Guanzi 1 Zhong Guan,W. Allyn Rickett,2001 Cheng Tsui is pleased to offer the first revised paperback edition of this monumental work First published in 1985 W **Han Feizi, The Art of Statecraft in Early China (Vol.2)** Jens Østergaard Petersen,Yuri Pines,2024-12-02 Volume 2 of a 2 volume set This annotated translation of Han Feizi introduces one of China s most controversial political texts Generations of Chinese literati have deplored Han Feizi s cynical assault on moralising discourse blatant authoritarianism and gleeful derision of fellow intellectuals Yet many were attracted to the text s practical advice especially its advocacy of reliance on impartial standards rather than on the personal qualities of the leaders who may be dupes selfish or both And many more admired the text s incisiveness wit humour and realistic approach to politics The new translation makes the text s political philosophy and its literary gems accessible to the interested readers Religion and Chinese Society Vol. 1 John Lagerwey,2021-09-24 Thirty years ago Hu Shih s views of Chinese society and history were representative of Sinology in general China itself had no native religion just local customs its only real religion was an import Buddhism These views have now been completely overturned with massive implications for our understanding not only of China but also of humanity as a whole it is no longer possible to imagine that at least one major traditional society constructed and construed itself without reference to a non mundane world that permeated every facet of society and it therefore becomes indispensable for students of China to take the history of Chinese religion into account and for students of religion to take into account the Chinese experience of and Chinese categories for dealing with religious phenomena The present volumes contain a selection of twenty one essays presented in a conference convened jointly by the Ecole francaise d Extreme Orient and the Centre for the Study of Religion

and Chinese Society of the Chinese University of Hong Kong on Religion and Chinese Society The Transformation of a Field and Its Implications for the Study of Chinese Culture held on May 29 June 2 2000 The collection aims at providing as wide a coverage as possible of recent research in the history of Chinese religion and seeks to draw some tentative conclusions about the implications for the study of Chinese religion and society in general **The Prism of Just War** Howard M.

Hensel,2016-03-03 Through a careful examination of religious and philosophical literature the contributors to the volume analyze compare and assess diverse Western Islamic Hindu and East Asian perspectives concerning the appropriate criteria that should govern the decision to resort to the use of armed force and once that decision is made what constraints should govern the actual conduct of military operations In doing so the volume promotes a better understanding of the various ways in which diverse peoples and societies within the global community approach the question of what constitutes the legitimate use of military force as an instrument of policy in the resolution of conflicts *Dao Companion to China's fa Tradition* Yuri Pines,2024-08-14 This volume offers the most comprehensive introduction to the ideas of ancient Chinese thinkers who looked to perfect a political system thru the emphasis on impersonal standards laws and norms fa This book covers the works of these thinkers misleadingly dubbed Legalists as well as the controversies they aroused the legacy they left behind and their potential relevance The fa thinkers contributed decisively to the formation of China s first unified empire in 221 BCE but this contribution was not widely acknowledged Their derision of the moralizing discourse of their rivals dismissal of independent intellectuals as self serving hypocrites and advocacy of a powerful centralized state did not endear them to most Chinese literati To a certain extent these reservations remain visible in modern research which explains why a comprehensive study of the fa traditions is still lacking This volume fills that gap The first of four parts introduces major texts and thinkers of the fa tradition from the Warring States 453 221 BCE to the Former Han 206 202 BCE 9 CE periods The second part analyzes the major ideas of the fa texts including concepts of fa and their implementation in political and legal spheres views of human nature state society relations rulership morality in politics the evolutionary view of history and philosophy of language The third part focuses on the changing attitudes toward fa ideas in imperial and modern China The fourth part explores the ideas of fa advocates from a comparative perspective both against intellectual currents in early China and Western traditions such as Machiavellianism and totalitarianism This book serves as a reference for students and researchers in ancient Chinese history and thought and comparatists in the field of political philosophy The Shapes of Ideas: Chinese Philosophy in Cultural Relics Xi Zhang,2024-11-20 The book combines Chinese philosophy and historical knowledge and delivers the core ideas of Chinese philosophy from 72 elaborately selected pieces of cultural relics in 18 topics Based on the structure of Cosmology Ontology Theory of Mind Nature for ancient Chinese philosophy the author probes the new achievements in recent years and portrays the Chinese world of thought for its vivid transformation from pre philosophical period to early modern period from elitism taste to popularized orientation By narrating the nature of being the

author brings the thought essence of ancient Chinese philosophy to the readers meanwhile mentions the society and history and therefore sketches the interaction among the three objects The book elucidates the wisdom of Chinese philosophy contained in cultural relics and reveals the thought and exploration of ancient Chinese sages to the secrets of human nature

