Homo Sacer Sovereign Power And Bare Life Meridian Crossing Aesthetics:

Homo Sacer Giorgio Agamben, 1998-04-01 The work of Giorgio Agamben one of Italy's most important and original philosophers has been based on an uncommon erudition in classical traditions of philosophy and rhetoric the grammarians of late antiquity Christian theology and modern philosophy Recently Agamben has begun to direct his thinking to the constitution of the social and to some concrete ethico political conclusions concerning the state of society today and the place of the individual within it In *Homo Sacer* Agamben aims to connect the problem of pure possibility potentiality and power with the problem of political and social ethics in a context where the latter has lost its previous religious metaphysical and cultural grounding Taking his cue from Foucault's fragmentary analysis of biopolitics Agamben probes with great breadth intensity and acuteness the covert or implicit presence of an idea of biopolitics in the history of traditional political theory He argues that from the earliest treatises of political theory notably in Aristotle's notion of man as a political animal and throughout the history of Western thinking about sovereignty whether of the king or the state a notion of sovereignty as power over life is implicit The reason it remains merely implicit has to do according to Agamben with the way the sacred or the idea of sacrality becomes indissociable from the idea of sovereignty Drawing upon Carl Schmitt's idea of the sovereign's status as the exception to the rules he safeguards and on anthropological research that reveals the close interlinking of the sacred and the taboo Agamben defines the sacred person as one who can be killed and yet not sacrificed a paradox he sees as operative in the status of the modern individual living in a system that exerts control over the collective naked life of all individuals

Corruption in the Contemporary World Jonathan Mendilow, Ilan Peleg, 2014-09-17 This book deals with large scale systemic corruption a phenomenon that it identifies as part of the political landscape in most if not all societies of the contemporary world While the analysis is grounded in the political thought of earlier thinkers especially Edmund Burke and integrates the insights of several modern analysts of corruption the volume offers a new updated theoretical perspective on the topic This perspective reflects deep concerns with corruption in a world facing accelerated social transition increased economic polarization and growing distrust toward political elites in many countries This book approaches corrupt practices both theoretically and empirically offering the perspectives of scholars who come to the topic from different traditions and cultures It contains the collective efforts of members of the Research Committee on Political Finance and Public Corruption of the International Political Science Association In formulating a comprehensive approach on corruption the volume offers insights in regard to new developments in the United States in Middle Eastern countries especially in the wake of the Arab Spring in several European countries Austria Italy Spain as well as in the People's Republic of China The analysis goes beyond the traditional legal definitions of corruption or purely economic views of it and focuses more broadly on institutional cultural and normative dimensions of this globally important phenomenon

Sovereignty: Seventeenth-Century England and the Making of the Modern Political Imaginary Feisal G. Mohamed, 2020-02-06 This book argues that sovereignty is the

