form of the Easter promise Death is not the end Beyond it lies a realm of perfect joy where mourning is no more and every tear is wiped away But won't this promise have limits if as Christians have traditionally believed some of God's creatures are eternally lost Can I really be perfectly happy in heaven if say my children are damned or annihilated And what about the Christian teaching that those in heaven are morally sanctified Doesn't this mean they will be perfected in a love so wide it includes even our enemies and hence the lost While delving deeply into the nature of grief and its relation to Christian ethics this book explores the reasoning that generates this problem of heavenly grief examines purported solutions and invites deeper reflection on a frequently dismissed idea that avoids the problem altogether the universalist notion that there are no limits to Easter's promise because all are ultimately saved

needed to trust Him more deeply because of what was ahead of them It sounded ominous and Dave thought that something was going to happen to one of the children but they didn't dwell on that Just a few months later Nicola fell at school and broke her arm What seemed a minor accident rapidly turned into a nightmare as Nicola went into a feverish delirious state and was rushed into surgery She never regained consciousness and within five days of the accident she had died It was the beginning of a journey the family did not want to take a journey of deep grief Through this time Ruth remembered what God had said earlier As she leaned on Him in her distress she found that she was able to trust God to carry her through this dark valley and have the faith to believe that eventually He would bring good out of this terrible tragedy **Herald of Gospel**

Liberty Elias Smith, 1911 **Opening Heaven's Door** Patricia Pearson, 2015-05-19 Nearing Death Awareness is a phenomenon rarely discussed by those who have experienced it and often dismissed by our culture because it defies science or logic Yet roughly half of bereaved people as well as nurses and others who constantly observe the dying have stories of coincidental visions at the exact moment of a loved one's death comforting visits from a departed friend in an hour of need and observations of the uncanny precision with which the dying predict their own deaths even when they appear to the trained eye to be on the brink of recovery These surprisingly common occurrences point toward a larger spiritual reality and the reality of life or something else after death They also have the power to console and comfort us and to transform our understanding of mortality Prompted by her own family's experiences surrounding the deaths of her father and sister journalist Patricia Pearson examines the scientific and anecdotal evidence to challenge current assumptions regarding what we know and what we are still unable to explain about what happens to us at the threshold of death Adapted from publisher description
