Handbook Of Emotional Disorders In Later Life Assessment And Treatment

ML Yell

Handbook Of Emotional Disorders In Later Life Assessment And Treatment:

Handbook of Emotional Disorders in Later Life Ken Laidlaw, Bob Knight, 2008 Although the perceptions and realities of ageing have changed markedly over the last few decades for practitioners working with older people emotional problems remain a major factor of health and happiness in later life This handbook provides a concise authoritative and up to date guide to best practice in therapy for older people for a wide range of mental health professionals The editors bring together chapters by experienced trainers and clinicians that cover all the significant problems and issues in the assessment and treatment of emotional disorders in later life The introductory chapters examine the individual social cultural and physical experience of ageing and provide an essential background for a caring and professional understanding of related emotional disorders and their effective treatment Throughout the book key research and clinical experience is reported as underlying evidence based treatment but the emphasis is on practical guidance for assessment and interventions rather than detailed discussion of methodological issues With each chapter written by a specialist in their field a range of expertise is provided in a single source making this book an invaluable resource for anyone dealing with the mental health needs of older people

Cognitive Behavioural Therapy with Older People Ian Andrew James, 2010 This book is a detailed guide to using CBT with older people both with and without cognitive difficulties Reviewing its use in different settings it covers both conceptual and practical perspectives and details everything from causes and initial assessment to case formulation and change techniques

The Handbook of Adult Clinical Psychology Alan Carr, Muireann McNulty, 2016-03-31 The second edition of the Handbook of Adult Clinical Psychology An Evidence Based Practice Approach like its predecessor provides clinical psychologists in training with a comprehensive practice handbook to help build the skills necessary to complete a clinical placement in the field of adult mental health While practical in orientation the book is based solidly on empirical evidence Building on the success of the previous edition this handbook has been extensively revised in a number of ways Throughout the book the text references and website addresses and have been updated to reflect important developments since the publication the first edition Recent research findings on the epidemiology aetiology course outcome assessment and treatment of all psychological problems considered in this volume have been incorporated into the text Account has been taken of changes in the diagnosis and classification of psychological problems reflected in the DSM 5 Chapters on ADHD in adults emotion focused therapy radically open dialectical behaviour therapy and schema therapy have been added The book is divided into 6 sections Section 1 covers conceptual frameworks for practice lifespan development classification and epidemiology CBT psychodynamic emotion focused systemic and bio medical models and general assessment procedures Section 2 deals with mood problems depression bipolar disorder suicide risk and anger management Section 3 focuses on anxiety problems social phobia generalized anxiety disorder panic disorder obsessive compulsive disorder post traumatic stress disorder and depersonalization disorder Section 4 deals with psychological problems linked to physical health health

anxiety somatization chronic pain adjustment to cancer and eating disorders Section 5 focuses on other significant psychological problems that come to the attention of clinical psychologist in adult mental health services ADHD in adults alcohol and other drug problems psychosis and psychological problems in older adults Section 6 contains chapters on therapeutic approaches to psychological distress related to complex childhood trauma dialectical behaviour therapy for borderline personality disorder racially open dialectical behaviour for over controlled presentations and schema therapy Each of the chapters on clinical problems explains how to assess and treat the condition in an evidence based way with reference to case material Interventions from cognitive behavioural psychodynamic interpersonal systemic and biomedical approaches are described where there is evidence that they are effective for the problem in question Skill building exercises and further reading for psychologists and patients are included at the end of each chapter This book is one of a set of three volumes which cover the lion s share of the curriculum for clinical psychologists in training in the UK and Ireland The other two volumes are the Handbook of Child and Adolescent Clinical Psychology Third Edition by Alan Carr and the Handbook of Intellectual Disability and Clinical Psychology Practice Second Edition edited by Alan Carr Christine Linehan Gary O Reilly Patricia Noonan Walsh John McEvoy

J.

Bishop,Elizabeth Boling,Jan Elen,Vanessa Svihla,2020-09-21 The 5th edition of the prestigious AECT Handbook continues previous efforts to reach outside the traditional instructional design and technology community to the learning sciences and computer information systems communities toward developing a conceptualization of the field However given the pervasive and increasingly complex role technology now plays in education since the 1st edition of the Handbook in 1996 the editors have reorganized the research chapters in this edition to focus on the learning problems we are trying to solve with educational technologies rather than to focus on the things we are using to solve those problems Additionally for the first time this edition of the Handbook reflects our field s growing understanding of the importance of design scholarship to inform practice by including design case chapters These changes for this edition of the Handbook are intended to bring educational technology research into the broader framework of educational research by elaborating on the role instructional design and technology plays as a scholarly discipline in addressing education s increasingly complex issues Provides comprehensive reviews of new developments in educational technology research and design practice Includes concrete examples to guide future research and practice in the ways emerging technologies can be used to solve educational problems Contains extensive references furnished to guide readers to the most recent research and design practice in the field of instructional design and technology
