Balk, 2014-02-18 For some life s introduction to death and grief comes early and when it does it can take many forms Not only does *Dealing with Dying Death and Grief during Adolescence* tackle them all it does so with David Balk s remarkable sensitivity to and deep knowledge of the pressures and opportunities adolescents face in their transition from childhood to adulthood In seamless jargon free language Balk brings readers up to date with what we know about adolescent development because over time such changes form the backstory we need to comprehend the impact of

death and bereavement in an adolescent's life. The book's later chapters break down the recent findings in the study of life threatening illness and bereavement during adolescence. And crucially these chapters also examine interventions that assist adolescents coping with these difficulties. Clinicians will come away from this book with both a grounded understanding of adolescent development and the adolescent experience of death and they'll also gain specific tools for helping adolescents cope with death and grief on their own terms. For any clinician committed to supporting adolescents facing some of life's most difficult experiences this integrated up to date and deeply insightful text is simply the book to have. David E Balk is professor in the department of health and nutrition sciences at Brooklyn College CUNY where he directs the graduate program in thanatology. He is the author of *Adolescent Development Early Through Late Adolescence* Helping the Bereaved College Student and several other books on death and bereavement. Midwives Coping with Loss and Grief Doreen Kenworthy, Mavis Kirkham, 2019-01-22 The experience of stillbirth and other losses in pregnancy at what is usually a time of great joy is tragic for everyone involved including midwifery professionals. Although research increasingly shows how profound the effects of loss can be few studies have explored the effects of pregnancy loss which often leads to other personal and professional traumas such as loss of autonomy or a workplace on midwives. This in depth investigation uses a phenomenological approach to capture midwives experiences of loss and grief in their own words and encompasses both pregnancy loss and wider professional and personal issues. It then makes recommendations to enhance midwives resilience and ability to cope appropriately whilst giving maximum support to their clients. Reflections on the emerging implications for midwifery education and practice further broaden the scope of the analysis. The insights in this book will be of great use to midwifery.
