The Apocalypse of Enoch and Bhu unda The Apocalypse of Enoch and Bhu unda challenges the underlying assumptions of the classical roots of civilization by restoring the original context of creation mythology In this second volume of A Chronology of the Primeval Gods and the Western Sunrise ancient myths from multiple geographies are correlated to spikes in cosmic rays over the past 120 000 years as documented in ice core data The chronology and content of these myths tell us that the primary forces behind these cataclysms were the most ancient gods hyper nova at the Galactic Center associated with Sgr A The Dragon Sgr West The Beast and Sgr East Hirany ksha and Hiranyakas ipu with secondary supernova seen as the birth of new destructive gods Ancient myth has documented the cataclysmic destruction of the world on at least twenty occasions with four major geo polar migrations which has resulted in a shift of the earth s equator on at least one occasion Multiple myths are shown to represent a view of the sky that can only be seen from the Antarctic region Multiple versions of the myths of Orion are analyzed showing clear linkages between the Vedic myth of Trisanku the Book of Genesis Senmut s Tomb and the myths of Praj pati Daksa representing the oldest version of the Orion myth older than Trishanku and Genesis by 20 000 years The stunning conclusion explains how the Watchers of Enoch were the Vedic descendants of Ila and Ikshvaku These descendants of the seventh Manu had been observing and recording the stars as a source of cataclysm for at least 15 000 years prior to Enoch thus allowing Enoch to prophesize a new heaven That prophecy became the foundation for St John s Book of Revelations which is shown to be a description of a series of cataclysms attributed to Sgr West The book offers a new theory for explaining geo polar migration That theory suggests small shifts in the location of the earth s center of gravity underlie each migration but that there are multiple causes for the shifts Ann Bingham,2004-01-01

Inca Mythology Matthew Fillard, The Inca Empire at its zenith spanned much of South America including present day Peru Ecuador Bolivia and parts of Chile and Argentina Known for its advanced architecture agricultural systems and administrative organization the Inca civilization also possessed a deeply spiritual culture Central to their worldview was a rich tapestry of mythology that explained the creation of the world the origins of humankind and the roles of the gods in the natural and spiritual realms These sacred legends were not just stories they were the very foundation upon which the Inca society was built shaping everything from daily rituals to the governance of the empire Inca mythology was intricately connected to the natural world with gods and deities representing various elements of the environment such as the sun the moon the earth and water The Inca people believed that these deities were not distant abstract beings but rather active forces that influenced their lives The most important gods were thought to have a direct relationship with the ruler often considered to be divine or descended from these gods As such the Inca king or Sapa Inca was revered as the son of the sun god Inti and his authority was considered sacred The role of mythology extended beyond the divine and into the social and political spheres It was through myth that the Inca legitimized their rule connected their empire to the divine order and reinforced the unity of their vast territories Legends of the first rulers such as Manco Capac and Mama Ocllo were tied to creation myths that depicted them as divine figures sent to bring civilization to the world These

stories were used to justify Inca conquests and to explain the hierarchical structure of society **A Paranormal History Guide** TJ Morris,2012-09-13 paranormal spirituality and the history of our Alien ET UFO Community of those who became UFOlogists This is some of the history that TJ Morris uses on the nightly blogtalkradio com TJMorrisETradio Good reading about the past and the future while learning about the global brain ways we share in our social networking similar interest groups TJ has the Alien Contact Investigations Researchers Group and the website called AlienETUFO org **Architecture** Martin van der Linden,2021-03-12 The question of what architecture is answered in this book with one sentence Architecture is space created for human activities The basic need to find food and water places these activities within a larger spatial field Humans have learned and found ways to adjust to the various contextual difficulties that they faced as they roamed the earth Thus rather than adapting humans have always tried to change the context to their activities Humanity has looked at the context not merely as a limitation but rather as a spatial situation filled with opportunities that allows through intellectual interaction to change these limitations Thus humanity has created within the world their own contextual bubble that firmly stands against the larger context it is set in The key notion of the book is that architecture is space carved out of and against the context and that this process is deterministic **Encyclopedia of Women in World Religions** Susan de-Gaia,2018-11-16 This reference offers reliable knowledge about women s diverse faith practices throughout history and prehistory and across cultures Across the span of human history women have participated in world building and life sustaining cultural creativity making enormous contributions to religion and spirituality In the contemporary period women have achieved greater equality with more educational opportunities female role models in public life and opportunities for religious expression than ever before Contemporaneously with this increased visibility women are actively and energetically engaging with religion for themselves and for their communities Drawing on the expertise of a range of scholars this reference chronicles the religious experiences of women across time and cultures The book includes sections on major religions as well as on spirituality African religions prehistoric religions and other broad topics Each section begins with an introduction followed by reference entries on specialized subjects along with excerpts from primary source documents The entries provide numerous suggestions for further reading and the book closes with a detailed bibliography **World History Encyclopedia [21 volumes]** Alfred J. Scale and the Incas Andrew James Hamilton, 2018-06-05 A groundbreaking work on how the topic of scale provides an entirely new understanding of Inca material culture Although questions of form and style are fundamental to art history the issue of scale has been surprisingly neglected Yet scale and scaled relationships are essential to the visual cultures of many societies from around the world especially in the Andes In *Scale and the Incas* Andrew Hamilton presents a groundbreaking theoretical framework for analyzing scale and then applies this approach to Inca art architecture and belief systems The Incas were one of humanity's great civilizations but their lack of a written language has prevented widespread appreciation of their sophisticated intellectual tradition Expansive in scope this book examines many famous works of Inca art including Machu Picchu and the Dumbarton Oaks tunic more enigmatic artifacts like the Sayhuite Stone and Capacocha offerings and a range of relatively unknown objects in diverse media including fiber wood feathers stone and metalwork Ultimately Hamilton demonstrates how the Incas used scale as an effective mode of expression in their vast multilingual and multiethnic empire Lavishly illustrated with stunning color plates created by the author the book's pages depict artifacts alongside scale markers and silhouettes of hands and bodies allowing readers to gauge scale in multiple ways The pioneering visual and theoretical arguments of *Scale and the Incas* not only rewrite understandings of Inca art but also provide a benchmark for future studies of scale in art from other cultures
