 Kremer,2025-10-01 Development aid has become the subject of much discussion Why do we give aid and does it help What
 do we know about the development paths being taken by various countries or the possibilities of helping them to achieve
 their goals from outside How relevant is development aid now that remittances and foreign direct investments have
 increased as a result of globalization When does aid have more negative than positive effects What is the significance of
 shifting power relations in the world And do policies focusing on issues like climate migration financial stability knowledge
 trade and security not have a greater impact than aid on the development opportunities of poor countries These questions
 inspired the Dutch Scientific Council for Government Policy WRR to examine what form development aid should take in the
 era of globalization At the start of 2010 on the basis of over 500 interviews with experts and an extensive literature survey
 the WRR presented its far reaching recommendations In October 2010 the new Dutch government decided to use the report
