practitioners with a framework within which they can effectively analyse and classify the extensive amount of information gathered in a CAM consultation and help them develop effective and appropriate treatment programmes within the time constraints of a busy clinic It provides an insight into the initial CAM consultation process offering possible treatment and collaborative referral options for individual cases rather than dictating diagnostic analysis or treatment protocols for specific conditions Question suggestions have been provided to help the user collect the necessary information to develop a working diagnosis and treatment protocol for each individual case Readers can then adapt questions decision making tools and therapeutic recommendations to suit the needs of their own clients Complementary practitioners are often uncertain about the legal and ethical boundaries regarding diagnosis and case management This book will help CAM students and practitioners recognise situations requiring referral understand their role in collaborative case management and confidently integrate a range of CAM modalities in treatment programmes Provides a clear case analysis format which can be and adapted to suit the requirements of individual case histories Specific questioning format Clearly identifies situations where cross or collaborative referral is necessary Decision tables help readers prioritise treatment refer appropriately and help guide clinical thinking when readers are faced with several treatment options Class tested curriculum based

Clinical naturopathic medicine - eBook Leah Hechtman,2013-06-03 Clinical Naturopathic Medicine is a foundation clinical text integrating the holistic traditional principles of naturopathic philosophy with the scientific rigour of evidence based medicine EBM to support contemporary practices and principles The text addresses all systems of the body and their related common conditions with clear accessible directions outlining how a practitioner can understand health from

a naturopathic perspective and apply naturopathic medicines to treat patients individually. These treatments include herbal medicine, nutritional medicine and lifestyle recommendations. All chapters are structured by system and then by condition so readers are easily able to navigate the content by chapter and heading structure. The content is designed for naturopathic practitioners and students both undergraduate and postgraduate levels and for medical and allied health professionals with an interest in integrative naturopathic medicine. Detailed coverage of naturopathic treatments provides readers with a solid understanding of the major therapeutic modalities used within naturopathic medicine. Each system is reviewed from both naturopathic and mainstream medical perspectives to correlate the variations and synergies of treatment. Only clinically efficacious and evidence based treatments have been included. Information is rigorously researched over 7500 references from both traditional texts and recent research papers. The content skilfully bridges traditional practice and EBM to support confident practitioners within the current health care system.

Natural Standard Medical Conditions Reference E-Book

Natural Standard, Catherine Ulbricht, 2008-12-05. Healthcare providers are often approached by patients and clients about alternative therapies whether self prescribing or wanting to add therapies as an adjunct to the medical treatment they will be receiving. In addition many healthcare providers plan to incorporate alternative treatments into their practice for a more integrative approach. Whichever the case it's important for the healthcare provider to have access to information about alternative and integrative treatments and how they work with standard medical therapies. Answering this need is Natural Standard Medical Conditions Reference An Integrative Approach, a quick reference book with integrative medicine monographs for more than 100 of the most crucial conditions. This is your best source for comprehensive evidence based integrative medicine information categorized according to evidence and proven efficacy. Covers 100 of the most commonly seen conditions. Integrated therapies are rated according to whether the scientific evidence is good, unclear or conflicting, slightly negative or strongly negative. Each monograph ends with a section on prevention giving tips to help the patient prevent disease conditions or perhaps avoid recurrence after treatment is finished. Conventional medical treatment is thoroughly explained as well as lifestyle changes that could benefit the patient. The lead author is a PharmD from The Natural Standard Research Collaboration which is well respected in both medical and alternative communities.