first order question of political order and that seventeenth century England provides an important case study in the roots of its modern iterations It offers fresh readings of Thomas Hobbes John Milton and Andrew Marvell as well as lesser known figures and literary texts In addition to political philosophy and literary studies it also takes account of the period s legal history exploring the exercise of the crown s feudal rights in the Court of Wards and Liveries debates over habeas rights and contests of various courts over jurisdiction Theorizing sovereignty in a way that points forward to later modernity the book also offers a sustained critique of the writings of Carl Schmitt the twentieth century s most influential if also most controversial thinker on this topic *A Radical Political Theology for the Anthropocene Era* Ryan LaMothe,2021-11-18 Given the fierce urgency of now this important book confronts and addresses key problems and questions of political theology with the aim of proposing a radical political theology for the Anthropocene Age LaMothe invites readers to think and be otherwise in living lives in common with all other human beings and other than human beings that dwell on this one earth **Law, Legal Culture and Society** Alberto Febbrajo,2018-07-04 This volume addresses the pluralistic identity of the legal order It argues that the mutual reflexivity of the different ways society perceives law and law perceives society eclipses the unique formal identity of written law It advances a distinctive approach to the plural ways in which legal cultures work in a modern society through the metaphor of the mirror As a mirror of society it distinguishes between the structure and function of legal culture within the legal system and the external representation of law in society This duality is further problematized in relation to the increasing transnationalisation of law Based on a multi level interpretation of the concept of legal culture the work is divided into three parts the first addresses the mutual reflections of social and legal norms that support a pluralist representation of internal legal cultures the second concentrates on the external legal cultures that constantly enable pragmatic adjustments of the legal order to its social environment and the third concludes the book with a theoretical discussion of the issues presented *Incompatible Ballerina and Other Essays* Charles William Johns,2015-11-27 An ontological and epistemological framework and foundation for the psychological symptom neurosis **Magical Thinking** Stuart McWilliams,2011-12-08 How do we write about magic Responding to a renewed interest in the history of the occult this volume examines the role of magic in a series of methodological controversies in the humanities In case studies ranging from the necromancy of historiography to the strident rationalism of the New Atheism Magical Thinking sets out the surprising ways in which scholars and critics have imagined the occult The volume argues that thinking and writing about magic has engendered multiple epistemological crises profoundly unsettling the understanding of history and knowledge in Western culture By examining how scholarly writing has contended and conspired with discourses of enchantment the book reveals the implications of magic and its scholarship for intellectual history **Digital Identity, Virtual Borders and Social Media** Emre E. Korkmaz,2021-04-30 This insightful book discusses how states deploy frontier and digital technologies to manage and control migratory movements Assessing the development of blockchain technologies for digital

identities and cash transfer artificial intelligence for smart borders resettlement of refugees and assessing asylum applications social media and mobile phone applications to track and surveil migrants it critically examines the consequences of new technological developments and evaluates their impact on the rights of migrants and refugees *Fantasy, Politics, Postmodernity* Andrew Rayment, 2014-06-15 The books are true while reality is lying Championing the popular Fantasy genre on the same terms as its readers Rayment casts a critical eye over the substance and methods of political critique in the Fantasy novels of Terry Pratchett Philip Pullman and China Mi ville Ranging across subjects as diverse as exquisite fundamentalism and revolutionary trains encountering pervert priests dwarf hermaphrodites and sex scarred lovers and pondering the homicidal tendencies of fairy tales and opera *Fantasy Politics Postmodernity* develops a theoretically wide ranging and illuminating account of how the novels of these writers do and do not sustain politically insightful critique of the real world while bringing intellectual and ethical concerns to bear on the popular Fantasy form *Palestine in Israeli School Books* Nurit Peled-Elhanan, 2013-10-01 Each year Israel s young men and women are drafted into compulsory military service and are required to engage directly in the Israeli Palestinian conflict This conflict is by its nature intensely complex and is played out under the full glare of international security So how does Israel s education system prepare its young people for this How is Palestine and the Palestinians against whom these young Israelis will potentially be required to use force portrayed in the school system Nurit Peled Elhanan argues that the textbooks used in the school system are laced with a pro Israel ideology and that they play a part in priming Israeli children for military service She analyzes the presentation of images maps layouts and use of language in History Geography and Civic Studies textbooks and reveals how the books might be seen to marginalize Palestinians legitimize Israeli military action and reinforce Jewish Israeli territorial identity This book provides a fresh scholarly contribution to the Israeli Palestinian debate and will be relevant to the fields of Middle East Studies and Politics more widely *Building Noah's Ark for Migrants, Refugees, and Religious Communities* Jin-Heon Jung, 2015-06-03 Building Noah s Ark for Migrants Refugees and Religious Communities examines religion within the framework of refugee studies as a public good with the spiritual and material use of religion shedding new light on the agency of refugees in reconstructing their lives and positioning themselves in hostile environments **Beyond Civil Society** Sonia E. Alvarez, Jeffrey W. Rubin, Millie Thayer, Gianpaolo Baiocchi, Agustín Laó-Montes, 2017-05-18 The contributors to Beyond Civil Society argue that the conventional distinction between civic and uncivic protest and between activism in institutions and in the streets does not accurately describe the complex interactions of forms and locations of activism characteristic of twenty first century Latin America They show that most contemporary political activism in the region relies upon both confrontational collective action and civic participation at different moments Operating within fluid dynamic and heterogeneous fields of contestation activists have not been contained by governments or conventional political categories but rather have overflowed their boundaries opening new democratic spaces or extending existing ones in the process These

