To illustrate how understanding context is key to successful strategic HRM, this text doesn't offer best practice solutions but takes a critical perspective. Key additions: New chapter on talent management; New chapter on strategy implementation; New case studies including CERN, IKEA and Efteling. Major revisions to chapters on achieving the right balance and HR roles. Key Features: Cases and Discussion Questions provide real world scenarios and issues to illustrate contemporary HR issues in practice; Stop and Reflect Boxes throughout each chapter designed to encourage students to critically evaluate topics and issues raised and how they can be applied to real life situations; Personal Development Boxes help students think about how to link theoretical concepts with the development of personal skills appropriate to effective HRM; Experiential Exercises present Individual and Team tasks at the end of each chapter that can be used as in-class exercises encouraging students to learn from direct experiences; Chapter Summaries provide links to learning objectives to help students remember key facts, concepts and issues. They also serve as an excellent study or revision guide. Strategic Human Resource Management Ananda Das Gupta, 2020-03-25 The concept of strategic human resource management has developed widely in the last couple of years especially because of the impact of human resources on the competitiveness of organizations The development of human resource strategies involves taking into account their multiple mutual dependencies and the fact that they must be vertically integrated with the business strategy These strategies define the intentions and plans related to the overall organizational considerations such as organizational competitiveness effectiveness or image and to more specific aspects of human resources management such as resourcing motivating valuating learning and development reward and employee relations Strategic management of human resources provides a large perspective on the way critical issues or success factors related to people can be addressed and how different concepts of strategic decisions are made with long term impacts on the behavior and success of the organization The fundamental objective of human resource strategic management is to generate strategic capabilities by ensuring that the organization has the high qualified committed and well motivated employees it needs to achieve and sustain the competitive advantage The emergence of strategic human resource management SHRM is influenced by global competition and the corresponding search for sources of a sustainable competitive advantage SHRM has achieved its prominence because it provides a means by which business firms can enhance the competitiveness and promote managerial efficiency It facilitates the development of human capital that meets the requirements of a competitive business strategy so that organizational goals and the mission of the organization will be achieved The HRM system is defined as a set of distinct but interrelated activities functions and processes that are directed at attracting developing and maintaining or

disposing of a firm's human resources. Many agree that HRM is the most effective tool which contributes to the creation of human capital and in turn contributes to organizational performance and the competitive advantage.
