The Mind of the Leader Rasmus Hougaard, Jacqueline Carter, 2018-03-13 Join the global movement that's making corporations more people centric to achieve great results The world is facing a global leadership crisis Seventy seven percent of leaders think they do a good job of engaging their people yet 88 percent of employees say their leaders don't engage enough There is also a high level of suffering in the workplace 35 percent of employees would forgo a pay raise to see their leaders fired This is an enormous waste of human talent despite the fact that 46 billion is spent each year on leadership development Based on extensive research including assessments of more than 35 000 leaders and interviews with 250 C level executives The Mind of the Leader concludes that organizations and leaders aren't meeting employees basic human needs of finding meaning purpose connection and genuine happiness in their work But more than a description of the problem The Mind of the Leader offers a radical yet practical solution To solve the leadership crisis organizations need to put people at the center of their strategy They need to develop managers and executives who lead with three core mental qualities mindfulness selflessness and compassion Using real world inspirational examples from Marriott Accenture McKinsey Company LinkedIn and many more The Mind of the Leader shows how this new kind of leadership turns conventional leadership thinking upside down It represents a radical redefinition of what it takes to be an effective leader and a practical hard nosed solution to every organization's engagement and execution problems

Coach Your Team Liz Hall, 2019-09-26 It has never been a more challenging time for managers and leaders to maintain a happy healthy workforce The pace of change and increasing uncertainty in most industries has resulted in a rapid increase in stress and anxiety in the workplace and most organizations are poorly equipped to respond to these challenges in a meaningful and supportive way Penguin Business Experts Coach Your Team is a practical guide for leaders who want to foster a culture where everyone has a chance to flourish create and innovate while being happy and more resilient It draws on cutting edge evidence based techniques in coaching that focus on developing mindfulness and compassion in leaders their employees and throughout their organisation with case studies of

best practice from around the world It covers everything you need to know to develop your own approach to coaching starting with learning how to coach yourself through to techniques to foster a coaching culture rooted in mindfulness and compassion within your team and ultimately your organisation Learn to lead yourself, your people and your organization for great results ,2023-12-20 Putting people first has always been the basis of our success We believe that if we take care of our employees they will take care of our customers and the business will take care of itself Even after the 9 11 terrorist attacks in New York where we went from an occupancy rate of 75 to 5% overnight where our hotels were empty of guests but full of staff putting people first was the our priority Instead of suffering massive layoffs we implemented education programs maintained health benefits and did everything we could to get through the crisis with minimal negative impact on our people In a business like ours and I believe in any other sector we simply cannot be successful unless people are truly committed and happy in their work It is our commitment to create an environment where the unique contributions of our people are valued I believe the fact that Marriott is consistently considered an employer of choice is the result of these efforts Promoting a people first culture starts with leadership Leaders must model the way They must act interact and engage with the people they lead in a way that makes people feel seen heard and valued In The Mind of the Leader Rasmus Hougaard and Jacqueline Carter provide a clear path to creating people first organizations It requires leaders to be human first to be mindful selfless and compassionate and in doing so develop the qualities that enable engagement fulfillment and meaning which leads to greater business success If we as leaders are attentive we will know better what really matters to our people We are more present attentive and curious It s not always easy but I know the difference between being present with my people and when I m not I only have an impact when I am If we as leaders are selfless taking into account the bigger picture rather than our own selfish needs we will model cultures of growth and learning Bill Marriott our executive chairman even now in his eighties always has his ear open He is always seeking the perspective of others rather than blindly following his own beliefs and ideas If we as leaders are compassionate our people will know we are protected As this book clearly describes compassion is not soft and sentimental It is concrete and practical It s about doing the right thing like putting a doctor on staff during the Depression Again if we truly care about our employees they will truly care for our customers and the business will truly care for itself In many ways the principles in this book run counter to the number of businesses run It inspires me and provides insights to further evolve our culture and put people first And I believe that all leaders and other organizations will benefit greatly from its messages **La mente del líder** Rasmus Hougaard,Jacqueline Carter,2019-09-01 Los l deres exitosos del siglo XXI situar n en el centro a las personas y enfocar n sus capacidades tanto en el progreso econ mico como en la creaci n de una sociedad pr spera y sostenible La propuesta de este libro representa un cambio radical en la concepci n de lo que se necesita para ser un l der eficaz ofreciendo una soluci n pr ctica y contundente a los desaf os de compromiso y participaci n que requieren las organizaciones Sus contenidos se basan en m s de 15 a os de investigaci n y

