Teaching Globally Kathy Short, Deanna Day, Jean Schroeder, 2023-10-10 With the world visibly present in students' lives through technology, mass and social media's economic interdependency and global mobility, it is more important than ever to develop curriculum that is intercultural. In *Teaching Globally: Reading the World Through Literature*, a community of educators show us how to use global children's literature to help students explore their own cultural identities. Edited by Kathy Short, Deanna Day, and Jean Schroeder, this book explains why global curriculum is important and how you can make space for it within district and state school mandates. *Teaching Globally* is built around a curriculum framework developed by Short and can help teachers integrate a global focus into existing literacy and social studies curricula. Evaluate global resources, guide students as they investigate cross-cultural issues, and create classroom activities with an intercultural perspective. Filled with vignettes from K-8 urban, suburban, and rural schools that describe successes and struggles, *Teaching Globally* aims to integrate global literature into classrooms and challenge students to understand and accept those different from themselves. The book also includes extensive lists of recommendations, websites, professional books, and an appendix of global text sets as mentioned by the authors.

Genocide Literature in Middle and Secondary Classrooms Sarah Donovan, 2016-08-12 At the heart of this inquiry into the ethical implications of education reform on reading practices in middle and secondary classrooms, the central question is: what is lost, hidden, or marginalized in the name of progress? Drawing on her own experiences as an English teacher during the No Child Left Behind era, the author examines school cultures focused on meeting standards and measurable outcomes. She shows how genocide literature illuminates the ethics of reading and helps teachers and students rethink how literature should be taught in this modern, globalized era and the purposes of education more broadly.

The Critical Merits of Young Adult Literature Crag Hill, 2014-03-05 This examination of the literary effectiveness of young adult literature from a critical research-oriented perspective answers two key questions asked by many teachers and scholars in the field: Does young adult literature stand up on its own as literature? Is it worthy of close study? The treatment is both conceptual and pragmatic. Each chapter discusses a topical text set of YA novels in a conceptual framework, how these novels contribute to or deconstruct conventional wisdom about key topics from identity formation to awareness of world issues, while also providing a springboard in secondary and college classrooms for critical discussion of these novels. Uncloaking many of the issues that have been essentially invisible in discussions of YA literature, these essays can then guide the design of curriculum through which adolescent readers hone the necessary skills to unpack the ideologies embedded in YA narratives. The annotated bibliography provides supplementary articles and books germane to all the issues discussed. Closing End Points highlight and reinforce cross-cutting themes throughout the book and tie the essays together.
