Logic Estrangement Reason Unreasonable Form:

The Logic of Estrangement Julius Sensat, 2016-04-29 The book recasts the concept of estrangement as reason in an unreasonable form traces its development in writings of Kant Hegel and Marx supplies a game theoretic reconstruction of it and assesses its significance for a critical understanding of John Rawls's philosophy *Public Reason and Political Autonomy* Blain Neufeld, 2022-02-23 This book advances a novel justification for the idea of public reason citizens within diverse societies can realize the ideal of shared political autonomy despite their adherence to different religious and philosophical views by deciding fundamental political questions with public reasons Public reasons draw upon or are derived from ecumenical political ideas such as toleration and equal citizenship and mutually acceptable forms of reasoning like those of the sciences This book explains that if citizens share equal political autonomy and thereby constitute a civic people they will not suffer from alienation or domination and can enjoy relations of civic friendship Moreover it contends that the ideal of shared political autonomy cannot be realized by alternative accounts of public justification that eschew any necessary role for public reasons In addition to explaining how the ideal of political autonomy justifies the idea of public reason this book presents a new analysis of the relation between public reason and ideal theory by engaging in public reasoning citizens help create a just society that can secure the free compliance of all It also explores the distinctive policy implications of the ideal of political autonomy for gender equality families children and education Mythology, Madness, and Laughter Markus Gabriel, Slavoj Žižek, 2009-10-02 *Mythology Madness and Laughter Subjectivity in German Idealism* explores some long neglected but crucial themes in German idealism Markus Gabriel one of the most exciting young voices in contemporary philosophy and Slavoj Žižek the celebrated contemporary philosopher and cultural critic show how these themes impact on the problematic relations between being and appearance reflection and the absolute insight and ideology contingency and necessity subjectivity truth habit and freedom Engaging with three central figures of the German idealist movement Hegel Schelling and Fichte Gabriel and Žižek who here shows himself to be one of the most erudite and important scholars of German idealism ask how is it possible for Being to appear in reflection without falling back into traditional metaphysics By applying idealistic theories of reflection and concrete subjectivity including the problem of madness and everydayness in Hegel this hugely important book aims to reinvigorate a philosophy of finitude and contingency topics at the forefront of contemporary European philosophy MARKUS GABRIEL is Assistant Professor of Philosophy at the New School for Social Research NY He has published a number of books and journal articles in German including *Der Mensch im Mythos* De Gruyter 2006 and *Das Absolute und die Welt in Schellings Freiheitsschrift* Bonn University Press 2006 **Idealism, Relativism, and Realism** Dominik Finkelde, Paul M. Livingston, 2020-05-05 Several debates of the last years within the research field of contemporary realism known under titles such as New Realism Continental Realism or Speculative Materialism have shown that science is not systematically the ultimate measure of truth and reality This does not mean that

we should abandon the notions of truth or objectivity all together as has been posited repeatedly within certain currents of twentieth century philosophy However within the research field of contemporary realism the concept of objectivity itself has not been adequately refined What is objective is supposed to be true outside a subject's biases interpretations and opinions having truth conditions that are met by the way the world is The volume combines articles of internationally outstanding authors who have published on either Idealism Epistemic Relativism or Realism and often locate themselves within one of these divergent schools of thought As such the volume focuses on these traditions with the aim of clarifying what the concept objectivity nowadays stands for within contemporary ontology and epistemology beyond the analytic continental divide With articles from Jocelyn Benoist Ray Brassier G Anthony Bruno Dominik Finkelde Markus Gabriel Deborah Goldgaber Iain Hamilton Grant Graham Harman Johannes Heidegger Andrea Kern Anton F Koch Martin Kusch Paul M Livingston Paul Redding Sebastian Riedl Dieter Sturma