essays offer fresh insight into how the politics of activism participation and protest are manifest in Latin America today while providing a new conceptual language and an interpretive framework for examining issues that are critical for the future of the region and beyond Contributors Sonia E Alvarez Kiran Asher Leonardo Avritzer Gianpaolo Baiocchi Andrea Cornwall Graciela DiMarco Arturo Escobar Raphael Hoetmer Benjamin Junge Luis E Lander Agust n La Montes Margarita L pez Maya Jos Antonio Lucero Graciela Monteagudo Amalia Pallares Jeffrey W Rubin Ana Claudia Teixeira Millie Thayer Moral Play and Counterpublic Ineke Murakami,2011-02-25 In this study Murakami overturns the misconception that popular English morality plays were simple medieval vehicles for disseminating conservative religious doctrine On the contrary Murakami finds that moral drama came into its own in the sixteenth century as a method for challenging normative views on ethics economics social rank and political obligation From its inception in itinerate troupe productions of the late fifteenth century moral play served not as a cloistered form but as a volatile public forum This book demonstrates how the genre s apparently inert conventions from allegorical characters to the battle between good and evil for Mankind s soul veiled critical explorations of topical issues Through close analysis of plays representing key moments of formal and ideological innovation from 1465 to 1599 Murakami makes a new argument for what is at stake in the much discussed anxiety around the entwined social practices of professional theater and the emergent capitalist market Moral play fostered a phenomenon that was ultimately more threatening to the peace of the realm than either theater or the notorious market a political self consciousness that gave rise to ephemeral non elite counterpublics who defined themselves against institutional forms of authority *Representing the Modern Animal in Culture* Ziba Rashidian,2014-10-02 Examining a wide range of works from Gulliver s Travels to The Hunger Games *Representing the Modern Animal in Culture* employs key theoretical apparatuses of Animal Studies to literary texts Contributors address the multifarious modes of animal representation and the range of human animal interactions that have emerged in the past 300 years The Historical Uncanny Susanne C. Knittel,2014-12-15 The Historical Uncanny explores how certain memories become inscribed into the heritage of a country or region while others are suppressed or forgotten In response to the erasure of historical memories that discomfit a public s self understanding this book proposes the historical uncanny as that which resists reification precisely because it cannot be assimilated to dominant discourses of commemoration Focusing on the problems of representation and reception the book explores memorials for two marginalized aspects of Holocaust the Nazi euthanasia program directed against the mentally ill and disabled and the Fascist persecution of Slovenes Croats and Jews in and around Trieste Reading these memorials together with literary and artistic texts Knittel redefines sites of memory as assemblages of cultural artifacts and discourses that accumulate over time they emerge as a physical and a cultural space that is continually redefined rewritten and re presented In bringing perspectives from disability studies and postcolonialism to the question of memory Knittel unsettles our understanding of the Holocaust and its place in the culture of contemporary Europe **Handbook of Citizenship**

