Humanity Mike Seymour, Henry M. Levin, 2015-11-17 At a time of profound crises around the world when social justice
peace democracy and the environment seem under increasing threat the promise of a world for all seems a viable aspiration
for education Ample evidence from many schools today and dating back throughout the last century prove that the purpose of
educating young people to develop character compassion purpose and commitment is integral with the mastery of
intellectual skills and life competencies Schooling without a doubt can play a monumental part in the development of the
personal values people take with them to the world Unfortunately as the saying goes if you don't know where you're going
you'll probably get someplace else Educational policy directions over the last twenty years have veered far away from the
important work of educating for humanity This book makes a powerful appeal to revisit educational purpose in light of what
is most fundamental and important to human beings everywhere The authors address timely issues such as high stakes
testing school choice and privatization of education in looking beyond these measures to new approaches to educational
excellence **International Handbook of Giftedness and Talent** K. A. Heller, F. J. Mönks, R. Subotnik, Robert J.
