and provides an empirical examination of their main claims and perspectives This is supplemented by a truly global overview of non violent extremist groups not only in Europe and the United States but also in Africa Asia Oceania and the Middle East The Handbook thus answers a call to decolonise knowledge that is especially prescient given both the complicity of non violent extremists with authoritarian states and the dynamic of oppression towards more progressive groups in the Global South The Handbook will appeal to those studying extremism radicalisation and terrorism It intersects several relevant disciplines including social movement studies political science criminology Islamic studies and anthropology Routledge Handbook of Islamic Ritual and Practice Oliver Leaman,2022-06-08 Ritual and practice are one of the most distinctive features of religion and they are linked with its central beliefs Islam is no exception here and this Handbook covers many aspects of those beliefs and practices It describes the variety of what takes place but mainly why and what the implications of both the theory and practice have for our understanding of Islam The book includes accounts of prayer food pilgrimage mosques and the various legal and doctrinal schools that exist within Islam with the focus on how they influence practice The volume is organized in terms of texts groups practices places and others An attempt has been made to discuss the wide range of Muslim ritual and practice and provide a sound guide to this significant aspect of the religious life of one of the largest groups of believers in the world today Shaping Global Islamic Discourses Masooda Bano,2015-03-20 Explores the influence of centres of Islamic learning using 3 case studies Al Azhar University in Egypt International Islamic University of Medina in Saudi Arabia and Al Mustafa University in Iran *Wahhabism and the World* Peter G. Arabic sources including biographical materials memoirs syllabi and back issues of the Islamic University journal as well as interviews with former staff and students to explore the institution's history and faculty the content and style of instruction and the trajectories and experiences of its students Countering typical assumptions Farquhar argues that the project undertaken through the Islamic University amounts to something more complex than just the one way export of Wahhabism Through transnational networks of students and faculty this Saudi state funded religious mission also relies upon and has in turn been influenced by far reaching circulations of persons and ideas
