Stamm, 2012-11-12 In this lovely meditation on ikebana the Japanese art of flower arranging Joan Stamm shows us how her twin paths of Buddhist practice and artistic endeavor converge and indeed become thoroughly intertwined Stamm s lush elegant voice weaves childhood memories of her mother s joy at a just bloomed morning glory with meditations on the symbolic importance of bamboo of pine of the lily She takes us with her on her travels to Japan as she learns the essential principles of ikebana and lets us join her as she teaches flower arranging to women in a nursing home who though they won t recall tomorrow the rules of arrangement or even the flowers names nonetheless partake in the joy and love that celebrates all living things however briefly they endure And when Joan shows us the natural symmetry of a blossom we find that we too have regained our balance Includes 16 full color photographs of the author s original ikebana **Three Simple Lines** Natalie Goldberg, 2020-12-29 One of the world s foremost writing teachers invites readers on a joyful journey into the reading and origins of haiku A haiku is three simple lines But it is also as Allen Ginsberg put it three lines that make the mind leap A good one he said lets the mind experience a small sensation of space which is nothing less than God As many spiritual practices seek to do the haiku s spare yet acute noticing of the immediate and often ordinary grounds the reader in the pure awareness of now Natalie Goldberg is a delightfully companionable tour guide into this world She highlights the history of the form

Ruin Memories Bjørnar Olsen,Þóra Pétursdóttir,2014-04-24 Since the nineteenth century mass production consumerism and cycles of material

replacement have accelerated increasingly larger amounts of things are increasingly victimized rapidly and made redundant At the same time processes of destruction have immensely intensified although largely overlooked when compared to the research and social significance devoted to consumption and production The outcome is a ruin landscape of derelict factories closed shopping malls overgrown bunkers and redundant mining towns a ghostly world of decaying modern debris normally omitted from academic concerns and conventional histories The archaeology of the recent or contemporary past has grown fast during the last decade This development has been concurrent with a broader popular artistic and scholarly interest in modern ruins in general *Ruin Memories* explores how the ruins of modernity are conceived and assigned cultural value in contemporary academic and public discourses reassesses the cultural and historical value of modern ruins and suggests possible means for reaffirming their cultural and historic significance Crucial for this reassessment is a concern with decay and ruination and with the role things play in expressing the neglected unsuccessful and ineffable Abandonment and ruination is usually understood negatively through the tropes of loss and deprivation things are degraded and humiliated while the information knowledge and memory embedded in them become lost along the way Without even ignoring its many negative and traumatizing aspects a main question addressed in this book is whether ruination also can be seen as an act of disclosure If ruination disturbs the routinized and ready to hand to what extent can it also be seen as a recovery of memory as exposing meanings and presences that perhaps are only possible to grasp at second hand when no longer immersed in their withdrawn and useful reality Anybody interested in the archaeology of the contemporary past will find *Ruin Memories* an essential guide to the very latest theoretical research in this emerging field of archaeological thought **Poetry and Zen**