Walker, 2025-10-21 The Routledge Companion to Chinese Philosophy features more than 40 chapter length introductions to the concepts claims and arguments that animate the Chinese philosophical tradition Taking a topic by topic rather than text by text approach this Companion aims at helping contemporary Anglophone readers access the philosophical riches of the Chinese tradition by balancing close analysis with broad contextualization The book is divided into four Acts that reflect system level changes in how the Chinese philosophical conversation has been conducted Act I draws primarily on pre imperial texts foregrounding competition among persuaders in the absence of a geographical or canonical center of gravity Act II focuses on the early imperial centralization of intellectual culture around the corpus of Confucian classics Act III restructures the conversation space according to the radically innovative priorities of Buddhism Act IV focuses on Neo Confucianism which combines some of the priorities of Act II with the ongoing legacy of Act III Within each Act contributors focus on topics like religious and political thought ethics and self cultivation philosophical anthropology and theory of agency language epistemology metaphysics hermeneutics and debate This volume is essential reading for students academics and philosophers with an interest in Chinese philosophy

The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds Rebecca Futo Kennedy, Molly Jones-Lewis, 2016-01-08 The Routledge Handbook of Identity and the Environment in the Classical and Medieval Worlds explores how environment was thought to shape ethnicity and identity discussing developments in early natural philosophy and historical ethnographies Defining environment broadly to include not only physical but also cultural environments natural and constructed the volume considers the multifarious ways in which environment was understood to shape the culture and physical characteristics of peoples as well as how the ancients manipulated their environments to achieve a desired identity This diverse collection includes studies not only of the Greco Roman world but also ancient China and the European Jewish and Arab inheritors and transmitters of classical thought In recent years work in this subject has been confined mostly to the discussion of texts that reflect an approach to the barbarian as other The Routledge Handbook of

Identity and the Environment in the Classical and Medieval Worlds takes the discussion of ethnicity on a fresh course contextualising the concept of the barbarian within rational discourses such as cartography medicine and mathematical sciences an approach that allows us to more clearly discern the varied and nuanced approaches to ethnic identity which abounded in antiquity The innovative and thought provoking material in this volume realises new directions in the study of identity in the Classical and Medieval worlds **Wolf Totem and the Post-Mao Utopian** Xiaojiang Li,2018-03-12 Wolf Totem and the Post Mao Utopian by Li Xiaojiang explores the controversial best selling novel by the political economist Jiang Rong as an allegory of utopia through discussion of an encyclopaedic range of scholarship in the humanities and social sciences that offer thinking on topics introduced in the novel In promoting the significance of utopian thought Li stresses that the term for her study post utopian criticism is not the same as anti utopian criticism but an analytical approach to criticism in order to addresses the shortcomings of postmodern and postcolonial theories applied to contemporary China and to open up interpretive space for the specific historical experience of its people and its utopian ideals A Study of Legal Tradition of China from a Culture Perspective Zhiping Liang,2023-03-10 Professor Zhiping Liang offers a new understanding of Chinese legal tradition in this profoundly influential book Unlike the available literature using the usual method of legal history research this book attempts to illustrate ancient Chinese legal tradition through cultural interpretation The author holds that both the concept and practice of law are meaningful cultural symbols The law reveals not only the life pattern in a specific time and space but also the world of the mind of a specific group of people Therefore just as cultures have different types laws embedded in different societies and cultures also have different characters and spirits Believing that human experience is often condensed into concepts categories and classifications the author begins his discussion with the analysis of relevant terms and then seeks to understand history by interpreting the interaction and interconnectedness of the words ideas and practices Based on the same understanding the author uses modern concepts reflectively and critically consciously exploiting the differences between ancient and contemporary Chinese and Western concepts to achieve a more realistic understanding of history while avoiding the ethnocentrism and modern centrism common in historical studies 2004 Lectures P J Marshall,2005-12-22 The topical issues debated in this volume include the patenting of AIDS drugs the future pensions crisis Britain s universities and Pan Islam There are studies of Shakespeare Pope Montaigne Robert Graves and William Faulkner And there are lectures on the Inquisition empires in history and the journey towards spiritual fulfilment