Studies Engin F Isin, Bryan S Turner, 2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women's rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include Being Political Genealogies of Citizenship Minnesota 2002 and with P K Wood Citizenship and Identity Sage 1999 He is the Managing Editor of Citizenship Studies Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in Citizenship and Capitalism Unwin Hyman 1986 and Citizenship and Social Theory Sage 1993 He is also the author of The Body and Society Sage 1996 and Classical Sociology Sage 1999 and has been editor of Citizenship Studies since 1997 Inside the Freud Museums Joanne Morra, 2017-12-11 Sigmund Freud spent the final year of his life at 20 Maresfield Gardens London surrounded by all his possessions in exile from the Nazis The long term home and workspace he left behind in Berggasse 19 Vienna is a seemingly empty space devoid of the great psychoanalyst's objects and artefacts Now museums both of these spaces resonate powerfully Since 1989 the Freud Museum London has held over 70 exhibitions by a distinctive range of artists including Louise Bourgeois Sophie Calle Mat Collishaw Susan Hiller Sarah Lucas and Tim Noble and Sue Webster The Sigmund Freud Museum Vienna houses a small but impressive contemporary art collection with work by John Baldessari Joseph Kosuth Jenny Holzer Franz West and Ilya Kabakov In this remarkable book Joanne Morra offers a nuanced analysis of these historical museums and their unique relationships to contemporary art Taking us on a journey through the site responsive artworks exhibitions and curatorial practices that intervene in the objects spaces and memories of these museums Joanne Morra offers a fresh experience of the history and practice of psychoanalysis of museums and contemporary art Passionate Embrace Elisabeth Gerle, 2018-01-01 Protestant ethics has often been associated with work and duty

excluding sensuality sexuality and other pleasures In an age of body worship as well as body loathing Elisabeth Gerle explores new paths embarking on a conversation with Martin Luther in dialogue with contemporary theologians on attitudes towards desire ethics and politics She draws on Eros theology to challenge traditional Lutheran stereotypes such as the dichotomies between different forms of love as well as between spirit and body Gerle argues that Luther's spiritual breakthrough where grace and gifts of creation became central provides new meaning to sex and desire as well as to work body and ordinary life Women are seen in a new light as companions autonomous ethical agents part of the priesthood of all This had revolutionary consequences in Europe at the time and it represents a challenge to contemporary theologies with a nostalgic appetite for austerity asceticism and female submission Luther's erotic and genderfluid language is a healthy challenge to oppressive political structures centred on greed profit and competition A revised Scandinavian creation theology and a deep sense of the incarnational mystery are resources for contemporary theology and ethics

Jornalero Juan Thomas Ordonez, 2015-05-01 The United States has seen a dramatic rise in the number of informal day labor sites in the last two decades Typically frequented by Latin American men mostly undocumented immigrants these sites constitute an important source of unskilled manual labor Despite day laborers ubiquitous presence in urban areas however their very existence is overlooked in much of the research on immigration While standing in plain view these jornaleros live and work in a precarious environment as they try to make enough money to send home they are at the mercy of unscrupulous employers doing dangerous and underpaid work and ultimately experiencing great threats to their identities and social roles as men Juan Thomas Ordonez spent two years on an informal labor site in the San Francisco Bay Area documenting the harsh lives led by some of these men during the worst economic crisis that the United States has seen in decades He earned a perspective on the immigrant experience based on close relationships with a cohort of men who grappled with constant competition stress and loneliness Both eye opening and heartbreaking the book offers a unique perspective on how the informal economy of undocumented labor truly functions in American society

Heavenly Bodies Sigurdson, 2016 Deep and wide study of 2 000 years of Christian thought on the human body Does Christianity scorn our bodies Friedrich Nietzsche thought so and many others since him have thought the same Ola Sigurdson contends to the contrary that Christianity understood properly in fact affirms human embodiment Presenting his constructive contributions to theology in relation to both historical and contemporary conceptions of the body Sigurdson begins by investigating the anthropological implications of the doctrine of the incarnation He then delves into the concept of the gaze and discusses a specifically Christian gaze of faith that focuses on God embodied in Jesus Finally he weaves these strands into a contemporary Christian theology of embodiment Sigurdson's profound engagement with the whole history of Christian life and thought not only elucidates the spectrum of Christian perspectives on the body but also models a way of thinking historically and systematically that other theologians will find stimulating and challenging