Hegel's Philosophy of the Historical Religions Bart Labuschagne, Timo

Slootweg, 2012-04-19 No topic ever disquieted Hegel more than that of Religion It haunted him and he wrestled with it all during his life from his brilliant youthful writings on spirit of Judaism and Christianity up until the Lectures on the Philosophy of Religion of 1831 Of the Determinate Religions Hegel wrote many profound and exhilarating philosophical interpretations This volume brings together a collection of critical essays that discuss Hegel's relation to each of these historical Religions including the Islam and of course the revealed religion of Christianity Catholicism and Protestantism All chapters aim to shed light on the intriguing development of Hegel's conception of the dialectic of Religion Taken together they develop a comprehensive view of Hegel's philosophy of the historical Religions His grandiose and provocative perceptions and thoughtscapes enhance the appetite for the much needed philosophical appreciation of the phenomenon of religion

Alienation and Theatricality Phoebe von Held, 2017-07-05 Alienation Vefremdung is a concept inextricably linked with the name of

twentieth century German playwright Bertolt Brecht with modernism the avant garde and Marxist theory However as Phoebe von Held argues in this book alienation as a sociological and aesthetic notion avant la lettre had already surfaced in the thought of eighteenth century French philosopher and writer Denis Diderot This original study destabilizes the conventional understanding of alienation through a reading of *Le Paradoxe sur le comédien* *Le Neveu de Rameau* and other works by Diderot opening up new ways of interpretation and aesthetic practices If alienation constitutes a historical development for the Marxist Brecht for Diderot it defines an existential condition Brecht uses the alienation effect to undermine a form of naturalism based on subjectivity identification and illusion Diderot by contrast plunges the spectator into identification and illusion to produce an aesthetic of theatricality that is profoundly alienating and yet remains anchored in subjectivity

present ideas Evelyn Waugh Alain Blayac,1991-12-02 In this volume of essays casting new light on aspects of Waugh's life and writings the essential Waugh emerges as a diffident artist and a sensitive recorder not only of the Roaring Twenties but also of his century Evelyn Waugh's undisputed talent and controversial personality are set off in a series of studies that provide new elements towards the understanding of the man and the artist the annulment of his first marriage his relations with the BBC are for the first time dealt with in depth and objectivity *Affect and American Literature in the Age of Neoliberalism* Rachel Greenwald Smith,2015-04-20 Rachel Greenwald Smith's *Affect and American Literature in the Age of Neoliberalism* examines the relationship between contemporary American literature and politics Through readings of works by Paul Auster Karen Tei Yamashita and others Smith challenges the neoliberal notion that emotions are the property of the self Thinking Systematics Murray E.G. Smith,Tim Hayslip,2025-02-14T00:00:00Z Thinking Systematics TSS is conceived as a toolkit for the mind designed to improve how we think about the world analyze information and pursue our goals Smith and Hayslip make a compelling argument that individual thinking and collective decision making are being systematically constrained within limits imposed by outmoded forms of cognition and the determination of privileged elites to perpetuate an unsustainable status quo The dialectical reasoning advocated in this wide ranging book aims to overcome those limits and to allow a much more profound understanding of the human condition in the 21st century Mainstream problem solving focuses almost exclusively on scientific technological fixes on one side and moral cultural remedies on the other But to comprehend our world adequately far more serious attention must be given to the specifically social economic and political arrangements shaping our lives Once embraced by growing numbers of people TSS strategies methods and habits of thought can contribute significantly to a new common sense one adequate to meeting the immense challenges facing humanity in our era

Negativity and Democracy Vasilis Grollios,2017-01-12 The current political climate of uncompromising neoliberalism means that the need to study the logic of our culture that is the logic of the capitalist system is compelling Providing a rich philosophical analysis of democracy from a negative non identity dialectical perspective Vasilis Grollios encourages the reader not to think of democracy as a call for a more effective domination of the people or as a demand for the replacement of the elite that currently holds power In doing so he aspires to fill in a gap in the literature by offering an out of the mainstream overview of the key concepts of totality negativity fetishization contradiction identity thinking dialectics and corporeal materialism as they have been employed by the major thinkers of the critical theory tradition Marx Engels Horkheimer Lukacs Adorno Marcuse Bloch and Holloway Their thinking had the following common keywords contradiction fetishism as a process and the notion of spell and all its implications The author makes an innovative attempt to bring these concepts to light in terms of their practical relevance for contemporary democratic theory **The Problem of Truth and Reality in Grisebach's Thought** G.