Chinese Ideas About Nature and Society Charles Le Blanc,Susan Blader,1987-05-01 The universe in Chinese eyes is a harmonious organism its pattern of movement is inherent and not imposed from without and the world of man being a part of the universe follows a similar pattern Derk Bodde Harmony and Conflict in Chinese Philosophy The main theme that pervades this Festschrift written by fellow scholars and students of Bodde for his seventy fifth birthday is that of the proper ordering of the universe as it obtains in the Chinese tradition **The Lost Texts of Confucius' Grandson: Guodian, Zisi,**

and Beyond Kuan-yun Huang, The Guodian manuscripts are a cache of literary and philosophical texts from the fourth century BCE discovered in a Warring States period tomb in China's Hubei Province Through detailed decipherment and textual analysis Kuan yun Huang investigates the historical and philosophical contexts of these texts and convincingly proposes their association with Zisi the grandson of Confucius Huang not only offers an in depth portrait of this famous scion from excavated texts and transmitted literary records but also reveals the connection of the Guodian texts with early intellectual tradition in China including the teachings of Xunzi Mencius Confucius and the legendary Laozi as well as the effort of rewriting that transformed Zisi's original teachings into a conformist line of thinking which defined and constituted the Confucian tradition of a later time In Kuan yun Huang's The Lost Texts of Confucius Grandson the shadowy figure of Zisi comes to life as an antinomian thinker whose works fill the lacuna between Confucius and Mencius What is most compelling about this book is its insistence that in scholarship we must respect the interpretive context The new putative Zisi materials have to be read in such a way that they are correlated with and situated clearly within what Huang calls the literary record Huang's synoptic understanding of the literature allows for much abduction in his presentation a kind of academic sleuthing in his best efforts to connect the dots While an exciting read for those scholars who know the texts and specialize in ancient philosophical literature at the same time the story it tells will be of interest to all scholars who work in the field of Chinese studies Roger T Ames Humanities Chair Professor Peking University Huang carefully explicates what the newly discovered manuscripts teach us about fate moral cultivation familial love and obligation and service in government as well as other concepts that were originally meant to provide social order in the Warring States kingdoms during the time of Zisi and the generations of thinkers subsequent to him Through close textual analysis and with each explanation of these ideas Huang shows that we must shake ourselves loose from earlier assumptions about their significance and embrace what the recently recovered sources tell us Jeffrey Riegel Professor Emeritus University of California Berkeley The Guodian corpus has transformed our understanding of early Chinese thought Huang does a masterful job of situating these texts in their historical and philosophical context relying on the most current scholarly literature as well as insights gained from more recent discoveries all in a very accessible style Highly recommended Edward Slingerland Professor of Philosophy University of British Columbia

Late Classical Chinese Thought Chris Fraser, 2023 Chris Fraser presents a rich study of the culminating period of classical Chinese philosophy the third century BC He offers new perspectives on Confucianism Daoism Mohism Legalism and other movements ranging over metaphysics and metaethics political philosophy ethics moral psychology epistemology philosophy of language and logic

Imitations of the Self: Jiang Yan and Chinese Poetics Nicholas Morrow Williams, 2014-11-06 Imitations of the Self reevaluates the poetry of Jiang Yan 444-505 long underappreciated because of its pervasive reliance on allusion by emphasizing the self-conscious artistry of imitation In context of imitation poetry the popular genre of the Six Dynasties era Jiang's work can be seen as the culmination of central

trends in Six Dynasties poetry His own life experiences are encoded in his poetry through an array of literary impersonations reframed in traditional literary forms that imbue them with renewed significance A close reading of Jiang Yan s poetry demonstrates the need to apply models of interpretation to Chinese poetry that do justice to the multiplicity of authorial self representation
