**Poland in the Single Market** Anna Visvizi, Anna Matysek-Jędrych, Katarzyna Mroczek-Dąbrowska, 2020-10-21 By all accounts the case of Poland and its segue to market economy and democracy is a success story 30 years of uninterrupted growth and development infrastructure expansion and modernization of the economy and society Epochal changes have unfolded in a timespan of merely three decades Change has taken place so fast that children born in late 1980s and onwards cannot remember what life in Poland under communism was like and cannot relate to it Also many elderly people easy victims of romanticizing their own youth tend to forget As a result the uniqueness of Polish transition and transformation the boldness and efficiency of reforms and the success that Polish society mastered together tend to be undermined today both domestically and internationally Poland has now been a member of the EU for more than 15 years During that time Poland's image on the EU scene evolved from newcomer through model child champion of growth to in some respects a maverick This volume's objective is to remind society old and young researchers scholars and practitioners that Poland's success is an outcome of well thought out and bold structural reforms implemented in a swift and timely manner of society's support for these reforms and of third actors benign assistance Looking back on the 30 years since the collapse of communism and at the over 15 years of EU membership this book offers an interdisciplinary comprehensive and critical insight into factors and processes that have led to today's Poland

**At Risk of Deprivation** Jonas Bergmann, 2023-10-19 This open access book examines how and why various forms of climate im mobilities can impact people's objective and subjective well being Worsening climate impacts are forcing subsistence farmers worldwide to decide between staying or leaving their homes This mixed methods study analyzes cases of climate related migration displacement relocation and immobility in Peru's coastal highland and rainforest regions The results reveal that numerous farmers experienced profound and often negative well being impacts regardless of whether they stayed or migrated The higher the structural constraints such as weak governance and the more damaging the climate impacts were the higher the risk of well being declines Additionally the affected

individuals often had limited agency and ability to mitigate losses These findings challenge the notion of migration as adaptation and emphasize the importance of safeguarding the human rights and security of those affected while addressing loss and damage Without significant investments in such efforts climate impacts could sharply diminish the well being of numerous subsistence farmers worldwide irrespective of whether they stay or migrate
