Hanging Out in the Virtual Pub Lori Kendall,2002-06-27 Lori Kendall is one of the first to explore the brave new world of social relations as they have evolved on the Internet In this highly readable ethnography she examines how men and women negotiate their gender roles on an online forum she calls BlueSky The result is a first rate analysis of the emerging social phenomenon of Internet mediated communication and a ground breaking study of the social and cultural effects of a medium that allows participants to assume identities of their own choosing Despite the common assumption that the personas these men and women craft for themselves bear little resemblance to reality Kendall discovers that the habitu s of BlueSky stick surprisingly close to the facts of their actual lives and personalities *Hanging Out in the Virtual Pub* Lori Sue Kendall,1998

Virtual Communities Felicia Wu Song, 2009 Does contemporary Internet technology strengthen civic engagement and democratic practice The recent surge in online community participation has become a cultural phenomenon enmeshed in ongoing debates about the health of American civil society But observations about online communities often concentrate on ascertaining the true nature of community and democracy typically rehearsing familiar communitarian and liberal perspectives This book seeks to understand the technology on its own terms focusing on how the technological and organizational configurations of online communities frame our contemporary beliefs and assumptions about community and the individual It analyzes key structural features of thirty award winning online community websites to show that while the values of individual autonomy egalitarianism and freedom of speech dominate the discursive content of these communities the practical realities of online life are clearly marked by exclusivity and the demands of commercialization and corporate surveillance Promises of social empowerment are framed within consumer and therapeutic frameworks that undermine their democratic efficacy As a result online communities fail to revolutionize the civic landscape because they create cultures of membership that epitomize the commodification of community and public life altogether
