chapters in *From Prevention to Wellness Through Group Work* provide a look into constructivism and the power model and the empowerment approach as a paradigm for international social work practice. Other pertinent topics you learn about include conflict management in group treatment, a social skills program for emotionally disturbed children, bullying and scapegoating in groups, groups for persons who have experienced transplants, groups for persons with AIDS, the intersection of different realities in the group setting, using poetry to revive traditional practice methods, theories and values, mutual aid, democratic participation, power sharing, and consciousness raising. *From Prevention to Wellness Through Group Work* also shows you how group experiences prevent breakdown and encourage wellness for older adults in senior centers and retirement communities, the definition, scope, and usefulness of psychoeducational groups, how group-based methods can enrich research, and how monitoring group practice can strengthen your effectiveness and credibility. You'll find the book's consistent focus on prevention while providing ways to improve both group work practice and research through cooperative efforts most helpful.

Groupwork Practice for Social Workers Karin Crawford, Marie Price, Bob Price, 2014-12-01 Working with families, carers, groups, and communities is something all social work students must prepare for. Written to guide you through these varied and complex groupwork situations, this book explores the knowledge, skills, and values required for groupwork practice. Divided into two parts, the first provides an understanding of groupwork, its concepts, and contexts, while the second takes you step by step through groupwork practice from planning and preparation to starting out, facilitating, and finally ending work with a group. Different service contexts, including work with children, with users who have learning disabilities, in mental health settings, and more, are covered throughout the book with case studies, activities, and reflective opportunities helping you to understand the complexities of these contexts. This text is a comprehensive and contemporary guide to groupwork in social work today.

Intervention Research Edwin J. Thomas, Jack Rothman, 2013-04-03 This interdisciplinary book presents a comprehensive conceptual and methodological treatment of intervention research, a developing area of empirical inquiry that aims to make research more directly relevant and applicable to practice. *Intervention Research* contains original chapters by the most highly regarded scholars in the field. These experts explain how to distinguish intervention research from other modalities, demonstrate a new model of research for the design and development of interventions, and provide guidelines for conducting intervention research in practice with individuals, families, and community organizations. Providing useful observations and a wealth of ideas, authors offer conceptual schemes, results from recent design and development studies, and strategies and methodologies to help professionals make their research more usable and meaningful. Chapters cover such important topics as the acquisition of relevant knowledge, meta-analysis in intervention research, methods and issues in designing and developing interventions, and field testing and evaluating innovative practice interventions. The book depicts intervention research through case illustrations and promotes the use of new technologies for developing innovative practice methods. *Intervention Research* focuses on Intervention

Design and Development the part of intervention research involving the creation of reliable practical tools of social intervention in user ready form It sets forth systematic procedures for designing testing evaluating and refining needed social technology and for disseminating proven techniques and programs to professionals in the community Intervention Research has a base in social work but is highly interdisciplinary Authors contributing to this text come from a variety of fields including psychology sociology education information science and communications Professors and educators working in schools of public health education urban planning nursing and public administration or teaching courses in psychology sociology or upper level social work will find this book full of comprehensive and practical information that is advantageous for their work
