Economics Richard G. Lipsey, Richard Lipsey, Alec Chrystal, 2020 An illuminating and robust introduction to economics principles the fourteenth edition of Lipsey and Chrystal's established textbook continues to provide complete coverage for those new to micro and macroeconomics The authors help students to understand the subject matter through a combination of lucid explanation and supportive learning features which encourage independent thought The principles are examined through a theoretical lens before empirical examples demonstrate how the concepts work in practice The applied nature of the models is further emphasised by case studies from around the world which encourage students to develop and contextualise their understanding of the key themes Suitable for beginners the authors provide in depth explanations of key theoretical concepts which relate to a wide range of applied material End of chapter questions give students the opportunity to test their knowledge and advance their critical thinking skills Economics undergraduates studying a core module on the principles of economics It may also be suitable for students taking business management or finance and accounting degrees who are taking a module which introduces economics This book is accompanied by online resource to support both students and lecturers For students Self test questions Flashcard glossary Additional chapter material Web links For lecturers PowerPoint slides Instructor's manual Test bank Additional chapters covering Economics of Developing Countries and Macroeconomic Policy in an Open Economy

U.S. Government Research Reports, 1964      **The More Economic Approach to EU Antitrust Law** Anne C

Witt, 2016-11-17 In the late 1990s the European Commission embarked on a long process of introducing a more economic approach to EU Antitrust law One by one it reviewed its approach to all three pillars of EU Antitrust Law starting with Article 101 TFEU moving on to EU merger control and concluding the process with Article 102 TFEU Its aim was to make EU antitrust law more compatible with contemporary economic thinking On the basis of an extensive empirical analysis of the Commission's main enforcement tools this book establishes the changes that the more economic approach has made to the Commission's enforcement practice over the past fifteen years It demonstrates that the more economic approach not only introduced modern economic assessment tools to the Commission's analyses but fundamentally changed the Commission's interpretation of the law Emulating one of the key credos of the US Antitrust Revolution thirty years earlier the Commission reinterpreted the EU antitrust rules as aiming at the enhancement of economic consumer welfare only and amended its understanding of key legal concepts accordingly This book argues that the Commission's new understanding of the law has many benefits Its key principles are logical translate well into workable legal concepts and promise a great degree of accuracy However it also has a number of serious drawbacks as it stands Most worryingly its revised interpretation of the law is to large extents incompatible with the case law of the European Court of Justice which has not been swayed by the exclusive consumer welfare aim This situation is undesirable from the point of view of legal certainty and the rule of law

**Managing Community Resettlement** Robert Gerrits, 2023-06-22 Each year millions of people are displaced from their homes and lands While international environmental and social performance standards on land access and involuntary resettlement exist no framework supporting livelihood restoration has been developed This book provides a framework that will help improve practice for those who are involved in resettlement projects and crucially improve the outcomes for the resettlement affected households and communities Evidence from the implementation of public and private sector led resettlement projects indicates that livelihood restoration is a persistent shortcoming if not failure across these projects This book addresses this issue by re characterising the livelihood restoration objective as livelihood re establishment and development and proposes a framework for the entire resettlement process that puts livelihood considerations first The framework enables proactive identification of the potential livelihood challenges associated with each step of the resettlement process design planning execution monitoring and evaluation as well as the opportunities that resettlement project development and induced economic growth create This book is essential reading for experts in social impact assessment resettlement specialists planners administrators non governmental and civil society organisations and students of development studies and social policy