Sustainability Challenges and Solutions at the Base of the Pyramid Prabhu Kandachar, Minna Halme, 2017-09-08

Around the turn of the millennium it had become painfully evident that development aid charity or global business as usual were not going to be the mechanisms to alleviate global poverty Today there is little dispute that poverty remains the most pressing global problem calling for innovative solutions One recent strategy is the Base of the Pyramid BoP concept developed by Prahalad and Hart which relies on entrepreneurial activity tapping into the previously ignored markets of the economically most disadvantaged It is a process requiring innovations in several disciplines technological social and business This book covers a number of areas First much of the current BoP discussion emphasises targeting products to the needs of the poor But do we actually know what the real needs of the poor are This book takes a bottom up human centred approach and examines examples that truly

engage the poor in BoP product and service development What types of needs assessment methodologies are indicated considering the cultural differences in BoP countries Are the existing methodologies adequate Do they need to be redefined and redeveloped Second the book considers how we can balance poverty alleviation and stimulate economic growth without stressing the ecosystem Tragically the poor are hardest hit by the adverse effects of environmental deterioration such as water shortages climate change or the destruction of habitats While the economic welfare of the poor is critical the BoP approach must balance its inherent paradox of encouraging greater consumption while avoiding further pressures on environmental sustainability The link between the BoP approach and sustainable development is a key feature of this book Third it looks at innovation and asks what kinds of bottom up innovation open source technological social and business support BoP initiatives and sustainable development Fourth the book deals with the relationship between development assistance and BoP Is a BoP strategy the antithesis to development aid or can these two co exist or even complement each other Finally the book raises questions about the relationship between corporate responsibility and BoP Is BoP a new form of corporate neo colonialism or a new form of corporate responsibility Although the BoP concept has unleashed an extensive and generally enthusiastic response from academics businesses NGOs and governments the knowledge domain around this concept is still in the early stages of development This book addresses that need with a focus on the needs of the end users the poor as a starting point for BoP products and innovations With contributions from both supporters and critics it provides a treasure trove of global knowledge on how the concept has developed what its successes and failures have been and what promise it holds as a long term strategy for alleviating poverty and tackling global sustainability

Negocios inclusivos y empleo en la base de la pirámide Helena Ancos Franco, 2011 Los negocios inclusivos se identifican con nuevos modelos de negocio y emprendimientos innovadores que sin perder de vista el objetivo de la rentabilidad económica apuntan a los sectores más vulnerables de la sociedad la Base de la Pirámide mide bien a través de la oferta de productos y servicios innovadores que permitan aumentar su calidad de vida bien mediante su incorporación a la cadena de producción favoreciendo la inclusión de colectivos de trabajadores autónomos inmigrantes mujeres y grupos desfavorecidos en el mercado de trabajo Este libro presenta los negocios inclusivos como una nueva oportunidad de negocio de desarrollo sostenible de cambio y de integración social Se abordan temas como la movilización del capital social de estos sectores de población el papel de las Administraciones públicas y los emprendedores sociales como motores del desarrollo económico y social el análisis de la innovación el cambio organizativo y el modelo empresarial en las estrategias de entrada en los mercados de bajos ingresos y las herramientas de evaluación de impactos de desarrollo social Coordinado por Helena Ancos directora del Programa de Trabajo de Responsabilidad Social Corporativa del Instituto Complutense de Estudios Internacionales este estudio ha contado con la colaboración de destacados académicos de distintas universidades del mundo y con especialistas que aportan una completa visión teórica y las experiencias llevadas a cabo con éxito en América Latina Asia y España
